# HISTORY /

**1841** Rudolf Ditmar, a German kerosene lamp salesman, founded a factory in Vienna.

**1850** Rudolf Ditmar invented the “Viennese Moderateur” oil lamps that conquered the whole world.

**1878** Together with his brother Friedrich, Ditmar set up another factory in Znojmo, located today in the southeastern part of the Czech Republic. *Nautilus 1897*

**1904** Upon R. Ditmar’s death in 1895, his heirs established “Kunstthonwarenfabrik Rudolf Ditmar Erben” as a trading company. Its prosperous factory was valued at 1,498,845 Austrian crowns.

**1909** The Znojmo factory was bought by the Lichtensterns, owners of a ceramics factory in Willhemsburg, Austria.

**1919** A merger with the Urbach Brothers business creates the “Ditmar-Urbach” firm, which was immediately incorporated as a joint-stock company. It launched production of washbasins, bathtubs and sinks in 1920, for the very first time in Europe.

**1932** **Ditmarvit**

**1938** The factory was expropriated and taken over by Ostmark - Keramik AG of Vienna on January 1, 1939.

**1945** The factory was bombed on March 1, 1945, and production had to be stopped. The factory was nationalized on December 27, 1945. The state-owned enterprise was renamed “Keramické závody n. p. Znojmo”.

**1958** The state-owned enterprise was renamed “Keramické závody n. p. Znojmo”.

**1961** A modern ceramics factory was established in Bechyně, giving birth to “Jihočeská keramika a.s.”

**1970** The manufacturing of WC combinations began, benefiting from the housing construction boom of the 1970s.

**1990** “Znojenské keramické závody a.s.” was established and assumed all previous assets.

**1991** The state privatized the Bechyně factory by means of an asset sale to Keramik Holding AG Laufen, Switzerland.

**1992** The JIKA logo is redesigned emphasizing the link with Laufen, including its distinctive claim.

**1995** Laufen took control of the Znojmo factory, bring both production centers under the same business structure.

**1999** The subsidiary company LAUFEN CZ was established in Prague to coordinate production and sales of both factories. As LAUFEN itself was acquired by the Spanish leader Roca Sanitario shortly thereafter, the Czech company became an important part of the Roca Group.

**2008** Product lines were strengthened by the launch of faucets and accessories.

**2012** The scope of production expanded further as in-house furniture and faucet assembly begins.

TECHNOLOGY  
AND BENEFITS

BATHROOM  
DESIGN LINES

PROJECT AND  
OTHER PRODUCTS

## TECHNOLOGY / JIKA SANITARY CERAMICS /

High quality kaolin is necessary for sanitary ware production, which also requires other raw materials such as clay, feldspar, silica sand, etc.

Each product has been developed by product designers in our 3D development centre.

FKS technics ensure mostly automatic manufacturing of ceramic products.

An FKS automatic manufacturing line with a high share of manual labour.

Highly advanced Triotech technology is employed for the production of ceramic trays.

Dried and glazed semi-products are fired at a maximum temperature of 1240 °C.

## TECHNOLOGY OF SANITARY CERAMICS

JIKA sanitary ware is well-known for its long-term history, high quality and great value. Employing the best natural raw materials, the environmentally-friendly production of JIKA sanitary ware takes place at two local plants, in Znojmo and Bechyně, both in the Czech Republic. Thanks to extensive automation of the manufacturing process, and namely the technology of casting under pressure (invented by Laufen in 1985), today's production is much less demanding in terms of human labour, but still, every piece of ceramic by JIKA can be regarded as handmade. The specific composition of the ceramic body after baking (so-called Diturvit) and glazing ensures a minimized absorption rate, thus forming a highly hygienic surface. Production is based on the use of casting slip, which is a mixture of water, clay, kaolin, feldspar, silica sand and an additive of finely ground pieces of ceramic scrap. Water is expelled by pressurising the porous casting slip, thus producing a ceramic body 9–10 mm thick, which is then dried and glazed. Fine fire-clay is used for the production of large washbasins and ceramic trays, as the firing of this material causes minimum or negligible deformations, thus making it possible to produce even very large pieces (washbasins nearly two metres wide).

### 100% RECYCLABLE PRODUCT

Sanitary ware is 100% recyclable; granulated material can be returned to the manufacturing process, or it can be employed in other fields of industry.

### ANTIBAK

A glazed inner ring and water closet drain which prevents dirt from being trapped.

## SANITARY CERAMICS

### Important instructions

Sanitary ceramics are made from ceramic material with a solid sintered body covered by white or coloured glaze. Sanitary ceramics are resistant to thermal differences caused by hot and cold water. Glazed surfaces are scratch-resistant, colour-stable and ageing-resistant. These surfaces are also resistant to acids, solvents and caustic liquids commonly used as household detergents.

### Care instructions

Glazed surfaces of ceramic products are resistant to acids and diluted chemical compounds contained in cosmetic products. Should a sanitary ceramic product with a ceramic siphon (WCs, urinals, etc.) be exposed to freezing temperatures, a suitable anti-freeze mixture must be added to the water in the siphon.

### Special instructions

#### Tolerances

Product dimensions, weights and colours are subject to the usual tolerances applicable to ceramics. It is especially important for rough installations to take into consideration manufacturing size variations versus catalogue dimensions. Precise shapes and dimensions as well as production settings are subject to changes without prior notice due to specific features of ceramic products.

#### Colours

Illumination type is of key importance while assessing a product's colour uniformity. You should therefore take into account that seemingly different colour tones can be perceived by a viewer under the same illumination and at the same distance from the source of light due to the product's shape variances and shadows cast by the product's surfaces.

#### Special notice

Graphic designs, ideas and style are protected and subject to technical changes without prior notice. Models and technical details correspond to the latest status at the time of printing. No responsibility is assumed for printing errors.

## JIKA•perla

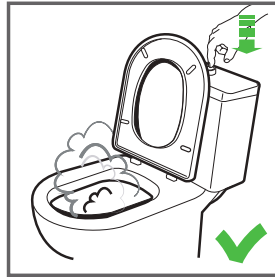

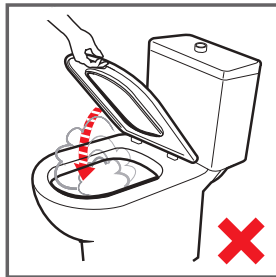

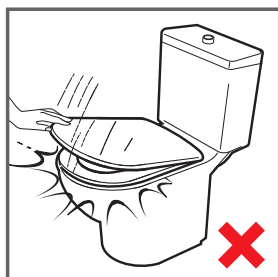

The special ceramic surface treatment has exceptional hygienic properties. It features a water-repellent finish, preventing the deposition of both dirt and scale. Water on this surface is bundled into little drops rolling off the surface quickly. It is also possible to use soapy water or special bathroom cosmetics on hydrophobic surface treatments of glass and glaze.

Upon the customer's request, this water-resistant surface treatment is applied to selected products from JIKA ceramic sets upon their baking. JIKA perla treatment is suitable for both outer and inner washbasin surfaces. Furniture washbasins are the only products not available with this surface treatment. JIKA perla treatment is only applied to the external surfaces of toilet bowls and urinals (JIKA perla treatment on the inner parts of a toilet bowl or a urinal would make proper rinsing difficult).

**Abrasive cleaning agents must not be used on surfaces treated with JIKA perla.**

## MAINTENANCE OF WC SURFACES

## TECHNOLOGY / FAUCETS /

Air test on the assembly line.

Kardex: automated high-capacity storage system.

Laser beam during logo engraving process (I).

Laser beam during logo engraving process (II).

Profile projector at the Quality Management Laboratory.

Corrosion chamber to simulate extreme conditions for material testing.

**In cooperation with the development centre and laboratories of Roca Sanitario, two assembly lines for the production of faucets were put into operation in Znojmo in 2011. Thus, LAUFEN CZ has significantly expanded its range of bathroom equipment made by its own production.** The beginnings of bathroom fixture production in the family firm Roca of Spain date back to the 1950s. Roca faucets, currently ranking among the highest-quality and most demanded products in this market segment, feature a number of patented technologies and are exported worldwide.

The means of production in the Znojmo plant include semi-automatic lines for faucet assembly, with a capacity of up to 220,000. The assembly of each piece is subject to the most stringent quality checks, starting with the proper inspection of components prior to the manufacturing process. The production process always includes laser engraving of the JIKA logo on faucet handles and hand showers.

The quality control department performs inspections of all component deliveries by means of the most up-to-date tools, such as the X-Ray Fischerscope to measure the thickness of individual layers of galvanized surfaces and to determine the composition of faucet body base material; a profile projector to measure the details of the tiniest components; various gauges; and last but not least, a salt-spray cabinet to simulate extreme conditions for materials being used. Each faucet is checked by means of an air-testing device; in addition, randomly selected samples are subject to the water test. The quality of our products is indisputable, which is why an extended warranty is provided for most of them.

