All models with fly.

3. WonderGliss

Sanitary ceramics with the special WonderGliss surface finish will remain clean and attractive-looking for a long time to come. Thanks to the coating which is fired into the ceramics, water immediately contracts into drops and drips off, taking any other residuals substances (like e.g. lime) along. The result: less polluting deposits, less cleaning work - more fun in the bathroom! For more information please refer to www.duravit.com.

WonderGliss
+ 101 € per piece
Simply add a ´1´ to the model-no.

4. HygieneGlaze

A high level of hygiene is required in the bathroom. Unwanted, sometimes even harmful bacteria and germs can collect in toilets in particular. Duravit has taken this issue on board and developed the innovative ceramic HygieneGlaze glaze, which defines a new standard of hygiene for toilets and urinals. The new development is not merely a surface coating but an antibacterial ceramic glaze that provides almost indefinite effectiveness. HygieneGlaze is integrated into the ceramic glaze during firing. Toilets and urinals that are available with HygieneGlaze are indicated accordingly. Please note that, due to the differing surface properties WonderGliss and HygieneGlaze cannot be combined.

5. Cutout templates

Necessary cutout templates are enclosed to the products. DXF-data are available on pro.duravit.com.

6. CAD drawings

CAD data of Duravit sanitary ware can be downloaded from our internet website www.duravit.com or pro.duravit.com (DXF, DWG, IGS, STP, Revit).

7. Special indications

When ordering please make sure that you use the correct model numbers:

2 3 3 5 5 5 3 2 0 0

When ordering items with WonderGliss-coating please add a „1“ as 11th digit.

2 3 3 5 5 5 3 2 0 0 1

Modell — Farbe — Ausführung — WonderGliss

8. Tolerances

All drawings are showing the necessary dimensions in mm with standard tolerances. They are without obligation as proper dimensions can be taken from finished products only.

9. DuraSolid

For information about cleaning and care of your DuraSolid product, please have a look at the care instructions.

10. Dimensioning/Weights

The indicated dimensions in mm always refer to width x depth. Mentioned weights are net.

11. Guarantee

Duravit Aktiengesellschaft, Werderstraße 36, 76132 Hornberg, Germany, provides a lifetime warranty on ceramics of certain series. The end customer can easily register these Duravit ceramics online up to 3 months after purchase and receive a personal certificate. If a defect of material, manufacturing or design is discovered, the claim can also be made online. In the event of a warranty claim, Duravit will assume the costs for the installation and removal of the affected product. Further conditions and details can be found in the relevant warranty conditions, which are available online.
In addition to the lifetime warranty, Duravit AG offers a voluntary warranty of 5 years for selected products to end customers. Requirements and details can be found in the relevant warranty conditions available online.

1. Order number
When ordering please make sure that you use the correct model numbers.

W D 5 0 0 3 0 1 2 0 0 0
Modell Colour Material

2. Dimensioning / Weights
The indicated dimensions in mm always refer to width x height. Mentioned weights are net.

3. Tolerances
All drawings are showing the necessary dimensions in mm with standard tolerances. They are without obligation as proper dimensions can be taken from finished products only.

4. Preinstallation sheets
Please note the preinstallation sheets of our products. That can be downloaded from our internet website www.duravit.com or pro.duravit.com.

5. Important installation notes
WD1012 000 000, WD1014 000 000
Because of the low fan capacity and the relating low exhaust air volume the odor extraction is not a replacement for an room ventilation system as per DIN 18017. The odor extraction can not be combined with the ceramics #254609, #021009, #221509.

WD1012 000 000
To use the odor extraction a customer installed switch is needed.

WD6001 011 000, WD6001 021 000
The flush mounted installation frame is needed for the panelling during the installation process. Suitable for drywall constuction plating with a minimum thickness of 25 mm and wall covering 6 - 15 mm

WD6002 000 000
For installation of the hygienic flush for mains operation the pre-installation kit #WD6004 000 000 must be ordered.

WD6003 000 000
Hygienic flush only in combination with front actuation possible

WD6013 000 000
The expansion element can be mounted directly lateral on the installation element or freestanding as single support.When mounted the expansion element as single support, #WD6014 000 000 must be ordered.

507200 000 0/100729 000 0
Is needed during the installation process

6. Standard scope of delivery
Standard scope of delivery toilet frame dry wall installation
- incl.PE-wall-mounted toilet connection bend DN90/90
- incl. PE-wall-mounted toilet connection set DN90
- incl. PE wall-mounted toilet reduction DN 90/110 for outlet bend
- incl. wall-mounted toilet fastening set M12
- incl. mounting accessoires for lightweight construction
- incl. cover caps

Scope of delivery toilet frame wet wall installation
- incl.PE-wall-mounted toilet connection bend DN90/90
- incl. PE-wall-mounted toilet connection set DN90
- incl. PE wall-mounted toilet reduction DN 90/110 for outlet bend
- incl. wall-mounted toilet fastening set M12
- incl. cover caps

Standard scope of delivery urinal frame
- incl. hanger bolts M8
- incl. sound insulated elbow tap connector G1/2
- incl. cover caps
- incl. drain pipe clip DN50
- incl. HT-connection bend DN 50
- incl. mounting accessoires for lightweight construction
- incl. mounting accessoires for single installation

Standard scope of delivery washbasin frame
- incl.sound insulated elbow tap connectors G1/2
- incl. drain pipe clip DN50
- incl. HT- connection bend DN50/40
- incl. mounting accessoires for lightweight construction
- incl. mounting accessoires for single installation

Scope of deliver bidet frame
- incl. threaded rods M12
- incl. sound insulated elbow tap connectors G1/2
- incl. drain pipe clip DN50
- incl. HT- connection bend DN50/40
- incl. mounting accessoires for lightweight construction
- incl. mounting accessoires for single installation
- incl. cover caps

Scope of delivery actuator plates
- incl. installation frame
- incl. mounting accessoires

Product specific scopes of delivery can be found on the product pages.

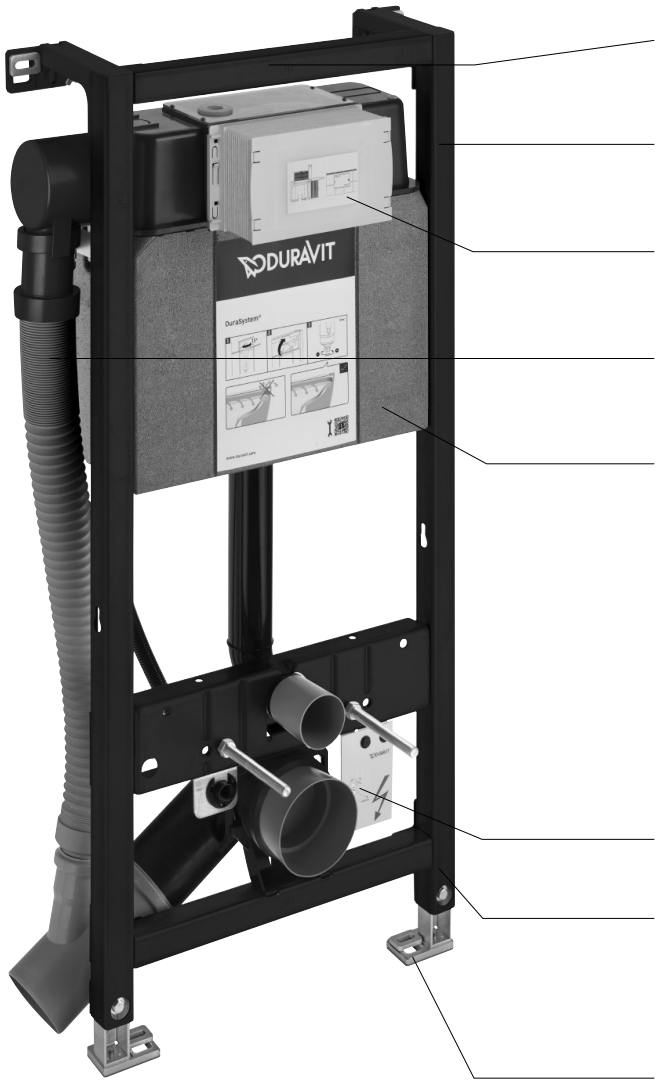
[1)] in combination with noise reduction set WD 6015

Installation systems

DuraSystem® installation systems provide reliable concealed solutions for toilet ceramics with a projection of ≤ 625 mm, urinal, washbasin and bidet and can be used in private as well as in public areas.
With DuraSystem®, sanitary facilities can be installed in all common installation situations, whether drywall in single installation in front of a solid wall or lightweight construction as well as in wet installation. Pre-assembled installation elements ensure a fast, safe and economical installation.



Center marker
Marking on the frame simplifies the alignment of the frame (not for elements with reduced height).

Metre tear
Marking on the frame simplifies the alignment of the frame. (not for elements with reduced height)

Service opening
Tool-free mounting of the transparent service opening plate for an inside view of the cistern interior and a easy access to components.

Odor extraction
Installed fan for odor extraction (only for # WD1012 000 000 and # WD1014 000 000)

Cistern
CE tested in accordance with EN14055,
insulated against condensation,
marking of filling height,
dual flush technology,
Requirements of the leading standards of noise protection DIN 4109 and VDI 4100 can be achieved (in combination with noise reduction set # WD6015 000 000),
adjustable flush volume, mechanically via drain valve or electronically via remote control (# WD1013 und WD1014), factory setting approx. 6l / 3l. maximum flush volume 9l,
adjustable throttle for splashfree flushing, due to the toilet geometry adapted flushing capacity

SensoWash® ready
Frame is prepared for connection of a shower toilet seat (not for basic elements)

Frame
Pre-installed powder-coated frame, self-supporting for drywall construction
Recommendation plating
easy panelling with 2 x 12,5 mm plasterboards

Feet
Adjustable in height from 0 to 240 mm,
rotatable base plate for flexible floor mounting and fixed position

Installation systems

Noise reduction sets for installation elements
Nowadays noise is almost everywhere and restricts often the people's quality of living. The reduction of noise levels and the prevention of acoustic sound increase the wellbeing provably.
For several years, Duravit attends to noise reduction and offers noise reduction sets for installation elements. Consequently noise emissions in the bathroom can be significantly reduced. By using one of Duravit's noise reduction sets, a lot of requirements of the leading standards of noise protection (DIN 4109, VDI 4100 SST III and SIA 181) can be achieved.
This is also guaranteed by the Fraunhofer Institute of Construction Physics, Stuttgart, that verified Duravit's results.
The tested products were always installed with the related fittings being mentioned in the mounting instructions. In addition, Duravit noise reduction sets were installed as indicated in the table.

The following table shows the test results of the noise reduction measurements.
Boxes marked with „Yes" indicate compliance with the highest requirements for noise reduction. Exceptions are marked accordingly.

Installation	Tested installation elements	Standard fulfilled?			Noise reduction set necessary?
		DIN 4109	VDI 4100 Sst III	SIA 181

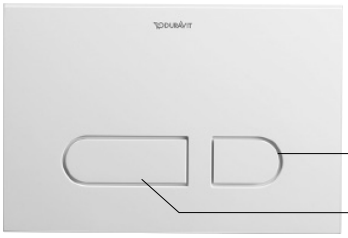
[1] In an appartment building with a ceiling thickness of 22 respectively 27 cm and the ground floor room is an own unit and there are basement floor rooms with low (UG front) respectively medium (UG rear) sensivity to noise (e.g. bathroom above bathroom).
[2] Minimum requirements fulfilled
[3] Noise reduction level SSt II fulfilled.
[4] In an appartment building with a ceiling thickness of 24 cm and the ground floor room is an own unit and there are basement floor rooms with low (UG front) and medium (UG rear) sensivity to noise (e.g. bathroom above bathroom).

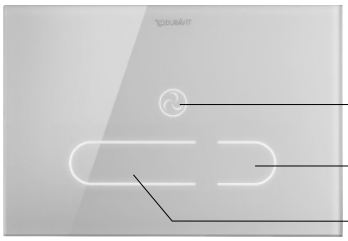
Actuator plates for toilet frame
The DuraSystem® actuator plates are consequent in design and with a sophisticated look, available as A1(mechanical) and A2 (electronical) version, either in the design surfaces glass or high-quality plastic.

Actuator plate A1



The A1 actuator plate for toilets made of plastic (available in: White, Chrome High Gloss, Black Matt) can be mounted either flush (except wet installation and elements with reduced hight) or on the surface. For flush mounting a special mounting frame is required (order separately). For all other models, the actuating plate is classically mounted on the surface. Actuator plate A1 in design surface glas not available for elements with reduced hight.

Actuator plate A2



The characteristic feature of the actuator plate A2 for toilet is the infrared proximity electronic. In inactive status, the actuator plate is not illuminated (except for activated nightlight). When approaching, the symbols begin to light up. The detection zone of the user identification is adjustable on local conditions.

Basic functions

Manual operation
The basic functions - full flush and small flush, odor extraction - could be triggered directly by the symbols on the actuator plate. The function odor extraction is only available in combination with toilet frame # WD1014 000 000.

Odor extraction
Fresh air is provided by the toilet frame with a quiet fan: unpleasent odors are extracted directly over the flushing pipe out of the toilet, before they can spread. The system works silently without a filter. The odor extraction can be activated manual or automatical by person identification.

Touchless operation
From approx. 1 cm in front of the actuator plate, the basic functions can be activated without contact. This will avoid fingerprints on the actuator plate.

