GUSTAVSBERG /
SMARTER BATHROOMS

Live life in the Bathroom

A ROOM WITH CALM

WELCOME TO OUR WORLD

It's smart to think of the environment when building a bathroom. It's smart to focus on quality. It's smart to focus on long-term, durable design. That's why we reckon it's smart to think Gustavsberg.

This catalogue presents our range of bathroom products. There are also dimension sketches that make it easy to choose the right product for the bathroom.

For additional information about our products, visit our website. On the website manuals, spare parts and instruction videos are available.

Welcome to smart bathrooms from Gustavsberg!

The Bathroom

TOILETS

FIXTURES / BIDETS / URINALS

Gustavsberg toilets are made of tightly vitrified sanitary porcelain, which is the most hygienic and durable material of all for bathroom porcelain. Our comprehensive range comprises both wall- and floor-mounted models to accommodate all wishes and needs, as well as toilets for installing in corners and small spaces. We also stock the widest range of Hygienic Flush models on the market – possibly the most hygienic type of toilet in the world.

TO THINK OF

Which model suits you best? Do you want the water trap concealed or visible? Do you prefer wall or floor-mounting? With our Triomont system you can easily install a wall hung toilet even if your current model is floor standing. Neat, comfortable and hygienic. If your

home is to have two toilets, why not choose different seat heights? Unfortunately, when bathrooms are renovated, the bidet is often the first thing to go. But there is nothing better for taking care of intimate hygiene.

SMART SYMBOLS FOR SMART SOLUTIONS

HYGIENIC FLUSH

Smarter flushing for improved hygiene and easier cleaning. The innovative design with open rim and smooth surfaces eliminates all potential dirt traps. Hygienic flush minimises the need to use strong cleaning agents.

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – When cleaning.

QUICK RELEASE

With quick-release functionality, you can remove the toilet seat from the bowl easily and without tools. The seat and toilet can then be cleaned separately, which is both simpler and more hygienic.

SOFT CLOSE

Hard, solid toilet seats have previously been associated with loud noises when they are lowered. Soft close functionality has solved this problem through the introduction of a damper that is built into the seat to ensure that it can be lowered gently and quietly. The damper has no direct contact with the porcelain, which facilitates cleaning and makes the seat more hygienic.

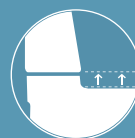

SUPRAFX

Concealed wall fitting for invisible installation of wall-mounted toilets in the estetic range. Neater design free from dirt traps facilitates cleaning and improves hygiene. The patented suprafix system simplifies installation of your wall-mounted estetic toilet, saves time and eases the strain on your muscles.

Watch the video about suprafix at youtube.com/gustavsbergfilm

NO ROOM FOR DIRT

On toilets with porcelain covers, the "seam" between the seating ring and the cover has been moved up. A soft curve in the porcelain simplifies cleaning and prevents the build-up of dirt. The foot of the toilet is smooth to facilitate cleaning and improve hygiene.

QUIET AND DRY

The fully encompassing porcelain cistern conceals a separate inner tank. This reduces noise and counteracts the build-up of condensation on the cistern, helping prevent the accumulation of dust.

SENSOR-CONTROLLED FLUSH

A touch-free flush function means improved hygiene. Using an app, the function can be set to flush automatically when the user walks away, or to flush at hygienic intervals if the toilet is used infrequently. Touch-free is a smart solution for all users, both at home and in public environments.

P-TRAP:

ALSO KNOWN AS THE "UNIVERSAL MODEL". FEATURES A HORIZONTAL OUTFLOW PIPE THAT ALLOWS GREAT CONNECTION FLEXIBILITY; FLOOR CONNECTION, WALL CONNECTION, RIGHT-HAND OR LEFT-HAND SIDE.

CONCEALED S-TRAP:

BUILT-IN DRAIN PIPE FOR FLOOR-BASED CONNECTIONS.

THE DRAIN CONNECTION IS CONCEALED FOR EASIER CLEANING.