JIKA faucets contain high quality ceramic cartouches with the Optim Eco and Ecodisk system.

An energy-saving aerator for washbasin faucets with a flow rate of 5–5.7 l/min. Aerators are made from special material on which limescale does not settle; thus, no more strenuous cleaning is necessary.

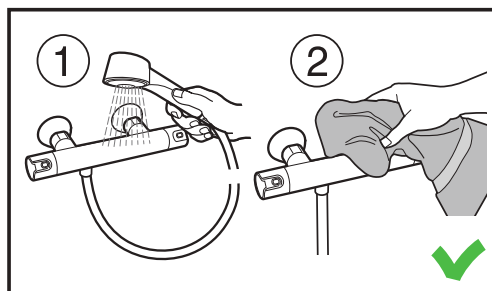

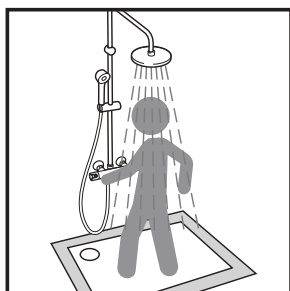

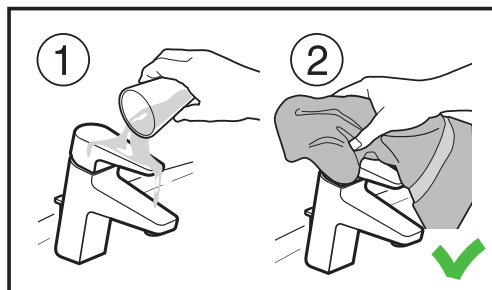

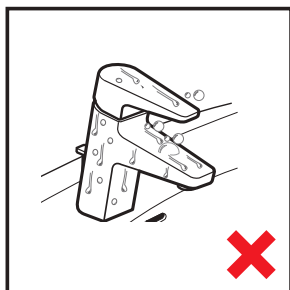

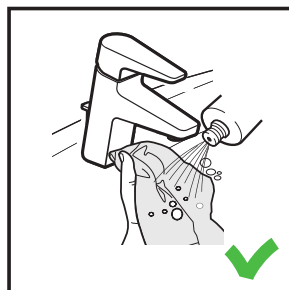

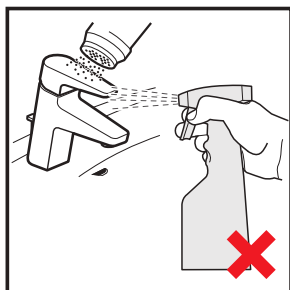

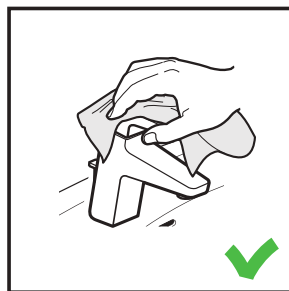

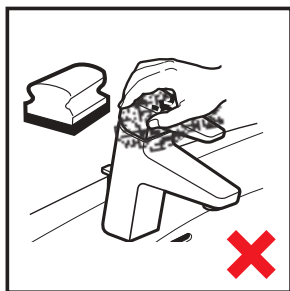

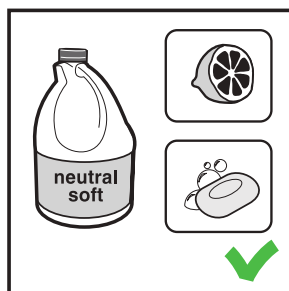

Top-quality stainless connecting hoses.

# BENEFITS AND MAINTENANCE / FAUCETS /

Products offered by LAUFEN CZ are provided with all the necessary certificates required on global markets. The ISO 9001 certificate guarantees the top quality level of LAUFEN CZ products and activities on both European and global markets. The company's ISO 14001 certification proves that environmentally-friendly processes are thoroughly applied.

## MAINTENANCE OF FAUCETS

# TECHNOLOGY / JIKA FURNITURE /

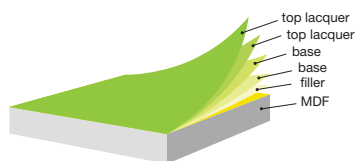

**JIKA furniture** is characterised by its high resistance to moisture and mechanical damage. Only the top quality adhesives are used for production. ABS edges, either 2.0 or 0.8 mm thick, are made of a material that is highly resistant to mechanical damage. The maximum loading capacity of cabinet hinges is 150 kg. Made by the renowned Hettich brand, hinges are designed for an incredible 150,000 cycles; door and drawer soft-close mechanisms are of the same quality. This material provides increased bending strength and is also stronger at screw mounting points thanks to the higher density of chipboard (supplied by European leader Egger) used in cabinet body production. In addition, this material produces negligible formaldehyde emissions: E1–E1/2 emission class. Chipboard surfaces are covered by a laminated sheet of 100 g/m<sup>2</sup>. MDF material coated with high-gloss five-layer PUR paint is employed for drawer faces painted on five sides. Thanks to UV filters used in production, lacquered surfaces do not age or yellow. Glass door inserts are made of hardened security glass; baked decor technology is employed to manufacture decorated doors from the Cubito set. Bathroom comply with strict European standards; as they meet the IP44 protection standard, these lights can be placed in “Zone 2”, i.e. 180 cm from the floor.

## QUALITY GUARANTEES

ISO 9001:2001, ISO 9001:2012. ■ LQS manufacturing process certification ■ TÜV certification for electric equipment.  
■ TÜV certification for lighting. ■ Edges bonded with PUR adhesives ■ Direct product quality control ■ BAT technologies for environmental protection.

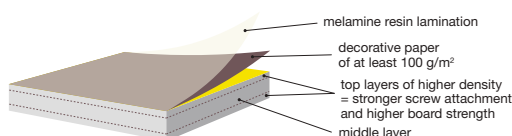

### Lacquered furniture

Five-layer PUR paint with zero formaldehyde emissions

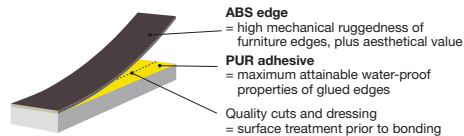

### LTD

Melamine resin lamination, wooden decors (decorative paper of at least 100 g/m<sup>2</sup>) (all design lines)

### ABS edges, PUR adhesives

## COMPARISONS

### Ordinary furniture

Laminated sheet of 70 g/m<sup>2</sup>. Three-layer paint based on acid solvent releases harmful formaldehyde and is noticeably less glossy – below 70 deg. lustre. Thick edges are attached with ordinary hot melt adhesive that falls apart when subject to 10-hour water soaking test.

### JIKA furniture

Laminated sheet of 100 g/m<sup>2</sup>. 3-5 layer PUR varnish with a high lustre (90–97 deg. lustre), free from formaldehyde, contains UV filters. ABS edges 2.0 and 0.8 mm thick are attached with top-quality PUR adhesive.

# BENEFITS AND MAINTENANCE / JIKA FURNITURE /

Ensure good air flow or ventilation in the bathroom.

When cleaning furniture, use only non-abrasive cleaning agents such as a soft cloth and soapy water. After cleaning, the furniture should be dried.

The bathroom furniture you have bought is made of materials suitable for use in bathrooms, but it is still necessary to observe certain usage and maintenance guidelines (see below).

Do not use chemicals to clean the furniture.

Bathroom furniture must not be exposed for a long time to the effects of standing water or extremely high air humidity. If there is a large increase in humidity in the bathroom, such as while bathing, ventilate the space well.

With long-term exposure to direct sunlight, the colour tone of furniture made of natural materials (wood, veneer) can change (oxidize). Therefore, do not place the furniture in contact with sunlight for a long time, and take care that objects placed on surfaces exposed to direct sunlight are not always in the same location.

Bathroom furniture must not be exposed repeatedly to spraying water, for example, from a washbasin or water from the shower when furniture is placed next to a bathtub or shower enclosure without a screen.

For cleaning mirrors, use only a fine cloth soaked in soapy water and well wrung out. The mirror must then be wiped dry. Under no circumstances should window cleaner be used for cleaning mirrors, because it could cause corrosion of the silver layer at the edges of the mirror.

Also pay attention to the tightness of the connection of the mounted siphon – water flowing from a leaky siphon can damage the inside of a drawer or cabinet.

If the furniture becomes dirty, immediately clean the surface.