Settings via remote control
- Flush volume: full flush or small flush
- Auto flush: activating/deactivating
- Hygienic flush: starting time, number of flush packages, flushing intervall
- Odor extraction: automatical/manual, follow-up time, fan speed
- Nightlight: activating/deactivating
- Locking function: activating/deactivating
- Detection zones: adjust the detection zone
- Reset: reset the settings made to factory settings

Protection and Safety
The emergency power supply is activated in the event of a failure of the main power supply. Various functions are automatically deactivated to reduce the required power.

Additional functions

Auto flush
If the user leaves the toilet without flushing the toilet, a full flush will be started automatically.

Hygienic flush
To avoid stagnated water in the pipe system, the toilet will be flushed automatically in regular intervals by non-use of the toilet.

Nightlight
For orientation with a low ambient brightness level all symbols are permanent illuminated. Depending on the ambient brightness level the nightlight function automatically switches on or off.

Cleaning function
To avoid false triggering during the cleaning process, the actuator plate can be locked for 2 minutes by using a key combination.

Locking function
Prevents children from playing on the actuator plate and the consequential high water consumption. By triggering the actuator plate too often in a short distance, the symbols disappear for 2 minutes, and the functions are locked for that period.

Product information

Installation systems

Actuator plates for urinal frames
All urinal actuator plates are surface mounted, that means that the actuator plate rests on the tile.

Actuator plate A1

The urinal actuator plates A1 is available in plastic (White, Chrome High Gloss, Black Matt) or
Glass white.

Actuator plate A2

The actuator plates A2 with infrared proximity electronic are available in zinc diecasting white or chrome highgloss, as battery or mains operation.

Infrared proximity electronic
Approaching people are detected by infrared sensor. After a certain residence time, a flush will be triggered automatically.

Setting membrane keypad
On the back of the actuator plate is a membrane keyboard. With the membrane keyboard, the basic functions can be set and be adjusted, as well as the electronics can be reset to the factory settings.

Setting remote control
All basic and additional functions can be set via supplied remote controlled.

Protection and safety
A locking screw secures the actuator plate at the installation site and provides more security in public areas.

Basic functions

Main flush
If a user leaves the detection zone after a certain length of stay, an automatic flush is triggered. Adjustable flush time: 2 - 10 sec.

Pre-flush (not with battery operation*)
In addition to the main flush, a pre-flush can be activated, which is triggered as soon as an user enters the detection zone.

Detection zone
Adjustable detection zone: approx. 40 - 100 cm

Reset
With the reset-function the settings could be reset to the factory settings.

Additional functions

Dynamic flush volume
At a higher user frequency, the flushing time of the main flush will automatically be reduced and minimizes the water consumption.

Hygienic flush
To avoid stagnated water in the pipe system, the urinal will be flushed automatically in regular intervals by non-use of the urinal.
Flush volume and flush interval are adjustable.

Cleaning function (not with battery operation *)
Forced interruption of the main flush to clean the urinal or for action of a cleaning product.

Cleaning flush (not on battery operation *)
Triggering a forced flush to clean the urinal from cleaning products.

[1] Reduced functionality of actuator plates with battery operation to conserve battery capacity

3. Dimensioning/Weights

The indicated dimensions in mm always refer to width x depth.

4. Tolerances

All drawings are showing the necessary dimensions in mm with standard tolerances. They are without obligation as proper dimensions can be taken from finished products only.

5. Bluebox®

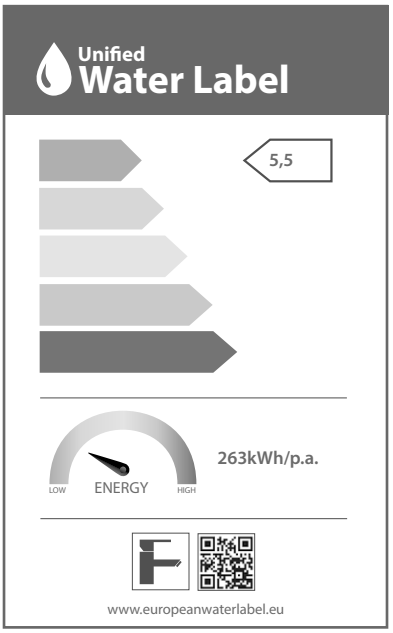
Bluebox® is a registered trademark of Oras Oy.

6. Product data sheets

Product data sheets with flowcharts of our products can be downloaded from our internet website www.duravit.com or pro.duravit.com.

7. Unified Water Label (UWL)

The Unified Water Label is a voluntary classification scheme for thirteen sanitary product groups.
Based on the Unified Water Label, the average flushing results for basin mixers can be found in the figure below.The maximum value is 5,5 l/min.The respective classification is provided directly by the product.
More information is available on the product data sheet.



UWL classe 1

Product Information

Faucets & Showers

Recommended operating pressure
We recommend an operating pressure of 1-5 bar for our Faucets & Showers.

Spray modes showers

IntenseRain

Rain

SoftRain

Pulse

Mono

Technology

AquaControl

The adjustable aerator enables an individual adjustment of the spray angle up to ± 10°. As a result the variability provides a larger flexibility in combination with washbasin and helps to prevent annoying water splashes, without replacing the faucet or the washbasin.

FreshStart

At first only cold water flows in the middle position. Only when the user deliberately moves the handle to the left is hot water added. The energy-intensive preparation of hot water is limited to situations in which it is actually required.

MinusFlow

MinusFlow means a reduced flow rate without any loss of comfort.
For showers 9.0 l/min and for basin mixers 3.5 l/min. Less energy is consumed due to the hot water savings.

EasyClean

The surfaces are particularly easy to care for and clean. Limescale deposits on the silicone inserts can simply be rubbed off using a finger.

HeatLock

For more safety in the bathroom: To prevent potential scalding, certain Duravit Faucets & Showers have a temperature limit. Perfect for younger users of the bathroom!

AirPlus

The water is enriched with air in the jet regulator. The result is a full, soft spray, with reduced water and energy consumption.

BestMatch

For washing comfort, splash behavior and formal and technical compatibility with the washbasin, extensive tests are carried out.
For more information please refer to:
www.duravit.com/bestmatch

Touchless

The infrared electronic Faucets & Showers are particularly hygienic and economical thanks to their touchless control, because water only flows when it is actually needed.

3. WonderGliss

Sanitary ceramics with the special WonderGliss surface finish will remain clean and attractive-looking for a long time to come. Thanks to the coating which is fired into the ceramics, water immediately contracts into drops and drips off, taking any other residuals substances (like e.g. lime) along. The result: less polluting deposits, less cleaning work - more fun in the bathroom!
For more information please refer to www.duravit.com.

WonderGliss
+ 102 € per piece
Simply add a ´1´ to the model-no.

4. HygieneGlaze

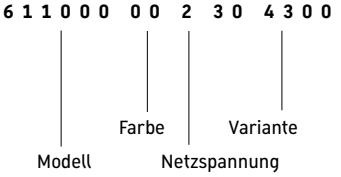
A high level of hygiene is required in the bathroom. Unwanted, sometimes even harmful bacteria and germs can collect in toilets in particular. Duravit has taken this issue on board and developed the innovative ceramic HygieneGlaze glaze, which defines a new standard of hygiene for toilets and urinals. The new development is not merely a surface coating but an antibacterial ceramic glaze that provides almost indefinite effectiveness. HygieneGlaze is integrated into the ceramic glaze during firing. Toilets and urinals that are available with HygieneGlaze are indicated accordingly. Please note that, due to the differing surface properties WonderGliss and HygieneGlaze cannot be combined.

5. Badplan drawings

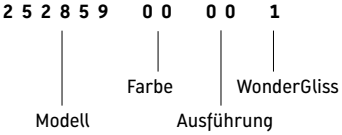
CAD data of Duravit sanitary ware can be downloaded from our internet website www.duravit.com or pro.duravit.com (DXF, DWG, IGS, STP, Revit).

6. Special indications

SensoWash
When ordering please make sure that you use the correct model numbers



Ceramic
When ordering please make sure that you use the correct model numbers



7. Dimensioning/Weights

The indicated dimensions in mm always refer to width x depth. Mentioned weights are net (without packaging).

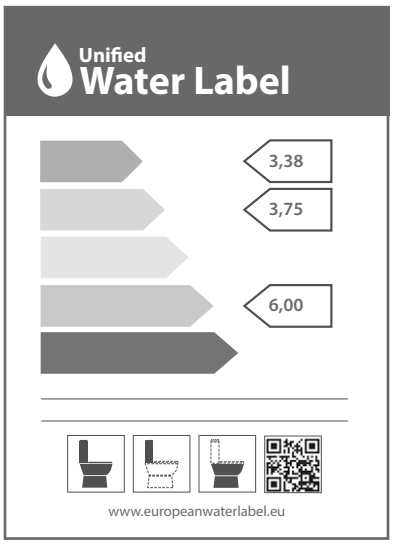
8. Tolerances

The dimensions showing are in mm with standard tolerances. They are without obligation as proper dimensions can be taken from finished products only.

9. Unified Water Label (UWL)

The Unified Water Label is a voluntary classification scheme for thirteen sanitary product groups.
Based on the Unified Water Label, the average flushing results for Duravit products can be found in the figure below. The respective classification is provided directly by the product. More information is available online.

Toilets and cistern



UWL Klasse 1

UWL Klasse 2

UWL Klasse 4

10. Preinstallation data sheets

Preinstallation data sheets of our products can be downloaded from our internet website www.duravit.com or pro.duravit.com.

11. Specification data sheets

Specification data sheets of our products can be downloaded from our internet website www.duravit.com or pro.duravit.com.

12. Application area of products

The use of SensoWash® products is limited exclusively to enclosed spaces. This includes usage in hotel rooms, residential homes etc.

13. Accessories

Please note the notes on accessories on the accessories product information page.

Product information

SensoWash®

Technical Product Information

1. General
All SensoWash® shower toilets are equipped with an instant heater and soft closure as a standard. A protection device according EN1717 is integrated to all europen versions.

2. Water supply
Supply SensoWash® with cold drinking water (PWC) from the main water system only. Do not connect any waste water, grey water, industrial water, sea water or other untreated or semi-treated water.

Needed inlet water pressure 0,07-0,75 MPa (0,7 - 7,5 bar)
Install a water water softener with water hardness ≥ 2.4 mmol/l (≥ 14° dH and/ or 24° fH).

3. Power consumption
Information related to the power consumption of the single SensoWash® models please see product data sheets.

4. Electrical installation
Connect a separate upstream circuit breaker and an upstream residual current device (RCD). For additional information concerning electrical pre-installation please see product and pre-installation data sheets.

5. Protection class
All SensoWash® products are equipped with protection class IP X4 - protection against water spray from all sides.

6. Temperature range

Operating temperature:	4 – 40 °C
Shower water temperature:	36 – 40 °C
Seat temperature:	33 – 37 °C
Warm air dryer temperature:	40 – 55 °C

Icon Description

Rearwash
Gentle and safe rear cleansing.

Ladywash
Spray wand function for feminine cleansing.

Comfortwash
Forward and backward moving movement of spray wand during shower.

Warm air dryer
Pleasant drying through warm air after shower.

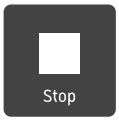
Temperature
Individually adjustable temperature of shower functions, seat heating and warm air dryer.

Spray wand position
Spray wand position can be adjusted to individual preference.

Water spray intensity
Water spray intensity can be adjusted to individual preference.

User profiles
Personal preferences can be stored in different user profiles.

Electromotive actuated seat and lid
Convenient opening of seat at the touch of a button.



Stop
Stops active functions.

Odor extraction

Full flush

Eco flush

App
Individual configuration and control via App.

HygieneUV
Desinfection of inner ceramic area via UV-C light.

High speed dryer
Significant shorter drying time due to two stage high speed dryer.

USB-C charging
Rechargeable remote control for more sustainability.

All SensoWash® functions mentioned above depend on the model. Details can be seen on the following chart, the description of the model or the specification data sheet.

Product information

SensoWash®

Settings

Seat heating
Integrated seat heating for comfortable sensible heat with individual adjustable temperature in 3 levels.

Energy saving mode
Individual time setting of seat heating.

Auto lid opening/closing
Touchless opening and closing of lid during approach / leaving.

Night light
Illuminated inner bowl for night mode.

EN1717

Follow-up time
Time the odor extraction stays activated after leaving the toilet. It can be adjsuted to individual preferences in 2 options.

Auto flush
Automatic full flush by leaving the toilet.

Pre-flush
Water applied to inner bowl ceramic to minimize cleaning efforts.

Additional functions

Soft closure
Silent closing seat and lid.

Remote control
inclusive intuitive operable remote control.

Descaling function
For regularly care of the product.

Seat sensor
User detection by an integreated sensor in the seat.

Automatic cleaning
Spray wand and nozzle are cleaned automatically before and after use.

Blocking function via remote control
No function can be used while this function is activated.

Spray nozzle
Spray nozzle detachable for cleaning and replacement.

Quick release
Seat unit for WC-cleansing easy and quickly removable.

Seat and lid easy removable one-handed

Drainage in periods of prolonged disuse

All SensoWash® functions mentioned above depend on the model. Details can be seen on the following chart, the description of the model or the specification data sheet.

3. Panels

Tub panels only available in acrylic (colour: white).
Balance to terms of furniture.

4. CAD drawings

CAD data of Duravit sanitary ware can be downloaded from our internet website www.duravit.com or pro.duravit.com (DXF, DWG, IGS, STP format).

5. Standard equipment of all Duravit whirlsystems

– Cable-driven waste and overflow, chrome
– Support frame
– Full system drainage
– Protection against dry-running

6. Tolerances of bathtubs and shower trays

Due to the production process the specified nominal dimensions can vary within the tolerances of DIN EN 198. Please take this into consideration for your planning.