OPEN S-TRAP:

THE EXTERIOR OF THE CONNECTION PIPE IS VISIBLE FROM THE SIDE.

WALL HUNG TOILET 5G84 – HYGIENIC FLUSH

With Soft Close/Quick Release toilet seat

- Easy-to-clean and minimalist design
- Open flush edge for simplified cleaning
- Flushes all the way up to the rim

ART-no: 5G84HR01

EAN-nr: 4051202288662

FURNITURES

The concept of “Form Follows Function” means that perfect function inevitably leads to beautiful form. This design principle produces solutions that are both aesthetically pleasing and smart. The Graphic and Artic ranges of furniture are perfect examples. Graphic features a graphic design line that is ideal for small bathrooms, while Artic is more traditional. The first is neat and compact, the second more generous. However, there is one trait they both share: Form Follows Function.

TO THINK OF

Shelves or cabinets? Cabinets keep the dust off and help you to avoid having to look at all the packages and other things you need close at hand. However, shelves provide greater accessibility and allow you to display the items you enjoy looking at. Whatever you

choose, make sure to include a lot of storage space – even if your bathroom is small. For example, there is almost always room for a cabinet under the washbasin.

SMART SYMBOLS FOR SMART SOLUTIONS

SOFT CLOSE FURNITURE

The acoustics in a bathroom can result in loud, sudden noises being particularly irritating. With soft-close functionality, cabinet doors and drawers close gently and quietly.

MOISTURE RESISTANT

The wood used in gustavsberg bathroom furniture has been developed and tested for high durability in hot, humid bathroom environments. Smart design – e.g. The way our washbasins extend beyond the edge of our washbasins – protects the furniture from splashes and eliminates unnecessary moisture traps.

BATHROOM CABINET, ARTIC – 100 CM

BATHROOM CABINET WITH WASHBASIN,
ASH GRAY COLOUR

- With full-surface porcelain washbasin, 2 tapholes
- Soft-close drawers for soft and quiet closing
- Simple, easy-to-clean water trap with pop-up function included

ART-no: GB71ACVU12TL01

EAN-nr: 4065467175155

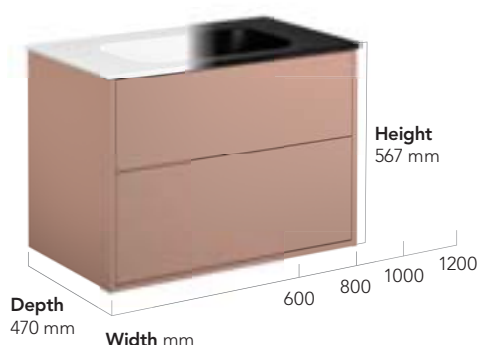

FOR ADDITIONAL INFORMATION VISIT [GUSTAVSBERG.COM](https://www.gustavsberg.com)

ARTIC BATHROOM FURNITURE

Artic's timeless design makes all bathrooms more beautiful. Although Artic is a cultured range, the cabinets can easily 'swallow' everything you need to keep in a bathroom. The units are based on standard dimensions and feature generous

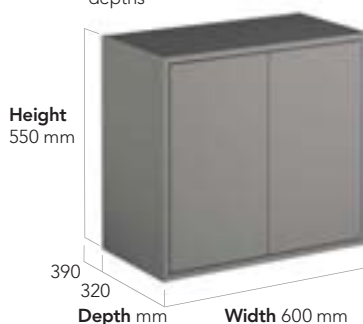

storage areas and surface space, as well as a host of smart details. Cabinet doors and carcasses of the same colour create a harmonious bathroom.

BATHROOM CABINET WITH SINK

GRAPHIC BATHROOM FURNITURE

Graphic features slightly daintier dimensions than most other bathroom furniture units. The design is based on the repetition of graphic shapes and dimensions; for example, three wall cabinets on top of each other are exactly the same height as a high cabinet,

making it easy to furnish with Graphic. Moreover, wall cabinets and high cabinets are available in two depths to suit both large and small bathrooms. Cabinet doors and carcasses of the same colour create a harmonious bathroom.