**HUMIDITY PROOF + ABS**  
ABS edges glued with PUR glue = maximum level of humidity proof resistance and adhesion

**FURNITURE TESTED FOR AN EXTRA LOAD OF 100 KG**

**30 KG TEST**  
load capacity of drawers is 30 kg

**20 000 CYCLES**  
highest quality in door fitting, tested 20 000 open/close cycles

# BENEFITS AND MAINTENANCE / BATHTUBS AND SHOWER TRAYS /

## GELCOAT

The main component of gelcoat shower trays is limestone, which in conjunction with resins gives the possibility of creating a product with a subtle minimalist design.

### ADVANTAGES OF THE MATERIAL

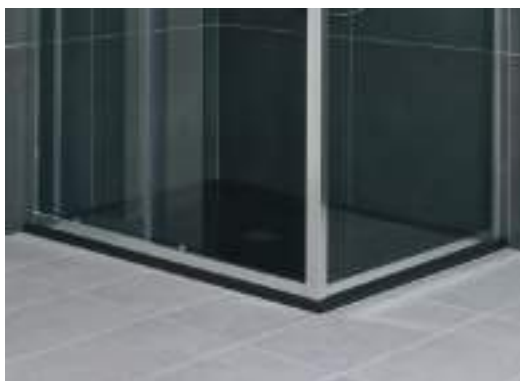

- the shower trays smooth surface ensures highly hygienic environment
- the surface is easy to clean and maintain
- the material is resistant to mechanical damage and UV radiation
- in case of surface damage the product can be repaired
- thanks to the low height of the product, it can be installed both on the floor and together with the floor

## ACRYLATE

### ADVANTAGES OF THE MATERIAL

- acrylic products of Jika brand are made of 100% acrylate
- warm surface and good insulation properties
- colour stability
- easy maintenance

## STEEL

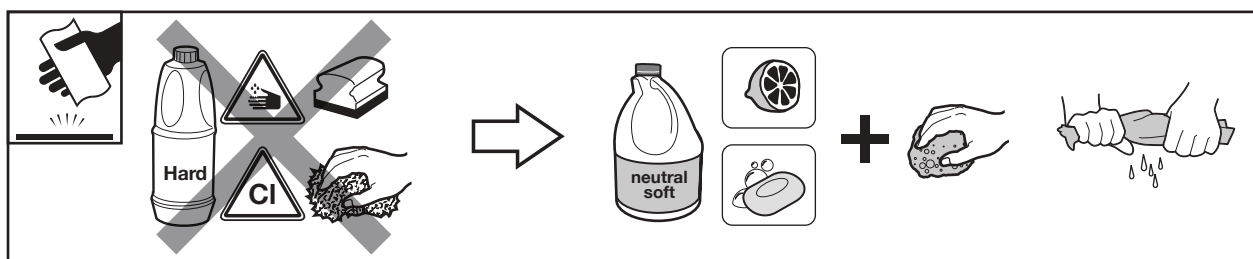

Jika steel bathtubs are produced from a steel strip with a thickness of 1,5 to 1,8 mm or 2,5 to 2,8 mm. After shaping on special presses, 3 layers of enamel are applied to the material. Each layer of enamel is then fired in a furnace.

### ADVANTAGES OF THE MATERIAL

- Jika steel products made of enamelled steel are hygienic, resistant to acids, scratches as well as abrasion
- it is not subject to change of colour or shape
- practically unlimited lifetime if properly maintained

## MAINTENANCE AND CLEANING

The surfaces, which the bathtubs and shower trays are made of, are not difficult to clean and care. Smooth surface barely catches dirt. For regular maintenance, we recommend using a sponge, a soft cloth and a small amount of antistatic detergent. Avoid using abrasives or solvents that damage the product surface. Remove strong dirt by a household liquid cleaner such as dishwashing detergent or soap. In the event of damage to the product surface, repair is possible using a repair kit. The surface should always be repaired by a specialist only.

## BATHROOM DESIGN LINE **CUBITO PURE /**

The JIKA Pure toilet can be purchased as a stand-alone, wall mounted and now also as a combined model. Each one is designed with the utmost comfort in mind, drawing on the experience of designers of the most comfortable toilets. The toilets are designed at a height of 43 cm from the floor. This facilitates use by an ageing generation, for whom it is more difficult to stand up. The Pure toilet's cistern and waste outlet are fully concealed, making it easier to clean the bathroom.

MAGIC **FIX**

JIKA • **perla**

# BATHROOM DESIGN LINE CUBITO PURE /

The double washbasin with furniture, in a white finish, will give your bathroom a perfectly fresh, modern image. The vanity unit offers ample storage room in its two drawers, optionally in a variant with four drawers. The 4-drawer Cubito vanity unit must be installed with H4944010390001 legs.

Asymmetrical washbasins represent a current solution for the bathroom space, not only for unusual bathrooms. The Cubito 75 cm washbasin with space to put things, either on the left or on the right as required, uses every single centimetre of space even in very small rooms.

Regardless of whether you opt for white bathroom furniture or wooden decor, your choice will always be right. Bathroom furniture in oak decor will make your bathroom pleasantly warm. White Cubito furniture, on the other hand, represents a commonplace bathroom choice.

MAGIC FIX

JIKA•perla

## BATHROOM DESIGN LINE **CUBITO PURE /**

### **Novelty of this year vanity unit with washbasin PURE**

It is a set of a cabinet and a washbasin. The cabinets are available in two colours: white and cappuccino. Their simple design perfectly matches the shape of the new washbasin that features a modern look and is easy to maintain. This set will become a dominant piece of your bathroom.

MAGIC **FIX**

JIKA • **perla**

# BATHROOM DESIGN LINE CUBITO PURE /

Cubito bathroom cabinets dazzle with their precise workmanship. Surface treatment in a contemporary wooden decor creates the impression of real wood. Their elegant style is enhanced by glossy handles embedded in the door edge. The materials used ensure high water resistance and long service life.

The Cubito furniture design line offers a wide range of combinations of various cabinet types and surface decors. The product range also includes washtops with cut-outs for 45-75 cm washbasins, vanity units or a roller container that can be complemented with a seat cushion. The washtop support may also be used as a towel rail.

The simple and clean design of frameless Jika Pure shower doors underscores the elegant style of the bathroom. They also nicely complement the Cubito line's minimalistic furniture with its contemporary wooden decor. They are manufactured in several designs, thus guaranteeing plenty of space. The brackets can be used to hang towels. (Laufen brackets are used beneath the lower shelf.)

MAGIC FIX

JIKA•perla

## BATHROOM DESIGN LINE **CUBITO PURE /**

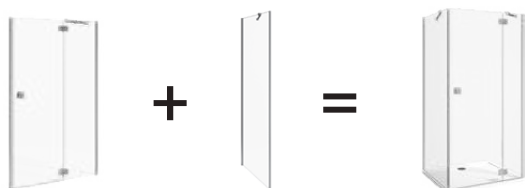

The Cubito Pure square washbasin is distinguished by its original shape: simple clean lines, thin walls and a geometric design that ensure that it will become a focal point of the bathroom. The Cubito Pure design line is expanded with platforms for under the washbasins.

Cubito-N washbasin faucets are characterized by their attractive and timeless design. Thanks to the combination of a round body and square control lever, it perfectly harmonizes with all washbasin shapes.

## FRAMELESS SHOWER ENCLOSURE, WALLS AND DOORS

Frameless shower screens and doors from the Pure collection are the perfect choice for a modern bathroom. They are made of high-quality 8 mm-thick safety glass with the Jika perla GLASS finish that greatly facilitates maintenance. If you have a passion for clean minimalist design, this style is your choice. Frameless shower enclosures can be installed on a shower tray or directly on the tiles.

Faucets and shower accessories can be found in the chapter „**FAUCETS AND SHOWER ACCESSORIES**“.

Modest bathroom size will not prevent you from creating a truly modern, quality and highly functional space for your personal hygiene. As if all this was not enough, even a washing machine can fit in! The floor area of the bathroom pictured being smaller than 5 sq meters ( $2,4 \times 2\text{ m}$ ) is no constraint.

An ideal product for small bathrooms is a close-coupled toilet cistern and WC pan with a total length of a mere 62 cm. In addition to this feature it uses 3/4,5 l in one flush, which saves a lot of water. Bathrooms without windows will also benefit from an insulated element against dew formation which prevents moisture from condensing on the tank surface.

## BATHROOM DESIGN LINE **TIGO** /

The pleasant impression created by Tigo bathroom furniture in ash decor is also enhanced by high-quality drawers with retarders, thanks to which they close slowly and quietly. In addition, the drawers have no siphon cutouts and therefore offer maximum storage space.