7. DuraSolid

For information about cleaning and care of your DuraSolid product, please have a look at the care instructions.

8. Preinstallation sheets

Preinstallation sheets of our products can be downloaded from our internet website www.duravit.com or pro.duravit.com.

9. Application area of products

The products are to be used exclusively in the private sector. This includes usage in hotel rooms, residential homes etc. Medical usage is excluded as well as usage in public areas of hotel-spas, well being centers, etc. The products are only suitable for indoor applications.

10. Waste and overflow

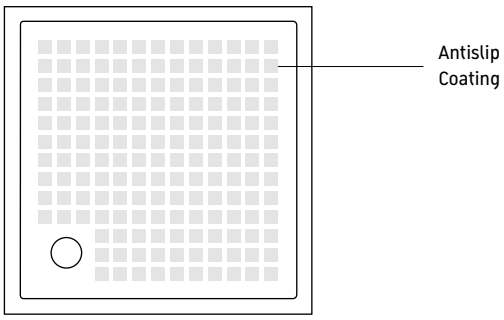
The visible parts of the standard waste and overflows are chrome.
When using a waste and overflow with water inlet or base inlet, a pipe interruptor or a faucet with safety against backflow according to DIN EN 1717 is necessary.

Product information

Support for bathtubs and shower trays

Instead of using a support frame, it is also possible to apply a support to install bathtubs and shower trays. In case that the bathtub shall be tiled, the usage of a support offers the advantage that the tiles can directly be sticked on the support without creating a separate, tileable surface. Supports are made of polystyrene („styrofoam"). In case of installing a whirltub it is not possible to use a support.

Antislip for shower trays



Shower tray Antislip coating. This transparent yet perceptible Antislip coating increases grip in the tray and ensures a higher degree of safety when showering. Antislip is applied ex factory. Long-lasting, easy to clean, environmentally friendly and approved by the TÜV (German Technical Inspection Association), Antislip is suitable for both private homes and the hotel industry.

TÜV Rheinland confirms Quality Class C for bare foot areas exposed to water (DIN 51097).

Antislip can be ordered for all Duravit acrylic shower trays.

When ordering a shower tray with Antislip, please give the correct details by simply adding a „1" at the last digit of the item code.

7 2 0 1 1 5 0 0 0 0 0 0 0 0 1

Antislip

Shower trays made from DuraSolid®
Shower trays made of DuraSolid® Nature reach due to their material properties without further coating the Quality Class C for bare foot areas (DIN 51097).

Shower trays from DuraSolid Nature®
Shower trays from DuraSolid Nature® with matt surface do reach evaluation group C for wet loaded bare foot areas according to DIN 51009.

Noise reduction sets for bath-/whirltubs and shower trays
Nowadays noise is almost everywhere and restricts often the people's quality of living. The reduction of noise levels and the prevention of acoustic sound increase the wellbeing provably.
For several years, Duravit attends to noise reduction and offers noise reduction sets for acrylic bathtubs and shower trays. Consequently noise emissions can be reduced while having a bath or a shower. By using one of Duravit's noise reduction sets, a lot of requirements of the leading standards of noise protection (DIN 4109, VDI 4100 SST III and SIA 181) can be achieved.
This is also guaranteed by the Fraunhofer Institute of Construction Physics, Stuttgart, that verified Duravit's results.
The tested products were always installed with the related fittings being mentioned in the mounting instructions. If necessary, a noise reduction set was mounted. For those cases, you can find a tag in the following table.

The following table shows the test results of the noise reduction measurements:

Verified Product group	Substruction	Standard fulfilled?			Noise reduction set
		DIN 4109	VDI 4100	SIA 181

Tempano	Unfinished floor	Yes[1)]	Yes[1)]	Yes[1), 2)]	[1)] Yes, # 791372 00 0 00 0000
Shower trays made of DuraSolid®					
Stonetto	Screed	Yes	Yes	Yes[2)]	
	Unfinished floor	Yes	Yes	Yes[1), 2)]	[1)] Yes, # 791372 00 0 00 0000

[1)] Standard is fulfilled in combination with the corresponding noise reduction set (see column „Noise reduction set" in the table above)
[2)] in an apartment building, if the ground floor room in the back is an own utilization unit, and the basement floor room with low (front room) or medium (room behind) sensitivity to noise (e.g. bathroom above bathroom).
[3)] except DuraSolid® bathtubs of series D-Neo.

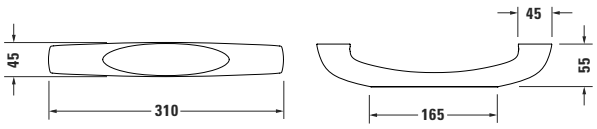
The product's sonic features can be improved by using one of the following noise reduction sets:
Noise reduction set for acrylic bathtubs: # 791368 00 0 00 0000
Noise reduction set for acrylic shower trays: # 791369 00 0 00 0000
Noise reduction set for flush fitted shower trays: # 791372 00 0 00 0000

It is necessary to have a support frame for the bathtub and the shower tray in order to use the noise reduction set.
In case that a noise reduction set for shower trays is applied, the installation height can be slightly different. The altered height can be found in the section "Fittings", directly at the support frames.
It is not possible to mount a noise reduction set in combination with a support.

Product information

Bathtubs and whirltubs

Bathtub handle



Position of the bathtub handle as shown in the technical drawings. Change of the position of the bathtub handle possible on request.
For whirltubs the position of the handle may vary.

The bathtub handle cannot be ordered separately, only mounted on the bathtub. The price does include the installation and the handle itself.

Bathtub handle, chrome # 792804 00 0 00 1000

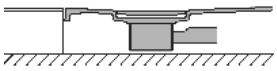
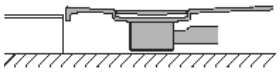
Type of installation

- The Stonetto shower tray can be installed flush fitted (1), half-recessed (2) or surfacemounted (3).
- Since the shower tray is selfsupporting, it can be installed without a support or support frame.

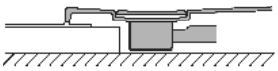
Flush fitted



Half-recessed

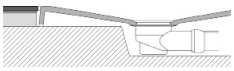


On the tile

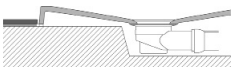


- The Sustano shower tray can be installed flush fitted (1), half-recessed (2) or surfacemounted (3).

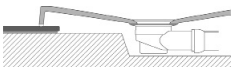
Flush fitted



Half-recessed

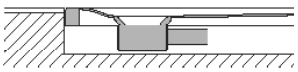


On the tile

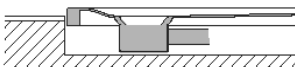


- The Tempano shower tray can be installed flush fitted (1), halfrecessed (2) or surface-mounted (3).
- Since the shower tray is selfsupporting, it can be installed without a support frame.

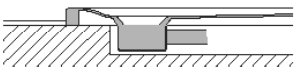
Flush fitted



Half-recessed



Surface-mounted



General product information

- The scope of delivery of the Stonetto shower tray includes a drain cover of the same color.
- Please refer to the care instructions for information on cleaning and caring for your DuraSolid product.

Cuttable

Sustano can be cut to measure on site up to 10cm all around.

Sealing collar

The waterproofness between the shower tray and the sealing collar in the installed condition was tested and certified by the testing institute KIWA GmbH in Greven.

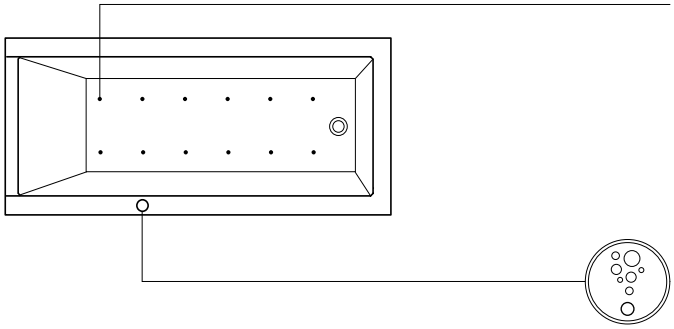
Whirlsystems

Air-System (for acrylic tubs)

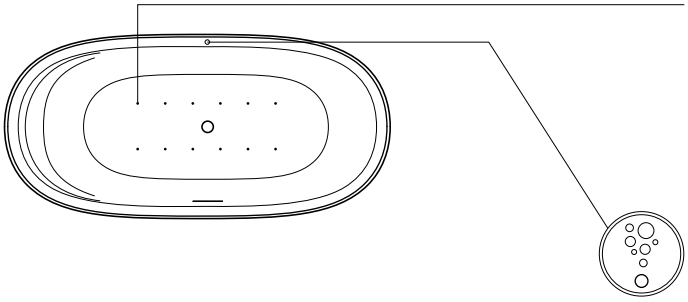


Standard
12 flat white floor jets (air)
Waste and overflow (without image)
Support frame (without image)

Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)
Waste and overflow with base inlet (without image)

Control elements
Piezo switch floor jets

Air-System (for DuraSolid® tubs)

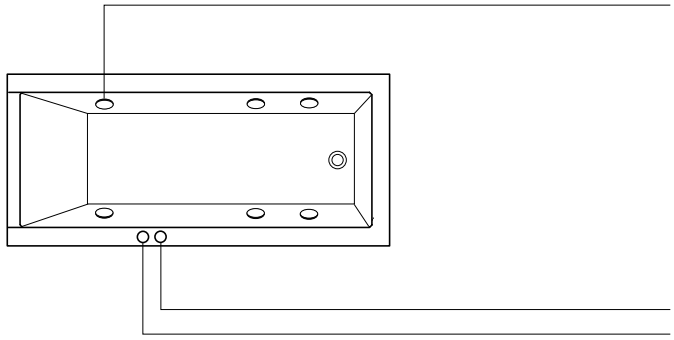


Standard
12 drilled floor jets (air)
Waste and overflow (without image)
Support frame (without image)

Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)

Control elements
Piezo switch floor jets

Jet-System

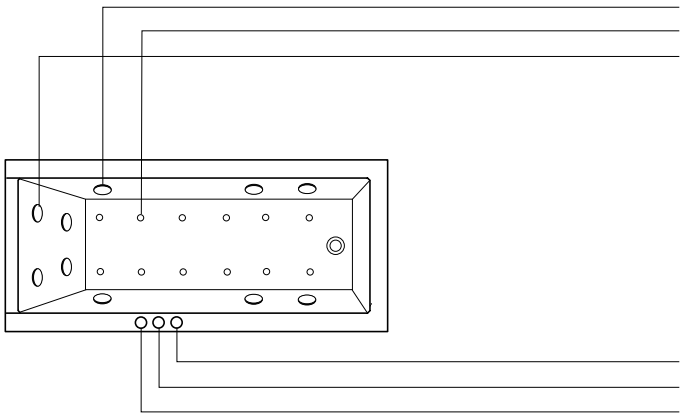


Standard
6 flat, adjustable side jets (mixture of air and water)
Waste and overflow (without image)
Support frame (without image)

Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)
Waste and overflow with base inlet (without image)

Control elements
Pneumatic switch side jets
Air regulator side jets

Combi-System P



Standard
6 flat, adjustable side jets (mixture of air and water)
12 flat floor jets (air)
4 flat, adjustable back jets (mixture of air and water)
Waste and overflow (without image)
Support frame (without image)

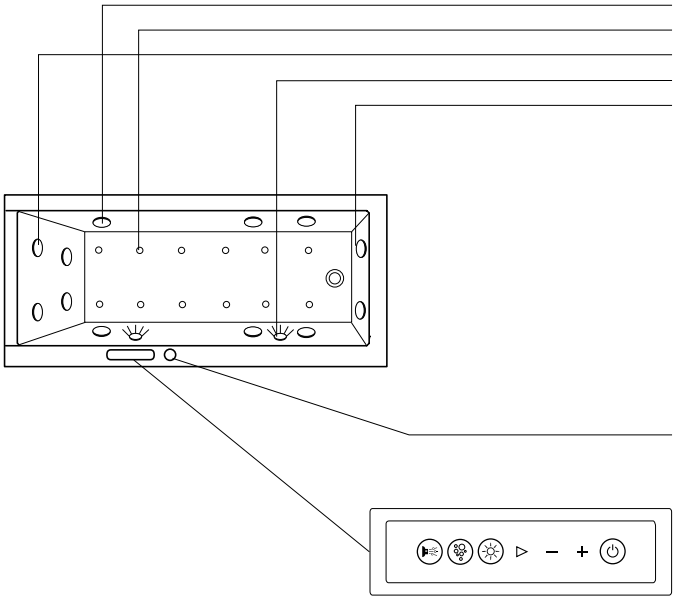
Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)
Waste and overflow with base inlet (without image)

Control elements
Pneumatic switch floor jets
Pneumatic switch side and back jets
Air regulator side and back jets

[1)] Only available if these articles are listed on the product page

Whirlsystems

Combi-System E



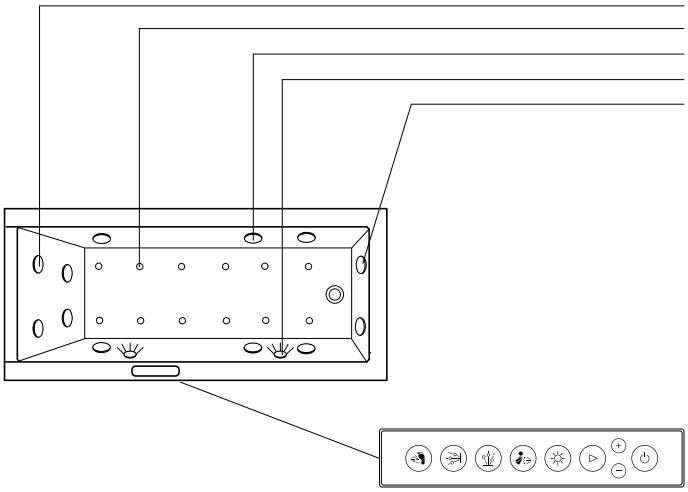
Standard
6 flat, adjustable side jets (mixture of air and water)
12 flat, adjustable floor jets (air)
4 flat, adjustable back jets (mixture of air and water)
LED white light, 2 spots
2 flat, adjustable foot jets (mixture of air and water)
Waste and overflow (without image)
Support frame (without image)

Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)
Waste and overflow with base inlet (without image)
Heating (without image)

Control elements
Diverter
Pump performance can be concentrated to foot or back jets.