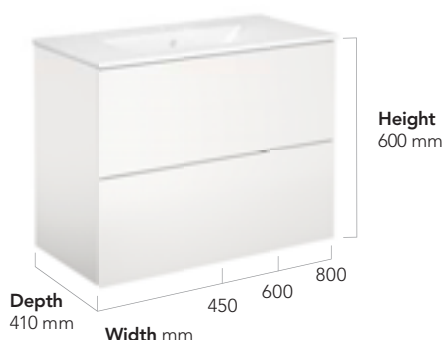

GRAPHIC BASE BATHROOM FURNITURE

Our popular Graphic range with Graphic Base: a simpler design and a lower price – so that even more people can enjoy the benefits a fully functional bathroom.

While there are still all kinds of smart Graphic solutions to choose

from, Graphic Base is only available in white, and only with a smooth door finish. This, in turn, simplifies the choice of mixers and other accessories. We want it to be simple and straightforward for everyone to put together a neat and functional bathroom.

MIRRORS AND LIGHTING

Don't forget about the lighting when planning your bathroom.

Weak light – or excessively bright light – will make the bathroom environment dull and sad. A good rule of thumb is to have at least one light for 'general lighting' and one directed light for 'face work'.

Make sure to include mirrors in your calculations as well. It is quite usual to install a mirror above the washbasin, but if you have room, use mirrors as furnishing details – above a wall cabinet, for instance.

Mirrors reflect light and increase the feeling of space in the room.

MIRROR WITH LIGHTING AND SHELF

- All installation components supplied
- Integrated LED lighting 600 mm – 10W, 800 mm – 11W, 1000 mm – 13W, 1200 mm – 15W

ARTIC PRO FURNITURE FOR LAUNDRY AREAS

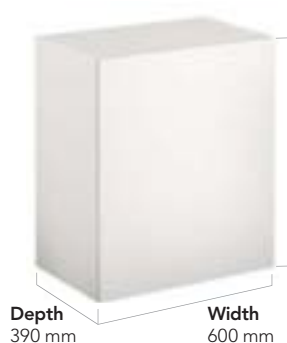

With Artic Pro – Gustavsberg's new range of products intended for the laundry area – you can make your laundry room or the laundry section of your bathroom as stylish as the rest of the bathroom.

The wall cabinet – in white – is slightly taller than most other similar cabinets in order to facilitate storage.

Worktop sections in white or matt black are available to order in bespoke sizes to fit your laundry room precisely.

A white side section with adjustable feet effectively conceals the washing machine or laundry basket from the side.

MIXERS

The development is steadily moving towards higher demands in order to build a more sustainable community - and that is a development we at Gustavsberg welcome. Among other things, by launching New Nautic mixers with technology adapted to new environmental standards and requirements.

We want to take part in making buildings more sustainable, beautiful, and easier to maintain over time. That will be built-in to the New Nautic series, our most sustainable mixer ever. At gustavsberg.com you can read more about New Nautic and about all our other mixers.

TO THINK OF

A mixer should be nice to look at – but it is the inside that makes the real difference. So go for quality. At Gustavsberg, you will find energy and water-saving technology in even the most exquisitely

designed mixers. Do you have young children? Then choose a thermostatic mixer that regulates the water temperature and eliminates the risk of scalding.

SMART SYMBOLS FOR SMART SOLUTIONS

COLD-START

Innovative technology ensures that the mixer supplies 100% cold water from its start position – facing forward – eliminating unnecessary use of hot water. Saves energy and money every time you use it.

ECO-STOP

A smart eco-function that allows individual setting of the max flow of the mixer. This makes it simple for you to adjust the max flow, saving water and energy on your own terms. The function is fully adjustable for individual setting.

ECO-FLOW

The mixer features an effective, optimised flow of water. You therefore enjoy the same wonderful, functional experience as always, but using less water and energy. Kind on the environment – and on your wallet.