PROJECT AND  
OTHER PRODUCTS

Lyra Plus VIVA furniture is a great addition to the popular Lyra Plus bathroom collection. It is produced in white decor coated with high-gloss paint on the drawer faces. Thanks to its dimensions, the furniture offers enough space to store all bathroom necessities. The open shelving can be used for various accessories, creating a warm and welcoming mood or for things you need at hand.

The new Lyra Plus washbasin in a modern square style was designed in accordance with current bathroom trends. You can choose between dimensions ranging from 50, 55 to 60 cm in width or opt for a 40 cm wide small washbasin. The washbasin perfectly matches with vanity units from the Lyra Plus VIVA collection featuring two drawers and nickel-plated handles.

MAGIC FIX

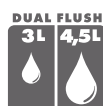

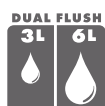

## BATHROOM DESIGN LINE **LYRA PLUS** /

The Lyra Plus series offers wall-hung WCs and close coupled WCs with innovative rimless technology. The close coupled WCs are available with horizontal and now also with vertical outlet. The rimless technology, i.e., a structure without a rinsing rim, prevents dirt from settling in hard-to-reach places, introducing a completely new dimension of cleanliness. The design naturally also provides economical flushing.

---

Sanitary ware is 100% recyclable; granulated material can be returned to the manufacturing process, or it can be used in other fields of industry.

**JIKA•perla**

A water-repellent surface finish preventing water, dust and scale accumulation on ceramic surfaces.

---

**MAGIC FIX**

Special non-visible fixing of the siphon cover.

---

# BATHROOM FURNITURE / BENEFITS /

Highest quality in the door fitting, tested 20 000 open/close cycles.

ABS edges glued by PUR glue = maximum level of the humidity proof resistance.

Load capacity of the drawers 30 kg.

Handle-less push-to-open drawer system

Full draw out runners on the drawers.

## Benefits of MIO-N furniture

The furniture is produced in two decors. In a classic white design coated with high-gloss paint on the drawer faces and matt sides and in an ash finish. Simple furniture design features the absence of handles thanks to a push-to-open drawer system.

- ① Quality runners with fully extendable mechanism
- ② ABS edges glued with PUR glue ensure humidity proof resistance and adhesion
- ③ Handle-less push-to-open drawer system
- ④ Timeless high-gloss paint on the drawer faces
- ⑤ Hettich runners with a lifelong quality guarantee
  - Hettich runners may include an optional 3D adjustment feature
- ⑥ Additional drawer railings hold taller items standing while keeping the drawer face perfectly vertical
- ⑦ Drawers tested to a weight of 30 kg.

## Benefits of Mio-N washtops

### The washtops have an HPL surface = hardened laminate:

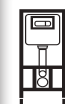

the HPL surface ensures:

- ① maximum scratch resistance
- ② maximum moisture resistance
- ③ thanks to the HPL thickness of 0.8 mm, it creates a strong and compact join with the ABS edge
- ④ The ABS edge ensures high mechanical resistance of the furniture edge and is also highly aesthetic
- ⑤ ABS edges are glued with PUR adhesive

**Tested by continuous soaking in water. After 30 days, the test sample and the edge joints showed no evidence of water disturbance.**

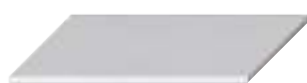

**The washtop and vanity cabinet solution is suitable for all common washbasin bowls.**

# BATHROOM FURNITURE / BENEFITS /

	Highest quality in the door fitting, tested 20 000 open/close cycles.
	ABS edges glued by PUR glue = maximum level of the humidity proof resistance.
	Runners of the drawers with the self-close system
	Full draw out runners on the drawers.

## Benefits of Cubito furniture

We offer Cubito furniture in dark pine and oak from laminated wood panels with a distinctive wood grain structure, or in a white version with a glossy white finish on the washtop and a body with a wood grain structure.

- ① Quality runners with a fully extendable mechanism and slow-closing system
- ② Drawers with no siphon cut-out provide more space for all your necessities; recommended to be combined with the space-saving JIKA H894246 siphon
- ③ Taller drawers allowing space for taller detergent containers
- ④ Contemporary wooden decors featuring the texture and depth of genuine solid wood
- ⑤ Hettich runners with lifelong quality guarantee
  - Hettich runners may include an optional 3D adjustment feature
- ⑥ Additional drawer railings hold taller items standing while keeping the drawer face perfectly vertical
- ⑦ Runners for under-counter vanity units feature the push-to-open function

Quality door hinges with the integrated Slowclose mechanism.

Vanity units, starting with the smallest one, employ a wallhung fitting system with 3D adjustment feature.

Side-mounted wallhung vanity units include quality glass shelves that take up minimum space. These units employ a wallhung fitting system with 3D adjustment feature.

# ORDER FORM FOR CUBITO FURNITURE WASHTOPS

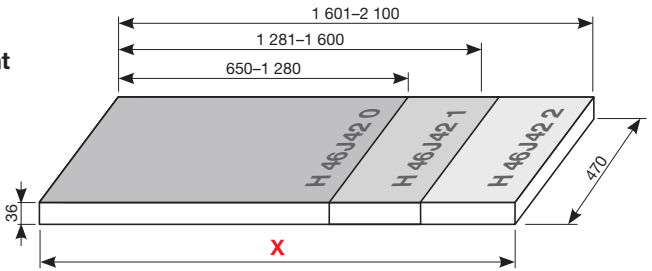

/washtop with cut-outs can only be used in combination with Cubito 45–75 cm washbasins,  
not applicable for drop-in washbasin H81742.2/

## WASHTOP WITHOUT CUT-OUT

(available in these colours: oak - 519, white - 500)

Choose one of the three counter types; enter the surface treatment (batch) and the specific length you want **x**:

- ☐ **H 46J42 0** 650–1 280 mm colour ..... length **x** ..... mm
- ☐ **H 46J42 1** 1 281–1 600 mm colour ..... length **x** ..... mm
- ☐ **H 46J42 2** 1 601–2 100 mm colour ..... length **x** ..... mm
- pcs .....

## WASHTOP WITH 1 CUT-OUT

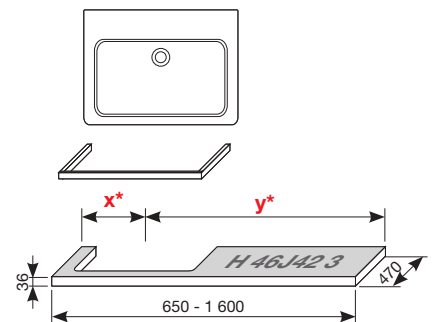

(available in these colours: oak - 519, white - 500)

Choose washbasin:

- ☐ 45cm ☐ 55 cm ☐ 60 cm ☐ 65 cm ☐ 75 cm

Enter the surface finish (colour) and the specific dimensions you require **x\*** and **y\***:

- ☐ **H 46J42 3** colour ..... **x\*** ..... mm
- y\*** ..... mm
- pcs .....

When ordering a washtop with one cut-out longer than 1600 mm, use product No. **H 46J42 4**, from the section with two cutouts. For dimension **z\***, enter 0 mm, and in that case the counter will have only one cut-out.

## WASHTOP WITH 2 CUT-OUTS

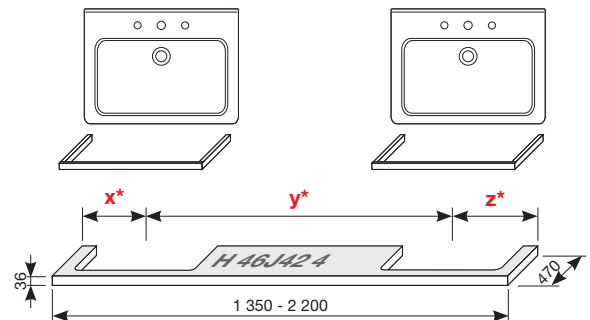

(available in these colours: oak - 519, white - 500)

Choose washbasin:

- ☐ 45 cm ☐ 55 cm ☐ 60 cm ☐ 65 cm ☐ 75 cm

Enter the surface finish (colour) and the specific dimensions you want **x\***, **y\*** and **z\***:

- ☐ **H 46J42 4** colour ..... **x\*** ..... mm
- y\*** ..... mm
- z\*** ..... mm
- pcs .....

**\* Minimum x, y, z dimension for individual washbasins:**

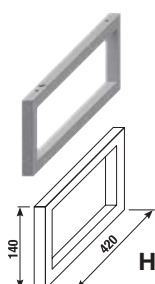

washbasin 45 cm - 215 mm washbasin 60 cm - 290 mm

washbasin 55 cm - 265 mm washbasin 65 cm - 315 mm

washbasin 75 cm - 365 mm

**with these dimensions you will always have an extra 55 mm for a washbasin collar**

**Optional:** A stand-alone washtop must be fitted with sufficient supports (please see the mounting instructions). Make sure to reinforce your washtop at the edges of the washbasin cut-out, plus use additional braces depending on the washtop length. All washtops with cut-outs can be used in combination with Cubito 45–75 cm washbasins. In your order, please specify the Article number of the selected washbasin. The maximum overlap of the counter over the console is 25 cm. The length of the counter without a cut-out between consoles is a maximum of 80 cm.