Control panel Combi-System E
Control panel with chromed brass frame und blue backlit symbols. By pressing the desired symbol, the functions starts and the symbol is blue backlit.

Combi-System L

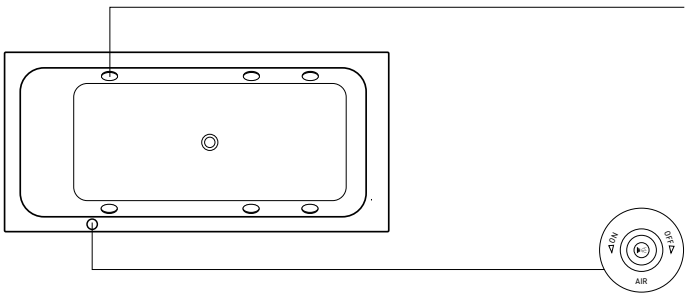


Standard
4 flat, swivel jets (water)
12 flat, adjustable floor jets (air)
6 flat, adjustable side jets (mixture of air and water)
LED white light, 2 spots
2 flat, adjustable foot jets (mixture of air and water)
Waste and overflow (without image)
Support frame (without image)

Equipment (optional)[1)]
Waste and overflow with integrated water inlet (without image)
Waste and overflow with base inlet (without image)
Heating (without image)

Control elements
Control panel Combi-System L
Touch panel with chromed frame and white backlit symbols. After activating the panel the symbols start to glow slightly. By pressing the desired symbol, the functions starts and the symbol is brightly backlit.

Jet Project D-Code/D-Neo/Duravit No.1



Standard
6 adjustable side jets (mixture of air and water)
Waste and overflow (without image)
Support frame (without image)

Control elements
Control panel side jets with air regulator

[1)] Only available if these articles are listed on the product page

Product information

Whirlsystems

Equipment whirlsystem
Duravit whirlsystem are equipped as standard with the following: full system drainage, support frame, waste and overflow, protection against dry-running.

Floor jets (air)
Warm air is injected into the bath by 12 flat jets embedded in the floor of the tub.

Drilled floor jets (air)
Warm air is injected into the bath by 12 drilled flat jets embedded in the floor of the tub.

Side jets (mixture of air and water)
Jet Project: 6 side mounted jets create maximum hydrotherapeutic action with actuated intensity of the massage, regulated via an air regulator.

Side jets (mixture of air and water)
6 flat side mounted jets create maximum hydrotherapeutic action with actuated intensity of the massage, regulated via an air regulator.

Back jets (mixture of air and water)
4 or 8 (depending on the bathtub model) flat adjustable jets have a beneficial effect on the back.

Foot jets (mixture of air and water)
2 adjustable jets are stimulating the reflex zones of the foot.

Swivel jets
4 flat jets in the back area ensure a powerful, beneficial massage that moves around the entire back area.

Heating
Electronically controlled thermal system to compensate for loss of temperature during whirl action.

LED white light
2 LED spotlights (white light), create a cosy atmosphere in the bathroom.

Power supply
220-240V 50 Hz
60 Hz versions: Please replace „00“ by „06“ on 14th and 15th digit of the item number.

Whirlsystems

Revisability
The whirltub should be installed that way, that all important components (pump, blower and control panel) are still accessable. We recommend the installation with a removable panel.

Positioning of the components of the whirlsystem
The figures show the standard configuration of the whirlsystem[1] with the positioning of the control panel. At the head side are the back jets (depending on the whirlsystem).
Custom version on request. Please send us a sketch showing the desired layout. Duravit will check and wherever possible confirm the feasibility.

Shower + Bath

Design by EOOS

Product information

Information regarding scope of delivery

The following items are included in the delivery of our Shower + Bath:

Glass profile

Shower Screen

Mounted door

Pad white

Panel made of DuraSolid® A

mounted support frame (without image)

Skirting made of DuraSolid® A

The door of the Shower + Bath is opened and covered by the pad when it is unused and could be used as a walk In shower with a a very precise and clear design. Multiple use of the pad in the whole shower and bath area: useable as adjustable backrest while bathing, as a seat and shelf.

Technical information

Door
Glass: 10 mm toughened safety glass manufactured to EN 12150-1
Seal: silicone rubber
Handrail: chrome-plated brass

Pad
Polyurethane with steel core

Special waste and overflow
With closed outlet drain the door cannot be opened. No power connection required.
The special waste and overlow is not part of the delivery and must be ordered separately.
Please order 791246 00 0 00 1000 (without water inlet) or 791249 00 0 00 1000 (with water inlet).

Glass profile
Aluminium

Shower Screen
8 mm toughened safety glass manufactured to EN 12150-1 with partially white ceramic printing or completely mirrored.

Drilling of tap holes on bath rim for taps is not possible for Shower + Bath range.

3. Duravit c-bonded

The c-bonded technology combines the furniture washbasin and the furniture surface of the vanity unit seamlessly with each other. Through the exact, precisely joining technology washbasin and furniture fuse into one unit.

4. Duravit c-shaped

The further development of the c-bonded process guarantees an exact parallel shape of ceramic basin and furniture without projection or recess. Made completely out of DuraCeram® or DuraSolid® and especially finished, c-shaped offers all the advantages such as easy cleaning and robustness.

5. Series with Bi-Colour surfaces (DuraStyle, Zencha)

Articles, ordered with different front- and body colours from two different pricegroups (bi-colour), will be charged with the higher of both pricegroups.

6. Structure of the pricelist

All models are type-ordered

Type-number consists of:

W T 4 9 8 7 L 7 7 3 9 0 E 1 0

- W T — Identification code for series
- 4 9 8 7 — Previous ord. no.
- L — Hinges / Position of washbasin / Number of tap holes for c-bonded or c-shaped version / Dimming function for Universal Light & mirror „Best“ and Ketho
- 7 7 — Front/ Handle/ Aluminium profile/ wooden shelf / Niche
- 3 9 — Body / Aluminium profil for mirrors and mirror cabinets XViu / glass insert
- 0 — Country code for mirrors, mirror cabinets and interior lighting / c-bonded frame XViu
- E — Interior System/Defogger
- 1 — LED light for washbasin area / interior lightings for vanity unit and Semi-tall cabinet / Niche lighting, Interior lighting mirror cabinet
- 0 — Front frame Vitrium

Note: Please indicate the „0“ at the according point for models without hinges. Please set the body colour as well as front colour for models without a front.
model-no. = identification code for series + previous ord. no.
If furniture are offered in various colours, all necessary information for the ordering process are mentioned in an ordering example.
For the series Brioso please indicate if the handle is either wished in chrome or in surface colour. Chrome = 10, surface colour = number of the surface color. For further details please see the order example of Brioso.
For the series XViu c-bonded vanity units please indicate if the c-bonded frame is either wished in color of the profile = 12. digit P or in color of the body = 12. digit C. For further details please see the order example of XViu.

7. Ordering system Duravit

7.1. Individual specifications
- series
- front colour
- body colour
- colour for consoles, countertops and shelves

7.2. Model-related specifications
- model number
- for variable models indication of the width
- model-no. ceramic for consoles
- position low cabinets or vanity units for consoles

A detailed explanation of the new article numbers for bathroom furniture with additional modules can be found in the product information before each series.

7.3. Model-related specifications
- Dimming-function for mirror; D = including dimming-function
- for variable models, indication of the width
- model-no. ceramic for consoles
- position low cabinets or vanity units for consoles

7.4. Drawings, sketches
Detailed drawings for ordering of countertops or variable consoles are absolutely necessary. Please use order sheet and check list.

7.5. Duravit individual
Variations of articles and materials within the available product range are possible. If necessary please attach a sketch. On request we provide a proposal.All furniture parts correspond in construction and workmanship to the requirements laid down in DIN 68935 and the E1 directive on toxic substances with regard to formaldehyde emissions.

Important Indications

Bathroom Furniture

8. New article no.

Position Remark

1.+2. Position Identification code for series

3.-6. Position Previous ord. no.

7. Position door hinges

L = hinge on the left side
R = hinge on the right side
0 = no hinge

Or position of washbasin

L = washbasin on the left side
R = washbasin on the right side
M = washbasin centred
B = washbasin on both sides

Or number of tap holes for c-bonded and c-shaped

N = without tap hole
0 = 1 tap hole punched
E = 2 tap holes punched

Or Dimming-function for Ketho and Universal Light and Mirror „Best"

D = including dimming-function

Or Happy D.2 Plus mirror with lighting

S = Light field pattern radial
G = Light filed pattern organic

8.+9. Position Front / Handle / Aluminium profile / wooden shelf

10.+11. Position Body / Aluminium profil for mirrors and mirror cabinets XViu / glass insert

12. Position Country codes for mirror cabinets with socket

0 = EG, AL, DZ, AD, AO, AM, AZ, BA, BG, DK, DE, EE, ES, FI, GE, GR, GL, GN, ID, IR, IE, IS, IL, KZ, KG, KR, HR, LV, LT, LU, MR, MK, MD, MC, ME, MZ, NL, NO, AT, TL, PT, RO, RU, SE, RS, SI, SO, ES, TR, UA, HU, UY, BY

2 = CH, LI
3 = GB
4 = ET, IT, LY
5 = AU, FJ, NZ, PG, WS, TO
6 = CA, US
7 = BS, BB, BM, CR, DO, EC, SV, GT, HT, HN, JM, JP, CO, CU, LB, MX, NI, PA, PR, SR, TW, TT, VE
8 = AR, BD, BT, BO, CL, CN, IN, JO, KH, LA, MQ, NA, NP, NE, PK, PE, PH, RW, SK, ZA, SD, SY, TZ, TH, TD, VN
9 = BH, BW, BN, FK, GH, GD, HK, IQ, YE, QA, KE, KW, MO, MT, MU, NG, OM, SC, SL, SG, LK, UG, AE, CY

Or country codes for mirror and mirror cabinet without socket or interior lighting for vanity units

0 = 220-240 V: EG, AL, DZ, AD, AO, AM, AZ, BA, BG, DK, DE, EE, ES, FI, GE, GR, GL, GN, ID, IR, IE, IS, IL, KZ, KG, KR, HR, LV, LT, LU, MR, MK, MD, MC, ME, MZ, NL, NO, AT, TL, PT, RO, RU, SE, RS, SI, SO, ES, TR, UA, HU, UY, BY, BE, BF, BI, DJ, CI, ER, FR, GY, GP, CM, KM, MA, MG, MN, NC, PL, RE, SN, CZ, TN, CH, LI, GB, ET, IT, LY, AU, FJ, NZ, PG, WS, TO, AR, BD, BT, BO, CL, CN, IN, JO, KH, LA, MQ, NA, NP, NE, PK, PE, PH, RW, SK, ZA, SD, SY, TZ, TH, TD, VN, BH, BW, BN, FK, GH, GD, HK, IQ, YE, QA, KE, KW, MO, MT, MU, NG, OM, SC, SL, SG, LK, UG, AE, CY
6 = 100-127V: CA, US
7 = 100-127V: BS, BB, BM, CR, DO, EC, SV, GT, HT, HN, JM, JP, CO, CU, LB, MX, NI, PA, PR, SR, TW, TT, VE

Or Frame colour c-bonded (XViu)

c = body colour
p = colour of profile

13. Position Interior system

0 = no Interior system
A = maple (middle)
B = maple (left)
C = maple (right)
D = maple (on both sides)
E = walnut (middle)
F = walnut (left)
G = walnut (right)
H = walnut (on both sides)
I = oak (middle)
J = oak (left)
K = oak (right)
L = oak (on both sides)

Or Defogger optional

0 = without defogger
1 = defogger

14. Position Interior lighting for vanity units

0 = without interior lighting
1 = interior lighting

Or light for washbasin area for mirror cabinets optional

0 = without light for washbasin area
1 = light for washbasin area

15. Position Colour front frame (Vitrium)

W = White Matt
G = Graphite Matt

All furniture parts correspond in construction and workmanship to the requirements laid down in DIN 68935 and the E1 directive on toxic substances with regard to formaldehyde emissions.

I. Technical Product Specifications

1. Panel for mirror ground plate, body and rear panel
These are 38, 19, 16 and 8 mm thick, back panels are set in grooves, recessed and bond.

Further information is available in the detailed product information for the various series.

2. Real wood veneer / Real wood solid
Fronts, Bodies, Consoles, Washbasin trims:
Possible variations concerning structure, veining, pores and colour are manifestations of the genuineness of the natural material wood and preclude any cause for complaint.

Further information can be obtained from the detailed product information for the individual series.