SENSOR-CONTROLLED MIXER

The smart sensor technology automatically helps you to save energy and avoid wasting water. The mixer turns on when you place your hands in the appropriate position, and shuts off again as soon as you remove them. During cleaning, cover the sensor eye to disable the mixer temporarily. Powered by a standard battery or transformer.

EVEN TEMPERATURE

Thermostatic mixers feature built-in automatic scald protection and hot-water safety stop with type-approved non-return valves. This means that the mixers react quickly to the changes in temperature and pressure that can arise in the water flow, and even out the differences.

SAFE TOUCH

All thermostatic mixers from gustavsberg are fitted with a safe touch function, which means they are designed to lead the hot water along the rear side of the mixer. This minimises the heat level on the front side of the thermostat, thus reducing the risk of burns.

LEAD-FREE

The mixer is made of material whose total weight includes less than 0.1% lead. As such, it is an eco-smart mixer that meets stringent requirements with reference to lead content. The mixer features a discreet laser marked symbol on its rear side to facilitate traceability.

ELECTRONIC SHUT-OFF VALVE

The smart self-closing valve increases water safety in your kitchen. Choose between three timing settings when the valve is open. A discreet LED lamp (green, blue, yellow) communicates your selected time setting and turns off when the valve is closed.

LEAKAGE BREAKER

If water comes into contact with the detector, the valve closes immediately and the leakage breaker's red LED lamp will flash. Even if the valve is closed, the LED lamp flashes if there are leakages from other devices.

DUAL FUNCTION

The mixer is operated as normal with a lever, but is also fully controllable with the digital control. A LED light communicates the selected temperature. For smarter use, flow and temperature can be programmed in three favourite settings that are activated via quick select.

QUICK FIT

The mixer is installed using a quick fit nut that is simply pushed up to its stop position and then tightened. This smart solution simplifies installation and saves time, money and sore backs!

SMART INSIDE

Thanks to the smart, replaceable components, the mixer can be upgraded in the future to add new, even smarter functions. This extends the mixer's lifetime and makes it even more sustainable.

WAHSBASIN MIXER NEW NAUTIC

- Energy classification A saves water and energy
- Grip-friendly lever with clear color marking for hot and cold water
- Cold-start, supplies only cold water when the lever is in straightforward position (applies to energy class A)

BATHROOM SINKS

A good washbasin must be functional, easy to clean and hard-wearing – but also neat and attractive. Only porcelain of the highest quality – as used in washbasins from Gustavsberg – can meet all these requirements. Big bathroom? Small bathroom? Corner, elongated surfaces or tight space? No matter what your bathroom looks like, we can almost guarantee that you will find a Gustavsberg washbasin to match it.

TO THINK OF

Installing two sinks cuts down on queuing – and generates a sense of togetherness – for large families. Think about whether you want to conceal the water trap in a bottom cabinet or behind a pedestal or cover. But maybe the water trap should not be hidden? There are great looking models that you really want to show off. If a standard size sinks takes up too much space, there are smaller models and

washbasins designed for corner installation to choose from. It may be that you need to think about setting up your bathroom with an eye to the future – to the time when you may not be as mobile as you once were. Our range contains numerous products that have been adapted for special needs.

SMART SYMBOLS FOR SMART SOLUTIONS

CERAMICPLUS = C+

Many of our products are available with ceramicplus surface treatment. This provides the porcelain with a dirtrepellent surface that prevents the accumulation of limescale and dirt. Ceramicplus is also good for the environment, as it means that you can use a milder detergent – and less of it! – when cleaning.

BATHROOM SINK NAUTIC 5560

FOR BOLT/BACKET MOUNTING 60 CM

- Easy-to-clean and minimalist design
- Elliptical sink with generous counter spaces
- For bolt or bracket mounting

MOUNTING

YOU CAN INSTALL MOST OF THE PRODUCTS YOURSELF. HOWEVER, THIS SYMBOL MEANS THAT WE RECOMMEND THAT YOU CONSULT A SKILLED PROFESSIONAL, SUCH AS A PLUMBER, A TILER OR AN ELECTRICIAN.