### Console for supporting washtop

Please consult the required number with a sales specialist. The number depends on the cut-out location and washtop length.

- H 45013 3 172 000 1** silver pcs .....
- H 47J00 4 000 000 1** matt white pcs .....

**Order number:** .....

**Ordered by:** .....

PROJECT AND  
OTHER PRODUCTS

## BATHROOM FURNITURE / BENEFITS /

Highest quality in the door fitting, tested 20 000 open/close cycles.

ABS edges glued by PUR glue = maximum level of the humidity proof resistance.

Load capacity of the drawers 30 kg.

Full draw out runners on the drawers.

Runners of the drawers with the self-close system

## BENEFITS OF TIGO FURNITURE

High-quality drawer slides with a retarding mechanism ensure that they close slowly and above-all quietly.

ABS edges resistant to damage are glued with PUR adhesive with the highest resistance to moisture.

The drawers are without a siphon cut-out and therefore offer maximum storage space.

Metallic handles are located at drawer edges. They are simple, perfectly functional and easy to clean.

A high cabinet with glass shelves offers maximum storage space. Cabinet hinges are tested for an additional load of 100 kg.

## Benefits of the new cabinets with the DEEP by JIKA washbasin

### 1+1 PACK CABINET + WASHBASIN

Manufactured in two versions, in the classic white with a semi-gloss front and an LTD body or in an ash wood veneer.

- ① A modern ceramic washbasin.
- ② Easy installation. The sink is glued to the cabinet using silicone, so there is no need to drill into the wall.
- ③ Hanging 3D fittings - ideal for fine-adjusting the position on the wall. Can be combined with H4944021760001 legs.
- ④ Fixed front.
- ⑤ Drawers with Hettich runners, with a soft-close and self-closing system.
- ⑥ Designer aluminium handles in a silver shade at the edge of the drawer.
- ⑦ ABS edges glued with PUR adhesive.
- ⑧ Black drawer body. Upper drawer with cut-out for standard siphon.

You can utilize every bit of space in your bathroom for your daily hygiene necessities. Ideal solutions include drawers of various sizes offered by some Lyra vanity units.

Drawer operation is very easy thanks to runners made by the renowned German manufacturer Hettich.

Simple opening is provided by hinges with a self-closing function.

## Benefits of Lyra furniture

The mirror cabinet with a rear storage area is perfectly suited for installation above a washbasin. It's an ideal combination of private storage space inside and open shelving.

## Benefits of Lyra pack furniture

Practical packaging of both products (washbasin and cabinet) in a single box.

# WALLHUNG WCs AND BIDETS / BENEFITS /

10-year guarantee on ceramic products.

Special ceramic surface treatment has exceptional hygienic properties. It features a water-repellent finish, preventing the deposition of both dirt and scale. JIKA perla treatment is only applied to external surfaces of toilet bowls and urinals.

Economic flushing mechanism with a 4,5-litre or 3-litre water volume option.

Flushing mechanism with a 6-litre or 3-litre water volume option.

System of flushing channels all around the toilet pan rim for perfect rinsing.

Glazed inner ring and water closet drain which prevents dirt from being trapped.

Guaranteed weight capacity of 400 kg.

Sophisticated mechanism slowing down seat closing.

Slim seat design with Slowclose mechanism.

Rimless. WC design without a water rim.

Flat flushing

Installation of ceramic products requires **levelling paste** or **the applicable damper kit**.

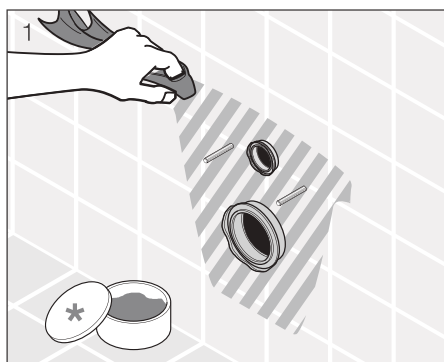

The revolutionary transformation of JIKA toilet bowls took another step forward. **Mio rimless**, a toilet which does not rinse the bowl, is truly a technological marvel that meets all current hygienic requirements. Dirt and harmful bacteria are kept out of inaccessible areas, and it comes with a big bonus: the design is truly unique.

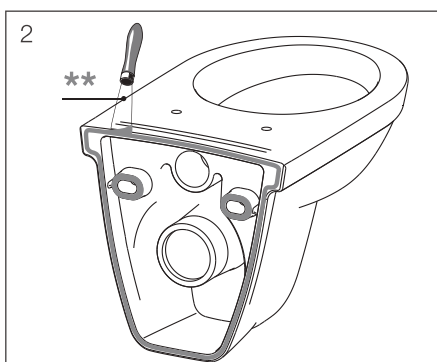

**H8929920000001** Laufen levelling tape for installation of ceramic products  
**H8946140000001** Levelling paste for the installation of ceramic products  
**H8926950000001** Damper kit for the installation of ceramic products

**IN ORDER TO ACCEPT YOUR WARRANTY CLAIM, INSTALLATION MUST BE PERFORMED IN ACCORDANCE WITH THE APPLICABLE MOUNTING INSTRUCTIONS AND VALID LEGAL REGULATIONS.**

H891425 0000001	bolt caps for duroplast seat and cover H893421/H893422

Modern seats with the Slowclose lowering system are a must. Seats do not interfere with the overall design; they are light, featuring state-of-the-art sandwich structure, which means that the WC seat is not overlapped by the lid. And by the way – it is the most cutting-edge and breakthrough design solution for seats. In addition, seat installation is extremely simple thanks to its clamp-based mounting - just press it and the seat can be removed.

## BENEFITS OF JIKA CONCEALED MODULES

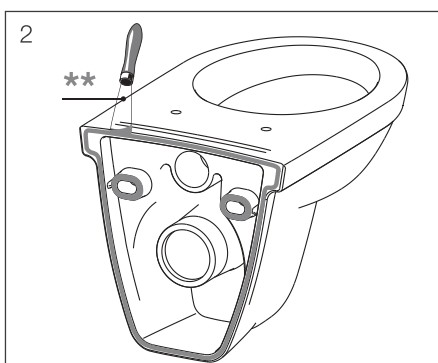

- Great quality and technology
- Modern push buttons with new design
- Easy installation and service
- Massive steel frames – WC and bidet stability tested for 400 kg load
- Extended 5-year guarantee, free service and support at the customer's premises within 5 days
- Special Antivandal push button for public spaces
- Special module for bathrooms in concrete panel buildings
- Silent operation
- Easy installation
- Quality materials, reliable design of mechanical parts, reliable water pipes
- The most silent inlet valve on the market, each piece tested for 10-bar load, rapid filling
- Plastic and silicone gaskets resistant to rotting
- Up-to-date push-button design, smooth and silent operation
- Extendable frames to accommodate a panel set and an assembly frame for auxiliary handles
- Broad choice of spare parts in stock
- Easy service accessibility, parts easily replaceable

## WC SYSTEM MODULE FOR WALLHUNG CLOSETS

Article number	Description
H8956520000001	WC System for wallhung closets with monoblock steel frame - floor and rear-wall anchoring, for drywall installation, pre-drilled holes in the frame, suitable for plasterboard structure installation - frame suitable for installation into a plasterboard structure - anti-dew insulated cistern - structure load-carrying capacity of 400 kg - massive self-supporting steel frame - silent inlet valve - replaceable push-buttons - insulated elbow, protects from dew formation at the module and water pipes - DN 90/110 drain elbow - floor installation, adjustable height - new outlet valve to be able to flush from 4,5 litres
<b>Optional:</b>	
H8936730000001	straight connection for WC module

Note: The factory setting for the valve in the concealed module is a flushing volume of 3/6 liters.

To use JIKA concealed modules, a flow pressure of at least 1 bar is required.