3. Consoles
Detailed information is included in the description of the individual series.

4. Shelves
Glass shelves, thickness: 6 mm, height-adjustable.

5. Drawers
5.1. Drawers for series Brioso, D-Neo, DuraStyle, Duravit No.1, Ketho, Ketho.2 and XBase.
Anthracite coloured steel frames; roller guide with extended self-closing action; strong lateral support; casters of noise-reducing plastic; steel guide tracks. Two dimensional adjustment of the drawer's covering is possible. Elegant cover of the adjusting mechanism with DURAVIT logo. Base and rear panel in the colour of the body; drawers can be easily removed for cleaning purposes.

5.2. Drawers for Happy D.2 Plus, L-Cube, Luv, Qatego, Starck, Vitrium, White Tulip, XSquare, XViu and Zencha.
Anthracite coloured stell frames; roller guide with extended self-closing action; strong lateral support; casters of noise-reducing plastic; steel guide tracks. Three-dimensional adjustment of the drawers's covering possible. Elegant cover of the adjusting mechanism with DURAVIT logo. Base and rear panel in the colour of the body; drawers can be easily removed for cleaning purposes. The interior system is optional.

6. Hinges
Full metal hinges with three-dimensional adjustment. 107° opening angle. Doors are easily unhinged. Thanks to clip-on mechanism, no tools are necessary. Elegant cover with DURAVIT logo.

7. Suspension brackets
7.1. Cabinet suspension
Concealed by the rear panel, easy to adjust two-dimensionally.
Maximum load 65 kg each, with slip-resistant combination hook for track and hook suspension.

7.2. Mirror suspension
Height-adjustable fixing; integrated in the mirror's rear panel.

7.3. Washbasin vanity unit suspension
Easily adjustable in two dimensions; maximum load 65 kg each, with slip-resistant combination hook for track and hook suspension. After the adjustment, vanity units with a width of more than 100 cm are protected additionally by a special fixing.

8. Crystal mirrors
Ground and polished edges; high quality standards exceeding DIN 1238.
Crystal mirrors ought to be cleaned only with a soft and dry cloth; wipe off marks with a slightly damp cloth or chamois leather; window cleanser and other acrid cleaning agents can damage the silver coating and preclude any cause for complaint.

9. Interior System
Interior modules are factory installed and must be requested upon ordering.
The interior system with a material mix in acryl glass and solid wood is available in maple or walnut. There is an individually designed interior system for each cabinet width between 575 - 1600 mm. There are always two boxes and one box cover in the interior systems for drawers with or without siphon cut-out plus a small tray wave system for cosmetic products. A special field for a hair dryer is integrated off a width of 800 mm. The interior system for drawer without siphon cut-out includes always a big tray wave system to lay in bigger bottles. Off a width of 800 mm there is also an special field for a hair dryer integrated.
The interior system for a pull-out compartment (L-Cube, White Tulip, Happy D.2 Plus, Luv, XViu, XSquare and Zencha) always includes a support for hair brushes and comb. The interior system for a pull-out compartment is available off a width of 800 mm. There is a wood grid to fix bottles off a width of 800 mm.
Each size of the cabinet have a individual layout of the interior systems to use the optimum storage space. The bottom, the box cover the small and big wave plus the special support for hair brushes and comb have a special anti-slip lacquer.

10. Individual Dividing System
Individual and retrofittable interior system with cover, which is available for the series Brioso, D-Neo, DuraStyle, Duravit No.1, Ketho and XBase. The interior system has no fixed position and is freely positionable within the drawer.
Width x Height x Depth: 115 mm x 45 mm x drawer depth
Material: Foil covered medium density fibre board (MDF) with anti-slip covering on the bottom.
Individual and retrofittable interior system, which is available for the series Qatego and Vitrium.
Width x Height x Depth: 100 mm x 271 mm x 16 mm (Wave board)
or 105 mm x 271 mm x 37 mm (Einteilung)
Material: Aluminium (Einteilung), MDF lacquered (Wave board)

11. Tolerances
All drawings are showing the necessary dimensions in mm with standard tolerances. They are without obligation as proper dimensions can be taken from finished products only.

II. Mounting Aids

1. Mounting accessories
Screws, dowels, cover caps and installation tracks are included with the respective model.
Installation only by skilled professionals. Provided screws and dowels have to be reviewed for applicability in appropriate wall, if necessary they have to be replaced by capable material on site.

2. Mounting and care instructions
Are included in the respective consignment.

Product information			
Mirror set (2 pieces) with lighting		**S** Light field pattern radial **G** Light field pattern organic	Icon-version: IP 44 2700 - 6500 Kelvin light colour LED (lifespan > 30.000 hours) LED module fixed install On/off function also with push bottom switch possible All mirror functions are synchronized mutual. Touchless panel operating unit on the mirror surface with 3 horizontal, round icons. Icon 1 (right): On / Off incl. dimming function for light field. Icon 2 (middle): On / Off incl. dimming function for ambient light. Icon 3 (left): On / Off defog system incl. Auto-Off after 60 minutes. Icon 1 + Icon 2 operated together and hold: Synchronous adjustment of the light colour between 2700 - 6500 Kelvin.
Extension mechanism		Handleless	Tip-on fitting including self-closing. Automatic opening by conscious contact.
Interior system	**Real Wood Massive** Pricegroup 1	**77** Amer. Walnut solid **78** Maple solid	The interior system with a material mix in acryl glass and solid wood is available in maple or walnut. There is an individually designed interior system for each cabinet width between 575 - 1600 mm. Each size of the cabinet has an individual layout of the interior system to use the optimum storage space. The box cover plus the small and big wave have a special anti-slip lacquer.
Defogger (Optional at Sensor-version) (Standard at Icon-version)			With this system there will be no mist on a defined mirror area. Defogger activitation coincides with switching on and off of the mirror's light. If the mirror is already misted up (defogger off) it takes about 5 minutes for demisting. Auto-Off function after 60 minutes. 1 piece defogger 200 x 400 mm, 19 W
Interior lighting system for vanity unit (optional)			LED light technology, 4500 Kelvin light colour. On / Off function by opening or closing the door through integrated sensor.
Furniture washbasin c-bonded with vanity			**Tap hole:** E = with two tap holes: ● ● N = without tap hole: ⊠ O = with one tap hole: ● For the vanity unit the colour of the c-bonded frame is always in the chosen furniture colour. The c-bonded frame is permanently bonded to the washbasin and is delivered together with the vanity unit as one unit. Ceramic is attached to the wall via a separate enclosed mounting rail, hanger bolts for the mounting rail are not included in the delivery, follow mounting instructions.
Furniture washbasin c-bonded with metal console			**Tap hole:** E = with two tap holes: ● ● N = without tap hole: ⊠ O = with one tap hole: ● The metal console c-bonded is always in combination with a rack in black matt (Anodized aluminium) and a c-bonded frame in black matt. The c-bonded frame is permanently bonded to the washbasin and delivered together with the disassembled metal console in one packaging unit. Ceramic is attached to the wall via a separate enclosed mounting rail, hanger bolts for the mounting rail are not included in the delivery, follow mounting instructions.
Furniture washbasin c-shaped with vanity			**Tap hole:** E = with two tap holes: ● ● N = without tap hole: ⊠ O = with one tap hole: ● For the vanity unit the frame of the ceramic is always white glazed independent of the chosen furniture colour. The c-shaped frame is permanently bonded to the washbasin and is delivered together with the vanity unit as one unit. Ceramic is attached to the wall via a separate enclosed mounting rail, hanger bolts for the mounting rail are not included in the delivery, follow mounting instructions.

Built-in set		# LM 9875	# LM 9876	# LM 9877	# LM 9878	# LM 9920	

„good“ -, „better“ -, „best“ - version for mirrors
The mirrors with single light field, dual light fields and ambient light 4-sided and circular are available in three different versions:

„good“
On/off function to be operated with external switch only.

„better“
Equipped with sensor switch bottom right for on/off function.

„best“
Combines the following features: sensor switch for on/off function, integrated LED-dimming function, defog system, downlight (always included for ambient light)

„good“ -, „better“ -, „best“ - version for cabinets
The mirror cabinets are available in three different versions:

„good“
On/off function to be operated with external switch only. Built-in together with built-in set only.

„better“
Fitted with a switch-plug unit. Built-in together with built-in set only.

„best“
Incorporates switch-plug unit, a mirrored back panel inside, and LED light for the washbasin area.

Product Information			
Console	**Real wood massive** Pricegroup 1	**77** American Walnut solid	**Basic material:** Massive wooden board 25 mm thickness laquered transparent. Real wood massive is a natural material, differences in color and structure may occur.
	Quarz stone Pricegroup 1	**17** White Structure **25** Sand Structure **33** Grey Structure	**Basic material:** Quarz stone massive material 20 mm thickness surface polish. Quartz stone massive is a natural material, differences in color and structure may occur.
Front **Body**	**Lacquer** Pricegroup 4	**36** White Satin Matt **39** Nordic White Satin Matt **54** Almond Satin Matt **60** Taupe Satin Matt **92** Stone Grey Satin Matt **98** Night Blue Satin Matt	**Basic material inner body:** High-compresses three-ply chipboard, directly coated with mealmin resin decor in (57) Diamond Black on both sides. **Basic material outer body/-front:** High-compressed MDF-board lacquered opaque in serval sides. **Basic material feet:** Solid wood lacquered opaque in several layers on both sides. included high adjustment 20 mm
Mirror with lighting			IP 44 2700 - 6500 Kelvin light colour LED (lifespan > 30.000 hours) LED module fixed install On / Off function only with external switch. Touchless panel operating unit on the mirror surface with 3 vertical Icons. Icon 1 (top): On / Off incl. dimming function for light field on the top. Icon 2 (middle): On / Off incl. dimming function for ambient light on the top and below. Icon 3 (below): On / Off defog system incl. Auto-Off after 60 minutes. Icon 1 + Icon 2 operated together and hold: Synchronous adjustment of the light colour between 2700 - 6500 Kelvin.
Extension mechanism		handleless	Tip-on fitting including self-closing - Automatic opening by conscious contact.
Interior System	**Real Wood massive** Pricegroup 1	**77** Amer. Walnut solid **78** Maple solid	The interior system with a material mix in acryl glass and solid wood is available in maple or walnut. There is an individually designed interior system for each cabinet width between 688 - 1783 mm. Each size of the cabinet have a individual layout of the interior systems to use the optimum storage space. The box cover plus the small and big wave have a special anti-slip lacquer.
Defogger			With this system there will be no mist on a defined mirror area. Defogger activation coincides with the switching ond an off of the mirrors's light. If the mirror is already misted up (defogger off) it takes about 5 minutes for demisting. 1 piece defogger 200 x 400 mm for mirror size 500 mm centred, 19 W 1 piece defogger 400 x 400 mm for mirror size 800 mm centred, 37 W 1 piece defogger 600 x 400 mm for mirror size 1200 mm centred, 38 W 2 piece defogger 400 x 400 mm for mirror size 1600 mm left / right, 74 W

All Duravit surfaces are resistant to moisture / Furniture Surfaces see end of pricelist

Product information			
Body mirror cabinet	**Decor** Pricegroup 1	**18** White Matt **49** Graphite Matt	**Basic material:** High-compressed three-ply chipboard, directly coated with melamin resin decor on both sides. **Edge material:** ABS-Edge material. Distance between sensor and reflecting surfaces = minimum 75 mm
Magnetic strip mirror cabinet # UV 9709		Stainless steel	Magnetic fixing bar inside the mirror cabinet as bracket for metalic bathroom accessoires.
Individual dividing system # UV 9578, # UV 9579		Diamond black	Individual and retrofittable dividing system out of aluminum (# UV 9579) and MDF lacquered (# UV 9578). The dividing system has no fixed position and is freely positionable within the drawer. Measurements: Width x Depth x Height = 100 mm x 271 mm x 16 mm (# UV 9578), 105 mm x 271 mm x 37 mm (# UV 9579)
Front frame incl. handle		**W** White Matt **G** Graphite Matt	Aluminum profile frame, 4-sided
Defogger (optional)			With this system there will be no mist on a defined mirror area. Defogger activation coincides with switching On and Off the mirror's light. If the mirror is already misted up (defogger off) it takes about 5 minutes for demisting. Auto-Off function after 60 minutes. 1 piece defogger 200 x 400 mm centered for mirror size 650 mm, 19 Watt 1 piece defogger 200 x 400 mm for mirror Ø 700 mm / 900 mm, 19 Watt 1 piece defogger 400 x 400 mm centered for mirror size 800 mm / 1000 mm, 37 Watt 1 piece defogger 600 x 400 mm centered for mirror size 1200 mm, 38 Watt Interior lighting turns on synchrone with the lighting function of mirror / mirror cabinet via the sensor switch (Functions On / Off / Dimming).
Interior lighting system vanity unit and semi-tall cabinet (optional)			LED light technology, 3500 K light technology **Furniture with wooden front:** On / Off when opening or cosing the drawers / doors by internal integrated sensor. **Furniture with glass front:** Only controlable with Vitrium mirror / mirror cabinet in the version „Sensor with control for interior lighting". Interior lighting turns on synchrone with the lighting function of mirror / mirror cabinet via the sensor switch (Functions On / Off / Dimming).
Furniture washbasin c-bonded with vanity unit			**N = without tap hole** **O = with one tap hole** The c-bonded frame is permanently bonded to the washbasin and is delivered together with the vanity unit as one unit. The 3-sided c-bonded frame is always in the color of the front frame of the pull-out or door and is defined via this (white matt or graphite matt).