SHOWERS

With unequal-sided measurement combinations and details such as smart elevating hinges that raise the door when you open it, durable toughened glass and adjustable wall profiles that create a straight shower, even with angled walls, we can supply the perfect solution every time – even in small bathrooms. All our shower doors are reversible for right/left-hand installation, and can open both outwards and inwards to save precious space. They are fitted with polished profiles and door handles in a stylish design.

TO THINK OF

Installing a new shower wall requires preparation and planning because in many bathrooms, the shower corner jostles for position with the washbasin, toilet and other fittings and furnishings. In such cases, what are needed are smart and flexible solutions that take up as little space

as possible. For larger bathrooms, you can use any of the shower doors in the large, generous dimensions. Choose between straight and rounded models. Irrespective of your personal taste or how much space you have available, our shower products give you every opportunity to find a solution that matches your needs.

SMART SYMBOLS FOR SMART SOLUTIONS

REVERSIBLE

All our shower doors are reversible for right/left-hand installation, and can open both outwards and inwards which helps save precious space.

ELEVATING HINGE

The elevating hinge is a smart detail that lifts the shower walls 5 mm every time you open it. This minimises wear on both the floor and the shower doors. A practical function that provides a sense of authentic luxury.

SQUARE SHOWER DOORS

TWO STRAIGHT DOORS FITTED IN LINE
100X100 CM

- Pre-fitted door profiles for quick and simple installation
- Doors reversible for right/left-hand installation
- Polished profiles and door handles

BATHTUB

A hot bath lowers the pulse and boosts circulation in the body. Few things are as de-stressing and relaxing as slipping into a warm bath after a long, hectic – and possibly chilly – day. That’s why you need to take care when choosing your tub, because the model you select will have to perform heroic deeds no other piece of furniture in your home can handle. What’s most important: appearance, size or function? Or is everything equally important?

TO THINK OF

Big or small? Built-in or free-standing? In this catalogue you will find all kinds of standard bathtubs from Gustavsberg, take for example the combi-tubs, they are perfect for people who also use their bathtubs as their shower. These tubs have a flat section at the foot end,

and the drain is positioned in the middle. The head end is gently angled and comfortable. Tiling-in bathtubs Ideal for people who have plenty of space and appreciate square design. Perfect for two people to bath together; features two sloping head.

SMART SYMBOLS FOR SMART SOLUTIONS

GLAZEPLUS

Our bathtubs are available with an extra surface treatment called “glazeplus”. This is a crystal-clear polymer film that protects the surface of your bathtub against dirt and limescale deposits – which facilitates cleaning and reduces the amount of detergent you need to use.

ANTI-SLIP

The bathtub is available with an anti-slip treatment where quartz sand has been burned into the enamel in an aesthetically neutral pattern. The surface counteracts the risk of slipping when entering or leaving the bathtub. Moreover, it is located at the foot end of the tub so that it does not affect the overall bathing experience.

SUPPORT HANDLES

You can order the bathtub with support handles on the rim to improve safety and ease of use.

BATHTUB DUO

1580 X 680 MM

- Two sloped head ends, suitable for two people
- Premium quality titanium alloy steel
- Adjustable feet - the tub is stable even on uneven floors
- Bathtub feet in white, black

BASIN MODELS FOR ENAMELLED TITANIUM STEEL BATHTUBS FOR TILING IN

- Gustavsberg has a wide range of models and sizes intended for tiling in.
- Our tubs are made of enamelled titanium steel of the highest quality.
- Handles and anti-slip bottom surface treatment available as options for a safer bath.
- Glazeplus available as an option for easy, eco-friendly cleaning.

Tiling-in bathtubs 3400, 3500, 3600 and 3970 feature a traditional basin shape. This basin model is comfortable and practical for both baths and showers and is available in several sizes. Depth 420 mm.

Available in sizes 1400-1700 x 700 mm.

Tiling-in bathtubs 6830, 6831 Ideal for people who have plenty of space and appreciate square design. Perfect for two people to bath together; features two sloping head ends and a centred drain. Extra deep 450 mm.