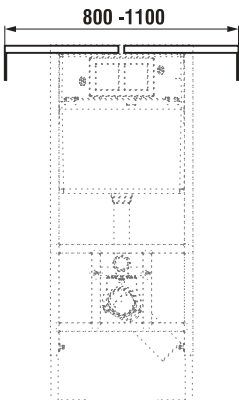

## WC SYSTEM MODULE FOR WALLHUNG CLOSETS OF A PANEL-BUILDING SANITARY UNIT

Article number	Description
H8936500000001	Panel set for frame H895652 mounting into side walls of a panel-building sanitary unit
<b>Advantages:</b>	
– width range from 800 to 1100 mm	

### Ideal solution for a panel-building bathroom

This option will be appreciated by all customers that are planning a renovation of their panel-building bathroom, including installation of a wallhung WC. This option is namely designed for installations with a plumbing system behind the module (such as water and sewage pipelines, heating-ventilation systems, gas pipes, etc.). Thanks to its adjustable side mountings for universal installation, JIKA Pro WC System module can be adapted to any panel-building bathroom.

## WC SYSTEM MODULE FOR WALLHUNG CLOSETS

Article number	Description
H8936440000001	WC Fluxor System is a choice for wallhung WCs with a self-supporting steel frame, installed in public rooms <ul style="list-style-type: none"> <li>- anchored to the floor and the back wall</li> <li>- designed for pressure-water flushing (pressure push-button is included in the package)</li> <li>- optimum pressure of 5-6 bars, minimum pressure of 3 bars</li> <li>- designed for dry installation</li> <li>- structure load-carrying capacity of 400 kg</li> <li>- Roca logo on push-button</li> </ul>

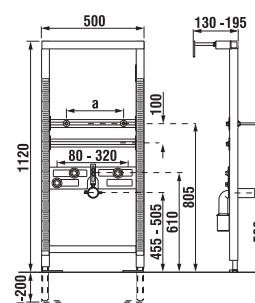

Optional:  
H8936730000001 straight connection for WC module

## CONCEALED MODULE FOR WASHBASIN

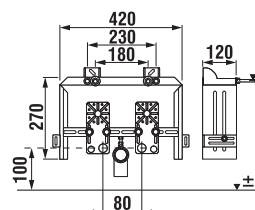

Article number	Description
H8936560000001	Washbasin System <ul style="list-style-type: none"> <li>- designed for forewall installation or wall-mounting</li> <li>- smoothly adjustable feet, height adjustable from 0 to 200 mm</li> <li>- module height 1120 mm</li> <li>- robust structure, load-carrying capacity of 150 kg</li> <li>- <b>rubber adapter of the waste elbow from DN 50 to 40 (included)</b></li> <li>- complete mounting kit</li> <li>- height-adjustable</li> </ul>

## CONCEALED MODULE FOR BIDET

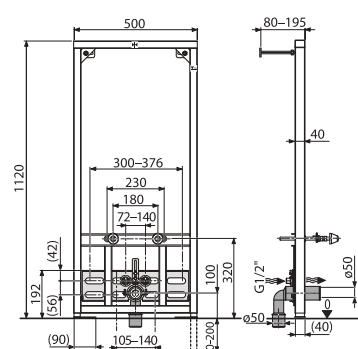

Article number	Description
H8936430000001	Basic Bidet System for wallhung bidets - setting into brickwork necessary

## CONCEALED MODULE FOR BIDET

Article number	Description
H8966550000001	Bidet System for bidet, <ul style="list-style-type: none"> <li>- designed for forewall or bearing-wall installation</li> <li>- smoothly adjustable feet, height adjustable from 0 to 200 mm</li> <li>- module height 1120 mm</li> <li>- robust structure, load-carrying capacity of 400 kg</li> <li>- complete mounting kit</li> </ul>

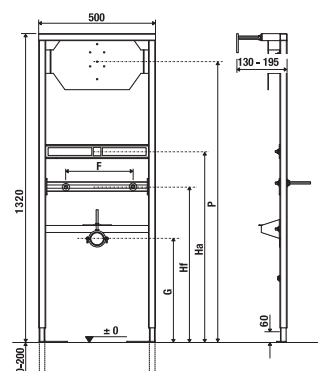

## CONCEALED MODULE FOR URINAL

Article number	Description
H8936010000001	Urinal System for urinal <ul style="list-style-type: none"> <li>- designed for forewall or bearing-wall installation</li> <li>- smoothly adjustable feet, height adjustable from 0 to 200 mm</li> <li>- module height 1320 mm</li> <li>- robust structure, load capacity 130 kg</li> <li>- waste elbow DN 50</li> <li>- complete mounting kit</li> </ul>

Optional:  
H8948280000001 automatic flushing device with infra-red sensor (for details see page 161)

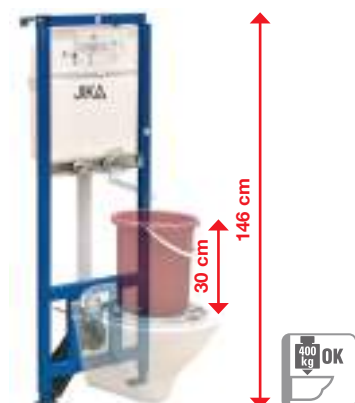

For urinal module adjustment follow the technical information of the urinal.

## WASTE SINK SYSTEM FOR WASTE SINK

Article number	Description
H8936070000001	Waste Sink System for Mira sink (H851049) - with monoblock steel frame - floor and rear-wall anchoring - single or Dual Flush button must be ordered separately - designed for dry installation - single or Dual Flush button - universal flushing valve, push-buttons can be replaced any time - load-carrying capacity of 400 kg - for subsequent walling-in (from 15 to 75 mm) - fixed frame - adjustable final height of the sink - adjustable final height of the water supply connection - angle valve with fixed water inlet through cistern wall - new outlet valve

Faucet and sink are not a part of the sink module. Must be ordered separately.

## PNEUMATIC SET

Tube length 2.35 m.

Article number	Description
H8956430000001	pneumatic set for concealed modules H895651/H895652

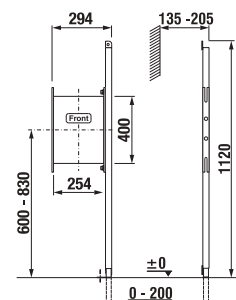

## SYSTEM HANDICAP

Article number	Description
H8936420000001	Handicap WC system for toilet handbar attachment, designed for mounting onto Modul frames

To install Handicap WC system, you need to bolt up one side of the module to the supporting frame of the flush-mounted module (for WC, washbasin or bidet) and the other side to the metallic plasterboard structure.

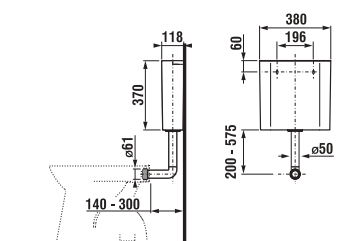

Left/right variation that can be used for flush-mounted wallhung WC modules, as well as bidets and washbasins.

## PLASTIC CISTERN FOR FREESTANDING WCs

Article number	Description
H8937100000001	plastic cistern for freestanding WCs, side cistern filling 3/8", Dual Flush, 3/6 l
H8937110000001	plastic cistern for freestanding WCs, side cistern filling 3/8", with grasshopper decor for children, Dual Flush, 3/6 l

JIKA concealed modules are compatible with all JIKA floorstanding and wallhung WCs. The outlet elbow is DN90/DN100, there is no need to use reduction for outlet connection. You can find instructions in every package of the JIKA modules. A mounting kit is also included.

H8936640070001	PL3 push-button Dual Flush, chrome-plated matt
H8936650000001	PL3 push-button Single Flush Inox Antivandal, stainless steel

Solution of water saving – let everything flush, it is still being saved:

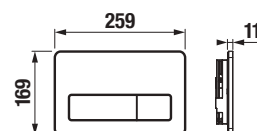

- Single Flush – always will be flushed the same amount of water that can be set for example to 4,5 liters for closets which are certified for this volume.
- Dual Flush – small or big flush as necessary.

## PL3 AUTOMATIC PUSH-BUTTON WITH INFRARED SENSOR

Single Flush, infrared sensor  
H8906560000001

Article number	Description
H8906560000001	non-contact push-button PL3-E with infrared sensor, stainless steel
	- use only for concealed modules with a mounting depth of 13 cm (H895650, H895651, H895652)
	- frequency: 50/60 Hz
	- power: 12W
	- coverage: IPX4
	- detects the presence of a person in the scanning area of 40-110 cm from the sensor
	- adjustable flushing 4/2l, 4,5/3l, 6/3l
	- possibility of additional manual flush by push-button, f.e. during the cleaning or power failure (Single flush)
	- the product must be installed by a certified person in accordance with the existing standards in the country.

Push-button comes with integrated power supply.

Flushing push-buttons by Roca are compatible with JIKA concealed modules.

PROJECT AND  
OTHER PRODUCTS

# WC COMBINATIONS, FLOORSTANDING WCs AND BIDETS / BENEFITS /

10-year guarantee on all ceramic products.