Body **Front** **Console** **Wooden Shelf**	**Lacquer** Pricegroup 1	**36** White Satin Matt **39** Nordic White Satin Matt **58** Graphite Satin Matt **60** Taupe Satin Matt **85** White High Gloss **92** Stone Grey Satin Matt **H1** Graphite High Gloss **H2** Stone Grey High Gloss **H3** Taupe High Gloss **H4** Nordic White High Gloss	**Basic material:** High compressed MDF board multilayered lacquered. Inner surface directly coated with melamine resin decor in diamond black (57). **Edge material:** ABS edges (lacquered).
Front **Wooden Shelf**	**Real Wood solid** Pricegroup 2	**H5** Natural Oak solid	**Basic material:** 3-layer solid wood board transparent lacquered. Real wood solid is a natural material, differences in color and structure may occur.
	Real Wood solid Pricegroup 3	**77** Amer. Walnut solid	**Basic material:** 3-layer solid wood board transparent lacquered. Real wood solid is a natural material, differences in color and structure may occur.
Mirror with lighting			IP 44 LED (lifespan > 30.000 hours) LED module fixed install Sensor version: LED light technology, 3500 Kelvin light colour. Sensor switch bottom right for on / off function, inclusive LED dimming function with memory effect. Defog system optional orderable. Distance between sensor and reflecting surfaces = minimum 75 mm On / Off function only with external switch. App version: LED light technology, Operation optionally via app or sensor switch bottom right. On / Off function only with external switch. **Function sensor switch:** On / Off lighting and defog system, inclusive LED dimming function with memory effect. **Function App:** On / Off lighting and defog system, continuous adjustment of the light color from 2700 - 6500 Kelvin incl. dimming function with memory effect, creation of lighting scenarios
Metal console		Chrome	Aluminum
Towel rail **Handles furniture**		Chrome	Die-cast zinc
Interior system	**Real Wood solid** Pricegroup 1	**77** Amer. Walnut solid **H5** Natural Oak solid	The interior system with a material mix in acryl glass and solid wood is available in oak or walnut. There is an individually designed interior system for each cabinet width between 684 - 1300 mm. Each size of the cabinet has an individual layout of the interior system to use the optimum storage space. The box cover plus the small and big wave have a special anti-slip lacquer.
Extension mechanism		Handleless	Tip-on technic including self-closing. Automatic opening by conscious contact.
		With furniture handle	Movable handle in ring shape. Drawer / pull-out compartment including self-closing device.
Defogger **(Optional at Sensor-version)** **(Standard at App-version)**			With this system there will be no mist on a defined mirror area. Defogger activation coincides with switching on and off of the mirror's light. If the mirror is already misted up (defogger off) it takes about 5 minutes for demisting. Auto-Off function after 60 minutes. 1 piece defogger 200 x 400 mm for mirror size 450 mm (centred), 19 W 1 piece defogger 400 x 400 mm for mirror size 750 and 1050 mm (centred), 38 W 2 pieces defogger 400 x 400 mm for mirror size 1350 mm (1 x left / 1 x right), 74 W
Interior lighting system vanity unit (optional)			LED light technology, 4500 Kelvin light colour. On / Off when opening or closing the drawers by internal integrated sensor.

Product information			
Front	**Decor** Pricegroup 1	**16** Black Oak **30** Natural Oak	**Basic material:** High-compressed three-ply chipboard, directly coated with melamine resin decor on both sides. **Edge Material:** ABS-Edge material (lacquered).
	Glass Pricegroup 2	**64** White	**Material:** Transparent glass, white lacquered on the backside. Inlaid as filling in lacquered MDF frame in body color.
	Glass Pricegroup 3	**63** Black Line Structure	**Material:** Transparent glass with groove structure, black lacquered on the backside. Inlaid as a filling in lacquered MDF frame in body color.
Shelf	**Lacquer** Pricegroup 4	**80** Graphite Super Matt **83** Taupe Super Matt **84** White Super Matt	**Basic material:** Compact laminate, multi-layer lacquered on all sides. **Note:** Surface color of the shelf is ordered by the color numbers for decors. But the surface itself is lacquered in the same color as the decors.
Body **Console**	**Decor**	**80** Graphite Super Matt **83** Taupe Super Matt **84** White Super Matt	**Basic material:** High-compressed three-ply chipboard, directly coated with melamine resin decor on both sides and lacquered on one side. **Edge Material:** ABS-Edge material.
Mirror with lighting			IP 44 LED (lifespan > 30.000 hours) LED module fixed install Sensor version: Distance between sensor and reflecting surfaces = minimum 75 mm App version: Operation optionally via app or sensor switch bottom central. **Function sensor switch:** On / Off lighting and defog system, inclusive LED dimming function with memory effect. **Function App:** On / Off lighting and defog system, continuous adjustment of the light color from 2700 - 6500 Kelvin incl. dimming function with memory effect, creation of lighting scenarios.
Interior system	**Real wood massive** Pricegroup 1	**77** Amer. Walnut solid **H5** Natural Oak solid	The interior system with a material mix in acryl glass and solid wood is available in oak or walnut. There is an individually designed interior system for each cabinet width between 650 - 1600 mm. Each size of the cabinet has an individual layout of the interior system to use the optimum storage space. The box cover plus the small and big wave have a special anti-slip lacquer.
Extension mechanism		handleless	Tip-on fitting including self-closing. Automatic opening by conscious contact.
Defogger **(Optional at Sensorversion)** **(Standard at Appversion)**			With this system there will be no mist on a defined mirror area. Defogger activation coincides with switching on and off of the mirror's light. If the mirror is already misted up (defogger off) it takes about 5 minutes for demisting. Auto-Off function after 60 minutes. 1 piece defogger 200 x 400 mm for mirror size 500 mm, 19 W 1 piece defogger 400 x 400 mm for mirror size 700 mm, 37 W

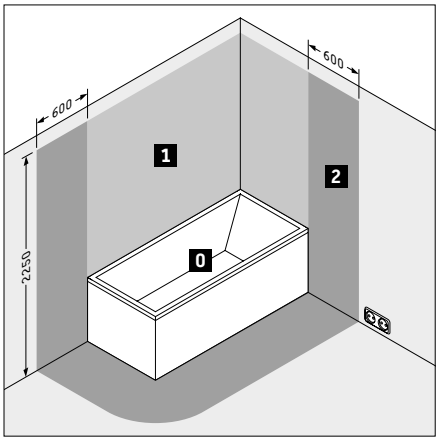
IP 6X	dust-tight	wire	IP X6	strong protection of jet of water
X	not indicated	not indicated	IP X7	protection at temporary submerge into water
			IP X8	protection at constant submerge into water
			X	not indicated

in rooms with bathtub, whirltub, shower or SensoWash® for domestic use

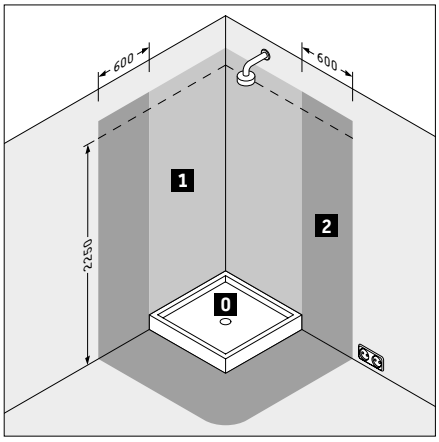
Note: Following scheme complies with the standard DIN VDE 0100-701:2008-10
The electrical installation has to be carried out in accordance with the country-specific standards for low voltage installations, the local electric power company as well as the country-specific standards.

2. IP area classification

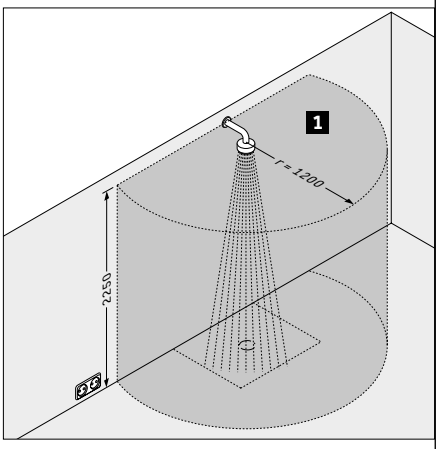
Situation referring to rooms with bathtub



Situation referring to rooms with shower tray



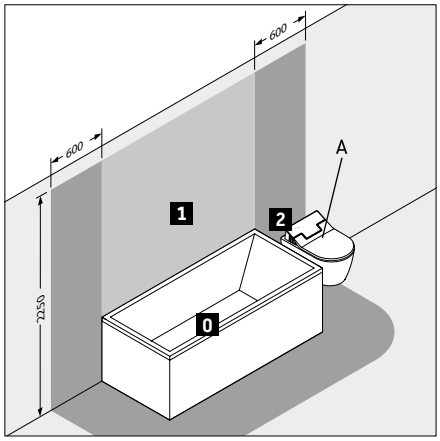
Situation referring to showers without tub or installation of flush fitting shower trays



Area classification in rooms with bathtub or shower			min.protection class	Installation of SensoWash®
0	area 0	inside the bathtub or shower tray	IP X7	not allowed
1	area 1	- above bathtub or shower tray, height = 2250 mm above finished floor level[1)] - Showers without shower tray: Distance of 1200 mm from the centre point of the fixed emersion point of water at the wall or the ceiling, height = 2250 mm above finished floor level[1)]	IP X4	not allowed
2	area 2	area 600 mm from the tub border, Height = 2250 mm above finished floor level[1)]	IP X4	SensoWash® permissible due to its minimum protection class of IP X4. Earthed power socket not permitted.

3. Protection class of Duravit products

Serie	SensoWash®
SensoWash® Classic	IP X4
SensoWash® Slim	IP X4
SensoWash® D-Neo	IP X4
SensoWash® Starck f	IP X4



A SensoWash (IP X4) may extend into area 2

[1)] or height of highest fixed shower head/ water outlet, depending which is higher

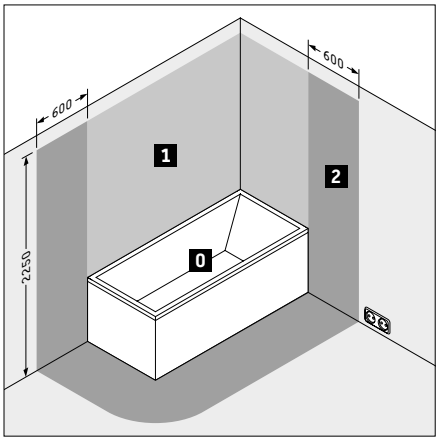
Electrical requests

in rooms with bathtub, whirltub or shower for domestic use - Furniture with electricification/lamps

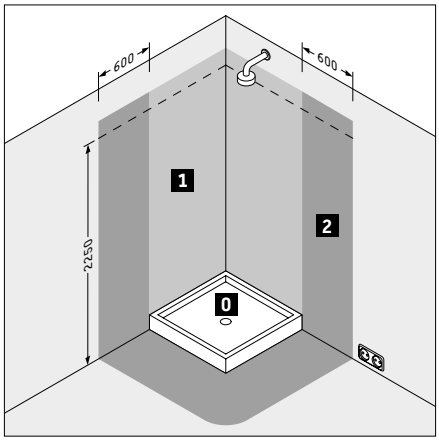
Note: Following scheme complies with the standard
DIN VDE 0100-701:2008:10
The electrical installation has to be carried out in accordance with the country-specific standards for low voltage installations, the local electric power company as well as the country-specific standards.

2. IP area classification

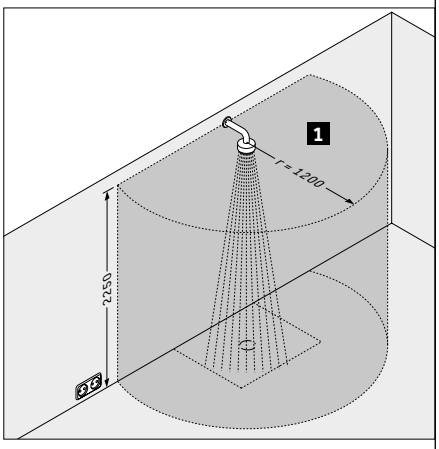
Situation referring to rooms with bathtub



Situation referring to rooms with shower tray



Situation referring to showers without tub or installation of flush fitting shower trays



Area classification in rooms with bathtub or shower			min.protection class	Installation of mirrors with lighting and mirror cabinets
0	area 0	inside the bathtub or shower tray	IP X7	not allowed
1	area 1	- above bathtub or shower tray, height = 2250 mm above finished floor level[1)] - Showers without shower tray: Distance of 1200 mm from the centre point of the fixed emersion point of water at the wall or the ceiling, height = 2250 mm above finished floor level[1)]	IP X4	not allowed
2	area 2	area 600 mm from the tub border, Height= 2250 mm above finished floor level[1)]	IP X4	Mirror with lighting and mirror cabinets need IP X4, switches within the mirror are allowed, sockets are not allowed. A IP X4 mirror cabinet with integrated socket have to be installed in the kind that the socket does not extend into area 1 or area 2.

3. Protection class of Duravit products

Series	mirrors	mirror cabinets
Brioso	IP 44	IP 44
Duravit No.1	IP 44	IP 44

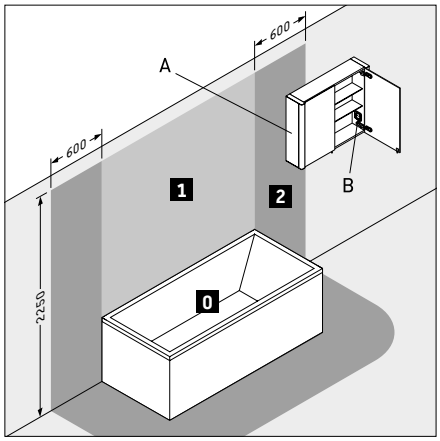
XSquare	IP 44	IP 44
XViu	IP 44	IP 44
Zencha	IP 44	-



A Mirror cabinet with IP 44 may extend into area 2
B A socket within the mirror cabinet must be installed outside the areas

[1)] or height of highest fixed shower head/ water outlet, depending which is higher

Order Sheet for Drilling Tap Holes

Customer | Customer order no.