Available in sizes 1800 x 800 and 1900 x 900 mm.

Tiling-in bathtubs Combi 3410 and 3411 are perfect for people who want to use their bathtub as a shower as well. The tub features a generous flat area in the foot end for showering and a centred drain. The head end is sloped for a very comfortable bath. Depth 420 mm.

Available in sizes 1600 x 700 and 1700 x 700 mm.

Tiling-in bathtubs, Offset 2570 and 2580 are available in left- and right-hand models. The bath is mainly designed for small bathrooms. Depth 420 mm.

Available in size 1570 x 700 mm.

Tiling-in bathtubs, Duo 1220 and 1380 designed for two people bathing at the same time. It has two sloping head ends and a centred drain. Depth 420 mm.

Available in sizes 1600 x 700 and 1700 x 750.

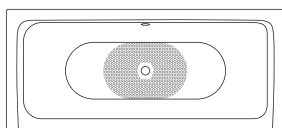

ACCESSORIES

		Handles	ART-no	Price EUR VAT 0%	EAN
		Only one handle can be fitted on tiling-in baths 1220, 1380, 6830 and 6831. 2 Handles NB! The tub must be ordered featuring holes for handles.	GB208B080901	406

ALL ABOUT TITANIUM STEEL & ENAMEL

TITANIUM STEEL AND ENAMEL – AN EXTREMELY DURABLE COMBINATION

TITANIUM ALLOY SHEET STEEL MAKES OUR BATHTUBS EXTREMELY DURABLE. THE ENAMEL IS BUILT UP OF SEVERAL THIN LAYERS – A TECHNIQUE WHICH MAKES IT HIGHLY FLEXIBLE AND ALLOWS IT TO MOVE WITH THE STEEL, ELIMINATING THE RISK OF CRACKING.

HYGIENIC

A HARD SURFACE THAT IS SO SMOOTH AND TIGHT THAT NEITHER DIRT NOR BACTERIA CAN GAIN A FOOTHOLD MAKES IT HYGIENIC AND EASY TO KEEP CLEAN.

KNOCK-PROOF

AN ULTRA-THIN SURFACE THAT IS BOTH STRONG AND FLEXIBLE. SO THERE IS NO NEED TO WORRY – EVEN IF YOU SHOULD HAPPEN TO DROP SOMETHING IN THE TUB.

WARM

ENAMELLED TITANIUM STEEL IS A GOOD CONDUCTOR. THE HOT WATER QUICKLY HEATS THE SURFACE OF THE TUB (INCLUDING THE EDGES WHERE YOU REST YOUR NECK) TO PROVIDE AN EVEN MORE DELIGHTFUL BATH EXPERIENCE.

SCRATCH-PROOF

THE SURFACE IS MORE DURABLE THAN MATERIALS SUCH AS CAST MARBLE, ACRYLIC AND CAST IRON, AND IT IS HIGHLY RESISTANT TO CRACKS AND SCRATCHES.

HARD-WEARING

HIGHLY RESISTANT TO THE CHEMICALS USED IN COSMETICS AND BATH SALTS, FOR EXAMPLE. NOT EVEN NAIL VARNISH WILL LEAVE A MARK ON THE SURFACE.

ACCESSORIES

Our bathroom accessories are created to provide long, faithful service in a humid environment. The units follow the same refined, Scandinavian design idiom as other products from Gustavsberg, so you don't have to scrimp on quality, function or form when applying your own personal style to your bathroom. Take a little time to choose handles and knobs for your drawers and cabinets, as they play a significant role in the overall impression. To see our full range of handles and knobs, please turn to the furniture pages. Several of the knobs can also be used as towel hooks on walls.

TO THINK OF

Gustavsberg supplies a well thought-out selection of accessories. Always go for quality that lasts and design that you will enjoy for years and years. And make sure to seal all holes and cavities in bathroom walls thoroughly with silicone. Make sure not to damage

the damp course in your bathroom. If you drill any holes, make sure to seal them tightly. Ask your reseller or fitter about the conditions that apply to your wall material. Plan carefully, and position your accessories with care.