JIKA•**perla**

Special ceramic surface treatment has exceptional hygienic properties. It features a water-repellent finish, preventing the deposition of both dirt and scale. JIKA perla treatment is only applied to external surfaces of toilet bowls and urinals.

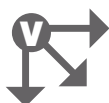

Economic flushing mechanism with a 4,5-litre or 3-litre water volume option.

System of flushing channels all around the WC pan rim for perfect rinsing.

Glazed inner ring and WC drain prevent dirt from being trapped.

Vario outlet permits a horizontal, vertical or oblique connection.

Sophisticated mechanism slowing down seat closing.

Slim seat design with Slowclose mechanism.

WC cistern includes an element against the formation of condensation.

Sanitary ware is 100% recyclable; granulated material can be returned to the manufacturing process, or it can be employed in other fields of industry.

Rimless. WC design without a water rim.

Flat flushing

GOLEM ANTIVANDAL SIPHONIC URINAL WITH RADAR SENSOR AND INTEGRATED POWER SUPPLY

MAINS-POWERED

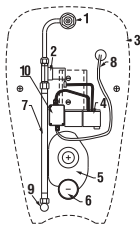

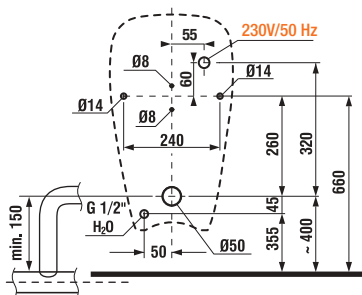

Article number	Description
H8430700004901	„Golem ANTIVANDAL urinal, power supply 24V, with inner water inlet, including installation kit and siphon 1 l, with power supply 230V AC“

This product includes radar circuitry attached to a mounting rail - 24V power supply, a solenoid valve, connecting hoses, an angle valve with filter and non-return valve, an inlet valve with gaskets, a siphon, a mounting kit and a assembly template.

Optional:	Description
H8940770000001	remote control for sensor-controlled flushing devices
H8910620000001	Golem urinal strainer

Spare parts:	Description
H8430700000001	Golem Antivandal vacuum-system urinal, ceramics, internal water inlet
H8910740000001	radar sensor for Golem ANTIVANDAL, with power supply 230V AC, mains power supply
H8903490008901	installation kit with white covers, 1 pair
H8903490008911	installation kit with chrome-plated covers, 1 pair
H8920030000001	siphon, horizontal/vertical outlet

- 1 - water supply
- 2 - electromagnetic valve
- 3 - ceramic urinal
- 4 - electronics with a radar sensor for a 230V power supply
- 5 - siphon
- 6 - drain pipe, Ø 50 mm
- 7 - interconnecting hoses
- 8 - a 230V supply cable
- 9 - corner valve for the water supply
- 10 - power supply 230V AC

RECOMMENDED TO BE  
COMBINED WITH SUITABLE

## SIPHONIC URINAL **GOLEM** ANTIVANDAL WITH RADAR SENSOR

### BATTERY-POWERED

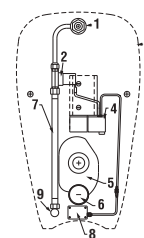

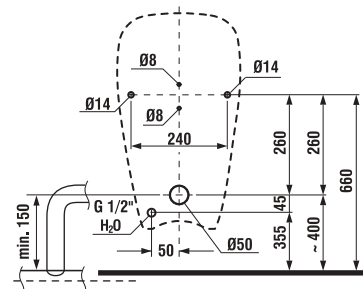

Article number	Description
H8430700004891	Golem Antivandal urinal, battery-powered, with inner water inlet, including installation kit and siphon 1 l

This product includes radar circuitry attached to a mounting rail - 6V power supply, a solenoid valve, connecting hoses, an angle valve with filter and non-return valve, an inlet valve with gaskets, a siphon, a mounting kit, a battery holder, and alkaline AA batteries (4 pcs, 1.5V, 2700mAh) and an assembly template. Battery service life - 1 year (also applies to public areas).

Optional:	Description
H8910620000001	Golem urinal strainer
H8940770000001	remote control for sensor-controlled flushing devices

Spare parts:	Description
H8430700000001	Golem Antivandal vacuum-system urinal, ceramics, internal water inlet
H8910600000001	Golem Antivandal radar sensor, battery power supply
H8903490008901	installation kit with white covers, 1 pair
H8903490008911	installation kit with chrome-plated covers, 1 pair
H8920030000001	siphon, horizontal/vertical outlet

Battery box attached by a hook and loop tape at the bottom of ceramics.  
Battery service life - 1 year (also applies to public areas).

RECOMMENDED TO BE  
COMBINED WITH SUITABLE  
CONCEALED MODULE  
FOR URINALS

## SIPHONIC URINAL **LIVO** ANTIVANDAL WITH RADAR SENSOR

### POWERED 24V DC

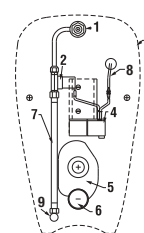

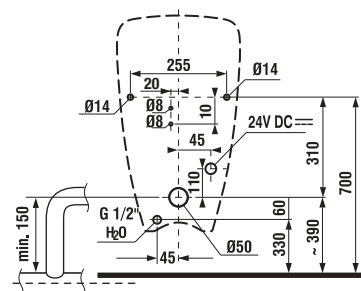

Article number	Description
H8402000004831	siphonic urinal Livo Antivandal, with radar sensor, powered 24V DC, with inner water inlet including siphon (1 l) and installation kit

This product includes radar circuitry attached to a mounting rail - 24V DC power supply, a solenoid valve, connecting hoses, angle valve with filter and non-return valve, an inlet valve with gaskets, a siphon, a mounting kit and an assembly template.

Optional:	Description
H8910730000001	Livo urinal strainer
H8940770000001	remote control for sensor-controlled flushing devices
H8950910000001	power supply for one Golem/Livo Antivandal/Domino Sensor urinal 24 V, DC
H8950710000001	power supply for up to five Golem/Livo Antivandal/Domino Sensor urinal 24 V, DC
H8950720000001	power supply for up to nine Golem/Livo Antivandal/Domino Sensor urinal 24 V, D

Spare parts:	Description
H8402000000001	Livo Antivandal vacuum-system urinal, ceramics, internal water inlet
H8910720000001	Livo Antivandal radar sensor, mains power supply
H8925360008901	installation kit Livo with white covers
H8925360008911	installation kit Livo with chrome-plated covers
H8920030000001	siphon, horizontal/vertical outlet

- 1 - water supply
- 2 - electromagnetic valve
- 3 - ceramic urinal
- 4 - electronics with a radar sensor for a 24 V power supply
- 5 - siphon
- 6 - drain pipe, Ø 50mm
- 7 - interconnecting hoses
- 8 - a 24 V supply cable
- 9 - corner valve for the water supply

Livo Urinal installation requires torsion bars no. H892536 (thread length of 40 mm), included in the package.

SIPHONIC URINAL LIVO ANTIVANDAL WITH RADAR SENSOR

BATTERY-POWERED

Article number	Description
H8402000004891	siphonic urinal Livo Antivandal with radar sensor, battery-powered, with inner water inlet including siphon (11) and installation kit

This product includes radar circuitry attached to a mounting rail - 6V power supply, a solenoid valve, connecting hoses, an angle valve, an inlet valve with gaskets, a siphon, a mounting kit, a battery holder, and alkaline AA batteries (4 pcs, 1.5V, 2700mAh).

Battery service life - 1 year (also applies to public areas).