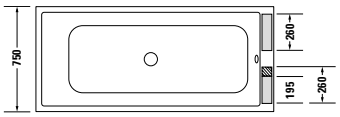
Article no. | Date

Order no.

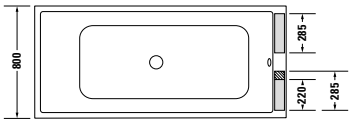
The following steps must be completed one after the other and all details must be specified in full order to be able to carry out the drilling of tap holes accurately. When using a Rollbox / a body for the hand shower (see Secuflex by Hansgrohe, HansaCompact by Hansa), a technical drawing of the box must also be sent. Otherwise an order cannot be processed.
Please note that bathtubs with holes drilled in the rim cannot be returned. Taps are not possible for whirltubs.

1st step: Please indicate the required bathtub.

☐ # 700231



☐ # 700233

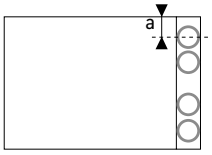


☐ Tap holes can be drilled in the grey area.
(Requirement: use a Duravit waste and overflow)
▨ Drilling of tap holes in shaded areas only possible
if waste and overflow without water inlet is used.

2nd step: Please indicate the required position of the holes to be drilled in the rim.

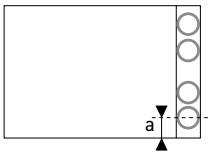
If the tap holes are to be drilled on the left / right, please specify the distance from the edge of the bathtub to the centre of the first drill hole:
a = _____ mm

☐ left



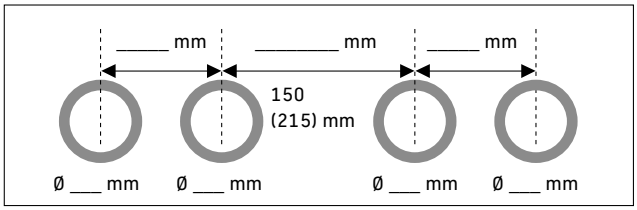
a = min. 80 mm

☐ right



a = min. 80 mm

3rd step: Specify the dimensions for drilling the holes. Please enter the distance between them and the diameter for each hole directly in the drawing.



For DuraStyle bathtubs, please note the minimum distance between the two centre drillings. The minimum distance when using a Duravit waste and overflow without a water inlet is 150 mm, when using a Duravit waste and overflow with water inlet 215 mm.

Taps are not suitable for bathtubs with conical support

Luv

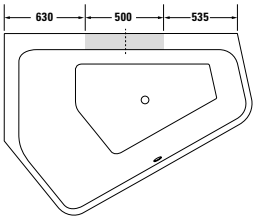
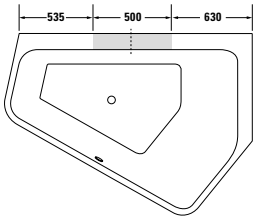
Order no.

The following steps must be completed one after the other and all details must be specified in full order to be able to carry out the drilling of tap holes accurately. When using a Rollbox / a body for the hand shower (see Secuflex by Hansgrohe, HansaCompact by Hansa), a technical drawing of the box must also be sent. Otherwise an order cannot be processed.
Please note that bathtubs with holes drilled in the rim cannot be returned. Taps are not possible for whirltubs.

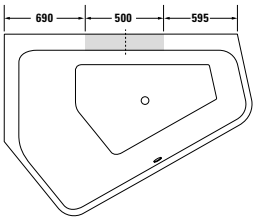
1st step: Please indicate the required bathtub.



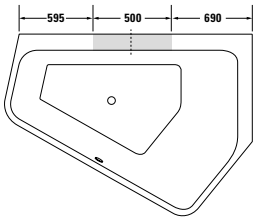
☐ # 700390
☐ # 700394



☐ # 700391
☐ # 700395



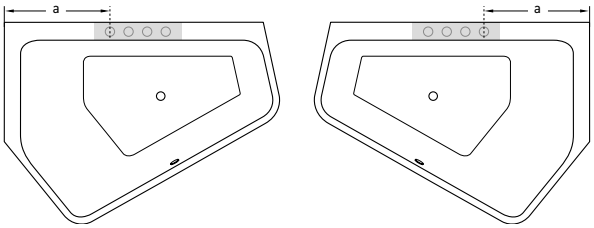
☐ # 700392
☐ # 700396



☐ # 700393
☐ # 700397

☐ Tap holes can be drilled in the grey area.

2nd step: Please specify the distance from the edge of the tub to the centre of the first tap hole
a = _____ mm



a = min. 660 mm for #700390 #700394 #700391 #700395
a = min. 720 mm for #700392 #700396 #700393 #700397

3rd step: Specify the dimensions for drilling the holes. Please enter the distance between them and the diameter for each hole directly in the drawing.

Order sheet for consoles (depth 480/550 mm)

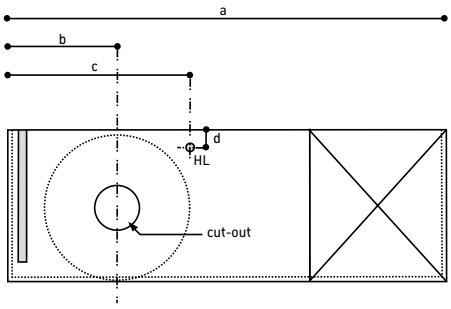
Client Order-No.

Series Date

Deadline Colour

Washbasin #

Infobox: Individual solutions with variable-width consoles and flexible arrangement of low cabinets, console supports on request (include sketch) / Maximum console width: 2000 mm. Widths up to 2700 mm on request / A stabilising console support is required for dual solutions or variable solutions over 1001 mm / We recommend a clearance of approx.
600 mm with console basins and undercounter washbasins with no base vanity unit / Please specify the exact coordinates (axial dimension + diameter)!



In order to ensure that the variable consoles we manufacture are a perfect fit, we need the following information/dimensions:

a = _____ mm overall console width

b = _____ mm axial dimension from left-hand outside edge of console to centre of washbasin cut-out.

c = _____ mm if a tap hole is to be drilled, please give the axial dimension from the left-hand outside edge of the console to the centre of the tap hole. For 2-hole basin mixer: In addition to the tap hole drilling axial dimension for the handle hole drilling is needed.

d = _____ mm for drilling please also give the axial dimension from the rear edge of the console to the centre of the tap hole. For 2-hole basin mixer: Axial dimension from trailing edge of the console to the middle of the handle hole drilling is needed.

Infobox: For consoles free-standing:
2 console supports for consoles with a width up to 1000 mm,
3 console supports for consoles with a width of 1001 - 1400 mm,
4 console supports for consoles with a width of 1401 - 2000 mm.

unit / washbasin base unit

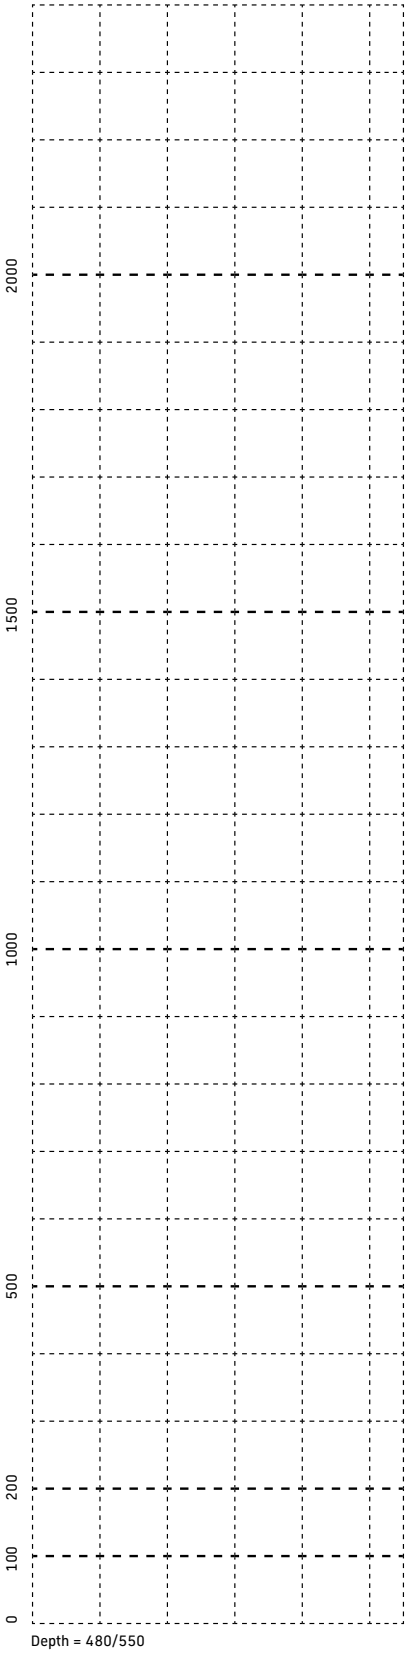
Console support – towel rail # UV 9903 / UV 9917

Console support bracket # UV 9902

Console support – T-shaped # UV 9926

HL = Tap hole drilling D = 35 mm (size specification optional)

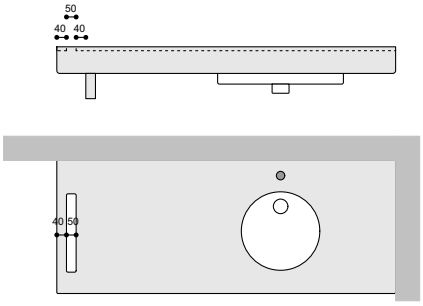
Please ensure that all of the required information is entered on the order form. The preprinted scale grid will make it easier to draw a plan of the console surface.



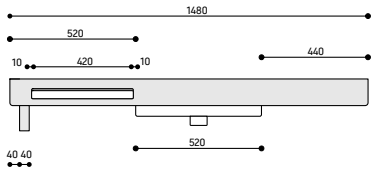
DuraStyle

Order information for consoles

Rule 1: Towel rail cutout on top of the console surface is only possible if the console is not attached to the wall area. In connection with a console support a minimum gap of 40 mm is to maintain.



Rule 2: Minimum edgewise overlap (of one side) and minimum width of console if using a towel rail cutout on the splay, whereat the console is supported by a console support = 520/ 1480 mm. The towel rail cutout is always located next to a washbasin and is variable in its positioning (dimension between axes in order support sheet is necessary).



Order sheet for consoles

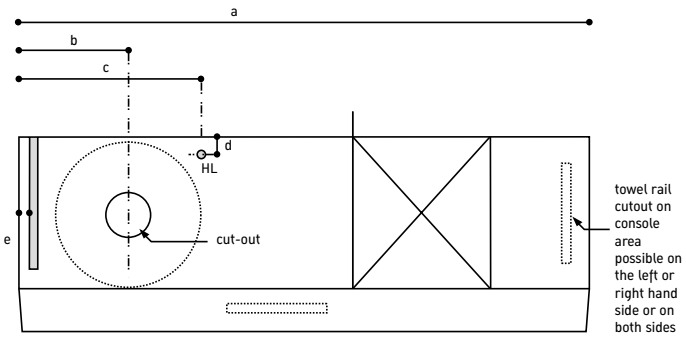
Client Order-No.

Series Date

Deadline Surface

Floor cabinet / shelf with drawer #

Infobox: Individual solutions considering the ordering information/ rules for DuraStyle consoles with various width of the consoles and various positioning of the floor cabinets, console supports. Please attach drawing / maximum width of console 2000 mm / Please specify exact coordinates and diameter.



For being able to produce the variable consoles accurately fitting, we need to know following details:

a = _____ mm overall console width

b = _____ mm axial dimension from left-hand outside edge of console to centre of washbasin cut-out.

c = _____ mm if a tap hole is to be drilled, please give the axial dimension from the left-hand outside edge of the console to the centre of the tap hole. For 2-hole basin mixer: In addition to the tap hole drilling axial dimension for the handle hole drilling is needed.

d = _____ mm for drilling please also give the axial dimension from the rear edge of the console to the centre of the tap hole. For 2-hole basin mixer: Axial dimension from trailing edge of the console to the middle of the handle hole drilling is needed.

e = _____ mm Please specify desired gap between the console support and left outer edge and as well the type of console support (# UV 9926, UV 9902, UV 9933)

Infobox For consoles free-standing:
2 console supports for consoles with a width up to 1000 mm,
3 console supports for consoles with a width of 1001 - 1400 mm,
4 console supports for consoles with a width of 1401 - 2000 mm.

floor cabinet vanity unit

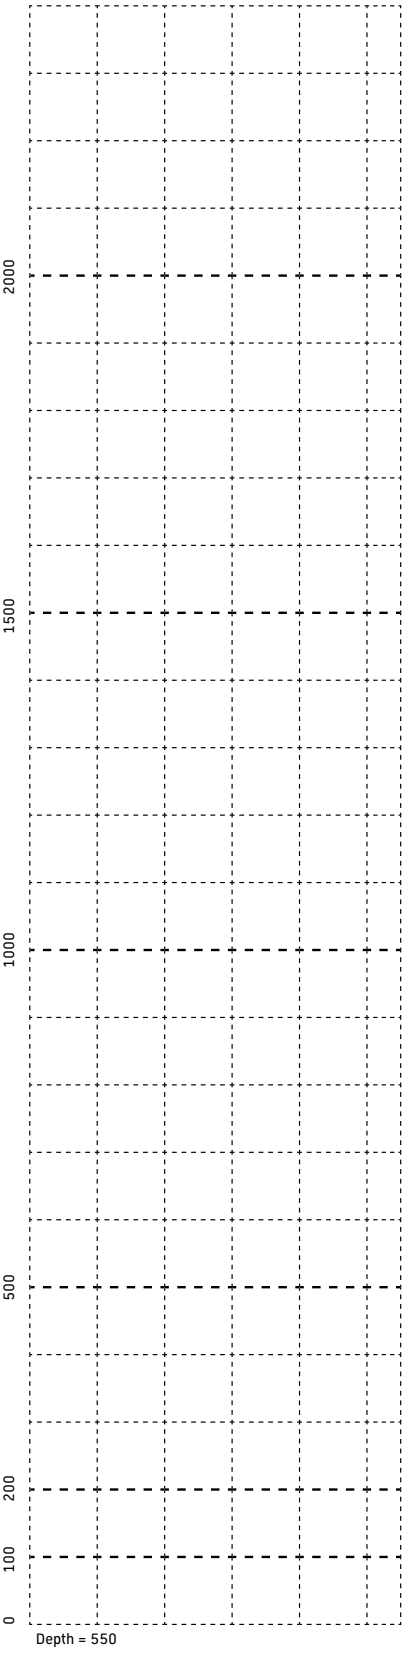
console support-towel rail # UV 9933

console support-bracket # UV 9902 (40 mm)

console support-T-shaped # UV 9926

HL = Tap hole drilling, D = 35 mm (size specification optional)

Please ensure that all of the required information is entered on the order form. The pre-printed grid will make it easier to draw a plan of the console surface.