Warranty conditions

Warranty for Gustavsberg's products is valid from the date of purchase and warranty covers defects in a product caused by defects in design, material or workmanship which occur:

- mixers - within five (5) years of purchase. The warranty applies to defects that cause the mixer to drip (leak) when the lever is in the closed position;
- toilet mechanisms, fixtures, seats, bathtubs, showers, showers walls/doors, accessories, outdoor faucets, fittings and furniture - within two (2) years of purchase;
- ceramics within five (5) years from purchase.

A receipt or invoice must be kept to verify the date of purchase of the product. Please carefully check the product at the point of purchase and follow the installation, operation and maintenance rules. Properly installed and maintained, the product ensures its longevity. Products with visible quality defects may not be mounted or installed. The warranty applies only to genuine Gustavsberg parts.

The warranty does not cover defects caused by incorrect or incomplete installation, maintenance, use, repair or any other external cause of the product after the product has been delivered. The warranty does not cover defects in water quality, normal wear and tear and depreciation. Gustavsberg is not responsible for the suitability of the products for the functions requested by the buyer.

Complaint notification

The Buyer (Customer) must report the defect immediately after it has occurred and must provide a receipt/invoice for the product showing the date of purchase.

Detailed complaint notification information is available on Gustavsberg web-sites:

Estonia <https://www.gustavsberg.com/ee/tugi/garantii-ja-reklamatsioonid/>

Latvia <https://www.gustavsberg.com/lv/palidziba/garantija-un-serviss/>

THINK GUSTAVSBERG

FOR THE ENVIRONMENT

Gustavsberg products help minimise your consumption of water and energy – and our environmental work goes much further than that. To take a holistic approach to our business and to production at our two sites in Sweden, we have developed our own sustainability model. Our goal is – product by product and work routine by work routine – to reduce both your and our own carbon footprint to an absolute minimum.

FOR YOUR FINANCES

Price comparisons place Gustavsberg bathroom products somewhere near the middle of the price range. However, such comparisons fail to take into account how inexpensive our products are to own. High quality gives them a long service life, and innovative solutions – of which several have already won international awards – help cut your energy- and water costs in the long term.

FOR THE QUALITY

A bathroom has to last for years and years. This applies not only to the products' function, but also to their appearance, because the bathroom should keep on looking inviting and cosy. As all the components that make up your bathroom are exposed to the same wear and tear, it is essential that all the products you choose maintain the same high standard of quality.

FOR SERVICE AND SPARE PARTS

We guarantee that spare parts for your Gustavsberg product will still be available for ten years after we – may possibly – have stopped making it. If anything should go wrong in your bathroom, visit our website at www.gustavsberg.com and watch our instruction films to help you pinpoint the problem.

BECAUSE OF THE WIDE RANGE

We are a complete supplier of high-quality bathrooms. Nordic standards and pure, timeless design make it simple to combine all products from Gustavsberg to create precisely the bathroom you want.

BECAUSE OF THE FLEXIBILITY

We have developed our products to cover requirements in small bathrooms, large bathrooms, public bathrooms and bathrooms in care environments. In our view, you should never be far from your nearest dealer and fitter. Our goal is to provide you with the best possible products when you create a complete bathroom – down to ergonomically appropriate solutions for the fitter who is to carry out the work.

BECAUSE IT'S SMART

In the Gustavsberg world, "smart" is an umbrella term for everything that makes your everyday life a little easier and more convenient. Good design should be both pleasing on the eye and a pleasure to use every time it fulfils its function perfectly for many, many years to come. On almost all our products you will find small smart symbols that specifies smart solutions and smart functions.

SUPPORT AND SERVICE

Welcome to website www.gustavsberg.com, where you will find our complete range of bathroom products. Our website also contains spare part information, manuals and instruction videos, as well as tips and hints to help you use and care for Gustavsberg products.