General Terms Of Sale

I. GENERAL
Unless written provisions to the contrary agreed by the Management, all our sales are exclusively carried out under the present General Terms of Sale which supersede any different clauses appearing in orders or letters from buyers.
Unless by written agreement, our customer's general terms of purchase are ineffective and may in no case prevail over our own terms of sale.

II. OFFERS
The information appearing in our catalogues, leaflets, pricelists and offers as statements by our representatives, agents and employees are given for information only and may thus be subject to modifications.
We reserve the right to carry out any product modification deemed by us to be useful , or even to discontinue some of our products without prior notice.
Unless otherwise agreed, our offers shall only be available 30 days as from the date of dispatches our issue. Our supplies and services are limited to the elements specified in our offers.

III. ORDERS
Written or verbal orders received directly or through the medium of our representatives, agents and employees only become definite after express and written confirmation by our company.
On seller's request, any order may be subject to the return of an acknowledgement of receipt within a given time. For lack of complaint by the buyer within eight days as from the date of dispatch, our order confirmations equal firm and definite contract under the present terms of sale and the customer shall then be no longer entitled to complain about non-conformity with his order.
Orders are subject to our approval and may be reduced or cancelled, namely in case of prior sale of products in stock.
As the size and style of execution of our products are subjects to technically inevitable variations, the products are allowed the accepted tolerances in order to take the special conditions of preparation into account.
The buyer is definitely bound from the moment he signs an order form or contract with one of our delegates, representatives, agents or employees.
No order may be cancelled without our express written agreement.
We reserve the right to refuse any order cancellation or to subject it to prior payment of a compensation corresponding with the loss suffered.

IV. PRICES
Unless otherwise stated in our offers order confirmations, our prices are exclusive of taxes and for goods removed from our works, stores or warehouses, without packaging. Whatever the date of order, our prices are invoiced in accordance with the rates in force on the day of order confirmation. Additional or special executions shall be subject to extra charges.
In case of increase in the price of raw materials or in the cost of labour for products ordered and in case such increase occurs between booking of the order and the date of delivery, our company shall be entitled to pass such increases either partly or fully on the rates in force on the day of order confirmation.
The agreed price may also be modified in presence of new fiscal clauses.
Unless express, written and special commitment to the contrary, discounts and rebates granted to our customers are temporary and specific for each individual case. Accordingly, our company reserves the right to modify or suppress such grants at any moment. Same applies for end-of-year discounts or rebates.

V. DELIVERIES – SHIPMENT
Our terms of delivery are in working days. They are given for information only and without engagement.
If a down-payment is demanded with the order, the time of delivery runs as from the day after receipt of this down-payment.
Delay in delivery shall neither entail cancellation of orders or purchases for account nor entitle to any penalty or indemnity.
In principle, our goods shall be removed from our works, stores or warehouses and the customer shall take delivery of the order on the agreed date; after this time, the goods shall be kept for account and risk of the customer.
Warehouse charges for goods which could not be delivered within the time of delivery for reasons beyond our control are chargeable to the buyer.
All our goods sold in sample or type shall be collected and accepted in our works or stores or in third parties in which they may have been deposited, even in case of sale carriage paid. The buyer shall accept the goods before shipment. Failing that, goods transfer outside the premises in which they were stored in view of shipment or collection by the carrier shall equal specification and individualization of said goods and entail transfer of property to the buyer with the only reserve of payment of these goods.
Deliveries possibly carried out by our company with its own vehicles are services to the customer and do not depart from the above mentioned provisions. In case of sale in which the carrier is appointed by our company, the latter only acts in the capacity of buyer's agent and transacts with the carrier on behalf and for account of the buyer.
Even when shipped carriage paid, our goods always travel at consignee's risk; upon receipt, the latter shall check their quantity, quality and condition before taking delivery, possibly have reserves and direct recourse against the carrier in case of delay, loss or damage.
The civil liability of our company shall in no case be involved in case of damage or average occurring for any reason (fire, water, etc.) or in case of partial or total loss of the said goods whatever the reason of the loss when the goods put at customer's disposal have been stored by us on customer's request in our premises or in premises belonging to third parties. Same applies in case of noncollection of the goods within the agreed and stipulated terms. Should the manufacture of frames, cases, loads or pallets be necessary for shipment, its cost shall be invoiced extra. Moreover, the said packing shall not be taken back.

VI. FORTUITOUS EVENT - FORCE MAJEURE
Accidents in works, lack of labour, strikes, war, political events irregular deliveries of raw materials etc. are cases of absolute necessity allowing us to suspend or annul our commitments and extend the agreed time limits without entitling the buyer to any indemnification.
The contract of sale may be expressly suspended on our own initiative by sending a registered letter with return receipt to the buyer in following cases: difficulties or refuse of exportation, difficulties to obtain administration's acceptance of the authority to transfer capital and each time unexpected difficulties inherent in export transactions arise without preventing the sale definitively.

VII. LIABILITY – GUARANTEE
Since the buyer has taken due note of the characteristics of the products of the range proposed by the seller, it is expressly agreed that the buyer shall have chosen the products mentioned in the order handed to the seller on his own responsibility and according to the requirements he determined.
Any complaint relating to possible apparent defects of the goods sold by our company shall only be accepted if made by registered letter with return receipt sent within three days following the day on which the buyer or his agent will have taken delivery of the goods in our works, stores or warehouses or, should the goods be forwarded by our company, within three days following the day on which the goods have arrived at destination (attestation by postmark).
In the same way, any complaint relating to possible hidden defects of goods shall only be accepted if made by registered letter with receipt sent within two days following the date on which the buyer will have been acquainted with the hidden defects.
In any case, complaints relating to hidden defects shall only accepted if made within one month following the date on which the customer will have taken delivery of the goods in our works, stores or warehouses or, in the case the goods are forwarded by our company, within one month following the date on which the goods will have arrived at destination.
To be admissible, complaints shall be detailed and precise, namely as to the defects noticed or non-conformity of the goods.
Our company reserve the right to have the goods forming the subject matter of complaints surveyed. In any case, complaints for hidden or apparent defects shall only be accepted if the goods have not be subjected to any transformation and if it has been acknowledged, after due hearing of the parties, that the defects are imputable to the company and if the buyer has taken all necessary steps to keep the goods in same state until acknowledgment after due hearing of the parties or possibly until shipment.
Our company's liability is limited, according to our preference, either to replacement within a reasonable time of the goods recognized to be faulty and without any other charge than carriage for the said goods, or to reimbursement of the invoice price.
Disputes relating to possible goods defects shall in no case entitle the buyer to suspend or refuse payment of our invoices or drafts.
We expressly accept no responsibility for any prejudice which could be inflicted to the buyer due to goods covered by the guarantee.
Items sold at special prices due to downgrading may in no case allow for any complaint regarding the style of execution, surface evenness, size, etc.
Goods shall in no case be returned without our prior agreement; such agreement shall in no case be considered to be acknowledgment.

VIII. TERMS OF PAYMENT
Unless we agree otherwise by special, express and written agreement, invoices shall be payable cash at our registered office by cheque upon receipt.
A down-payment with the order may be requested for some orders available in stock; the remainder shall then be paid when the goods are put to buyer's disposal.
Prior express and written agreement by our company shall be required for payment by instalments. Unless otherwise agreed, such agreement shall be specific for each individual case. Our goods shall then be payable by drafts. Any refuse or default of acceptance of our drafts within the fixed time shall entail immediate payability of all our claims within good time and with exemption from summons or formalities as also annulment or cancellation of the sale.
In case of payment by instalments previously agreed by our company, and when buyer's credit deteriorates, we always reserve the right to demand guarantees deemed by us to be appropriate for fair fulfilment of commitments, even after partial shipment of an order. Refusal to it or insufficient guarantee shall give us the right to cancel or suspend all or part of the transaction.
The same applies namely in case of partial or full stoppage of buyer's business, whatever the cause.
The date of shipment shall be the starting point of the agreed times) of payment. Cash payments shall be effected within a time of 10 days as from the date of shipment. Only payments effected within this time shall be considered to be cash payments.
The customer shall in no case be authorized to deduce the value of a reimbursement or of a credit to which he is entitled from the amount of the payment to be effected if he does not possess a credit advice showing the amount or reimbursement of the credit.
For lack of payment of an amount due at maturity, an interest rate of 2 points up to the discount rate of the State Central Bank of Baden-Württemberg will be charged. Additionally, all claims arising from the delay will be reserved.
All expenses resulting from the return of dishonoured drafts and all collecting charges of every kind incurrent by our company to obtain payment of debts shall be chargeable to the buyer.
Default of payment at due date of any part of the price shall make payment of all non-matured invoices immediately due, without summons nor formalities unless derogation mutually agreed and confirmed in written form by the seller.
Notwithstanding all that has been mentioned above, the seller reserves the right to implement article IX of these Terms of Sale for lack of payment at maturity of any amount under the contract of sale.
It is expressly agreed and understood that any invoicing performed on the request of an installer or of any other agent to the customer / consumer direct or to any other third party shall not be considered to be an acknowledgment by our company and do not release the installer or agent from their obligations of payments to us.

IX. TRANSFER OF PROPERTY
According to the law of 12th May 1980 the provisions thereof are deemed to be perfectly familiar to the buyer who accepts them, all our sales are effected with retention of title.
Accordingly, transfer to the buyer of the property of goods shall by suspended until payment in full of the price. In case of remittance of a cheque or bill, payment shall only be considered to have been effected at the moment of actual collection.
The risks are transferred to the buyer upon delivery of the goods sold with retention of title.
The buyer shall provide or their preservation, maintenance and use at his own expenses and own risk. He shall be responsible for any damage caused by the goods as from delivery.
Until transfer of property to his favour, the buyer shall see to good conservation of the identifying codes affixed by the seller to the goods according to the mentions appearing on the sales documents.
The buyers shall oppose by any legal means claims that third parties could assert as to goods sold by seizure, confiscation of by any similar proceedings. As soon as advised, he shall inform the seller to enable him to protect his interests.
If he is not the proprietor of the premises in which he exercises his trade, he shall acquaint the lessor with the legal status of the goods sold and prove observance of this formality to the seller.
Unless expressly authorized by the seller, the buyer is not entitled to remove the goods sold from the usual storage premises.
Any operation which would result in an attack on seller's possibility to repossess the goods sold as they were or to modify the legal status of all or part of the goods sold (consumption by the buyer, transformation or incorporation with other goods, reselling, assignment of rights over these goods to third parties) may only be carried out, unless written prior agreement by the seller, after payment of the balance of the amount remaining due for the goods concerned.
For lack of payment at maturity of any amount due by virtue of the sale contract or for lack of fulfilment of any commitment by the buyer, we may terminate the contract of sale with good right and without being bound to comply with legal formalities within eight days after ordinary summons by a registered letter which has had no effect.
In the same way, contracts of supply or delivery passed with us shall be terminated with good right days after ordinary summons by a registered letter which has had no effect.
Seller's repossession of the claimed goods imposes on the buyer the obligation to make up for the prejudice resulting from the depreciation and especially from the unavailability of the good concerned.
Consequently and by way of penalty clause, the buyer shall owe an indemnity amounting to 10% of the agreed price per month of possession of the goods taken back.
If termination of the contract makes the seller become debtor for down-payment previously received from the buyer, he shall be entitled to make up for such debt, with the claim resulting from the above-mentioned penalty clause.

X.PLACE OF PERFORMANCE, JURISDICTION AND OTHER AGREEMENT
All our sales are deemed transacted at our registered office constituting the place of payment.
Payment by draft or other bill of exchange shall in no case constitute a departure from the provisions of these General Terms.
Generally, the place of performance is Hornberg, even if deliveries are effected from other places. Provided the ordering party is a fully qualified commercial agent, any disputes arising from the contractual relationship must be taken to the court with jurisdiction over the supplier's head office.
In case of international sale and unless expressly otherwise agreed, the applicable law shall be the German law.
Any business with our company implies clean acceptance of the present general terms.