Optional:	Description
H8910730000001	Livo urinal strainer
H8940770000001	remote control for sensor-controlled flushing devices

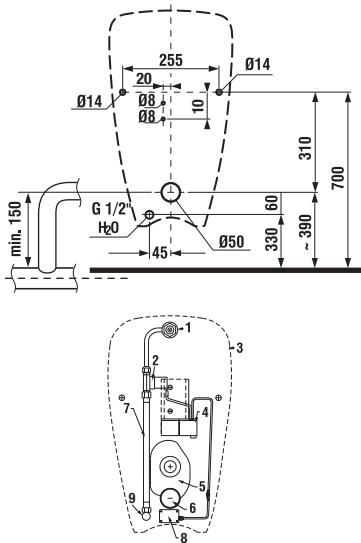

Spare parts:	Description
H8402000000001	Livo Antivandal vacuum-system urinal, ceramics, internal water inlet
H8910700000001	Livo Antivandal radar sensor, battery power supply

URINALS WITH INSIDE WATER INLET FLUSHING DEVICE

WITH INFRA-RED SENSOR

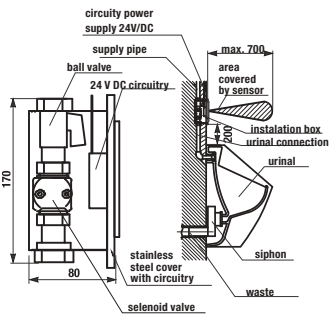

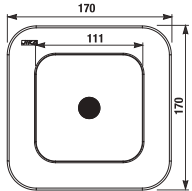

Article number	Description
H8948280000001	automatic flushing device with infra-red sensor - for urinals with inside water inlet H843060, H840200
<ul style="list-style-type: none"><li>• reacts to a person present in front of the urinal at the distance below 0.7 m for more than 7.5 secs.</li><li>• flushing takes place upon person leaving the zone covered by the sensor</li><li>• flushing time can be pre-set from 0.5 to 15.5 secs.</li><li>• flushing time setting and optional sensor turn-off via remote control device SLD 03 H894078</li><li>• sensor turn-off feature</li><li>• automatic flushing 24 hours upon the last valve activation</li><li>• to be combined with H8936010000001 URINAL SYSTEM for urinal</li></ul>	

- technical specifications:
- stainless steel cover dimensions: 170 × 170 × 10 mm
  - installation box dimensions: approx. 140 × 140 × 75 mm
  - supply voltage: 24 VDC
  - power input: 7 W
  - range covered: 0.3 - 0.7 m
  - recommended operating pressure: 0.1 - 0.6 MPa
  - flow rate: 12 l/min. (estimated)
  - water inlet: external thread G 3/4"
  - water outlet: external thread G 3/4"

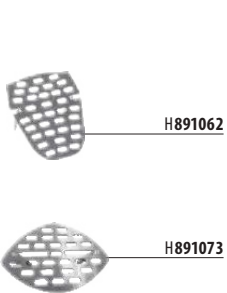

<b>Optional:</b>	<b>Description</b>
H8950910000001	power supply for one Golem/Livo Antivandal/ Domino Sensor urinal 24 V, DC
H8950710000001	power supply for up to five Golem/Livo Antivandal/ Domino Sensor urinal 24 V, DC
H8950720000001	power supply for up to nine Golem/Livo Antivandal/ Domino Sensor urinal 24 V, D

<b>Spare parts:</b>	<b>Description</b>
H8940720000001	infra-red sensor for flushing device (for H894828), service part

Product includes compression-moulded stainless steel cover with control circuits, plastic installation box with a solenoid valve, ball valve and brass screw connections.

FLUSHING DEVICE FOR URINALS WITH OUTER WATER INLET  
WITH INFRA-RED SENSOR

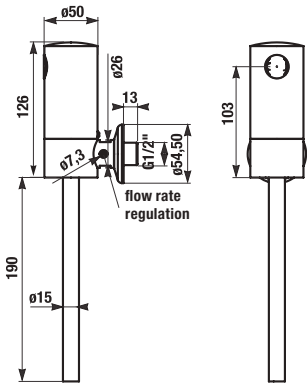

**Article number** H8948270000001 **Description** automatic wall mounted flushing device with infra-red sensor - for urinals with external water inlet, H843061, H840201 and H844100

- brass body, polished chrome surface
- reacts to a person present in front of the urinal at the distance below 0.7 m for more than 7.5 secs.
- flushing takes place upon person leaving the zone covered by the sensor
- flushing time can be pre-set from 0.5 to 15.5 secs.
- flushing time setting and optional sensor turn-off via remote control device H894078
- automatic flushing 24 hours upon the last valve activation
- water flow rate control via a ball valve
- battery status control

**technical specifications:**

- flushing device body dimensions: approx. 140 x 50 mm
- supply voltage: 9 V
- power input: 1.2 W
- range covered: 0.3 - 0.7 m
- recommended operating pressure: 0.05 - 0.6 MPa
- flow rate: 20 l/min. (estimated)
- water inlet: external thread G 1/2"
- water outlet: tube with outside Ø 15 mm
- tube length: 190 mm

Product includes compression-moulded stainless steel cover with control circuits, plastic installation box with solenoid valve, ball valve and brass screw connections.

RECOMMENDED VALVES FOR URINALS GOLEM H843061, LIVO H840201 AND KORINT H844100

inlet fitting with with pressure valve

Optional:	Description
H894804	set (cap, tube) with timer

Illustration photo

Thanks to its ingenious shape, the small washbasin from the Baby collection handles splashing of children with ease.

A playful detail on the small washbasin from the Baby collection is like a new friend.

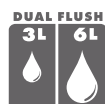

The first step in teaching children to save water: 1 drop for large flush, 3 little drops for small flush. And it can be fun!

Floorstanding Baby WC can also be combined with a flush-mounted module. The new push-button design will create yet another playful detail in a children's bathroom. The green ring can be replaced by a matte or glossy silver ring.

Seat for WC Baby is available in several colour versions.

# BATHTUBS AND BATH SCREENS /

## Benefits of acrylic bathtubs

- The material of acrylic bathtubs features good insulation properties, making their surfaces nicely warm.
- JIKA sanitary acryl keeps its colour for a long time and is easy to clean.
- Acrylic panels provide for quick and effortless attachment by means of a special mounting system, thus being a suitable alternative to costly walling-in.
- Panels are made of the same quality 100% acryl, which is easy to clean – similar to bathtubs.
- If necessary, they provide for secure access to piping underneath the bathtub.

100% acrylic  
All our bathtubs and trays are made of 100% acryl.

Made in the European Union.

5-year warranty for bathtubs.

## Benefits of bath screens

- Extended three-year warranty.
- Cubito bath screens compatible with JIKA bathtubs (except Riga and Riga mini bathtubs).
- Frameless structure and 6 mm safety glass.
- Solid profiles in silver colour.
- JIKA perla GLASS finish.

Hinge at the two-piece bath screen with 6 mm-thick tempered safety glass.

Seal gasket at the bath screen pivoting piece prevents water leakage during baths.

Stability is ensured by this support, a component of the two-piece bath screen.

3 year warranty for bath screens.

**20 000 CYCLES**  
Bath screen hinges are tested for 20 000 cycles.

Safety thickness of bath and shower screens.

All bath screens are offered exclusively with the JIKA perla GLASS finish.

## SHOWER ENCLOSURE PURE FRAMELESS

You can create a frameless shower enclosure by combining shower doors with a fixed screen.

Combine the shower enclosure with Pure, Italia and Padana shower trays.

**Shower enclosures can be installed directly on the floor when adhering to dimensional possibilities.**

WARNING - COMBINATION OF SHOWER DOORS AND FIXED WALLS:

Make sure dimensions of your shower tray pair well with the enclosure to be installed. The A/B dimensions define an outer edge of the wall profile. Ensure you choose the right-sized layout for your new shower enclosure.

## Benefits of gelcoat shower trays

- The shower tray's smooth surfaces guarantee a perfectly hygienic environment.
- Gelcoat material is easy to clean and maintain.
- Shower trays are highly resistant, ensuring durable service for any bathroom.
- Thanks to their resistance to UV radiation, Padana shower trays will keep their brightness for a long time.
- Shower tray height is a mere 3.5 cm, making it look very subtle and graceful.

The Padana shower trays are made from innovative gelcoat material, and thanks to their special qualities they should not escape your attention. Limestone, the main product component, in combination with resins forms a very unique material. Combined with their minimalist design, Padana shower trays become a highlight of any bathroom.

## Benefits of Cubito-N faucets

Choose the Cubito-N faucet that best matches your washbasin or bowl. They are available in three different heights.

- High-quality ceramic cartridges Ø 35 mm (without flow/hot water limiter)
- Aerators preventing scale deposition
- Can be combined with a wide range of Cubito-N shower accessories

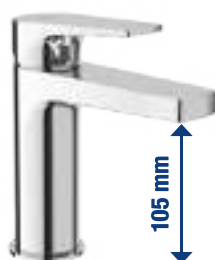

aerator Neoperl hidden – flow rate 5 l/min

for washbasin and sink faucets, the possibility of choosing an aerator with different flow rates

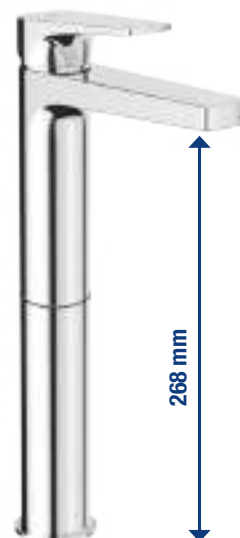

AERATOR with adjustable water flow

**STANDARD**

**L**

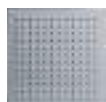

**XL**

## Ultra thin head shower Cubito-N

Ultra thin head shower Ø 300 mm (or square 300 × 300 mm) guarantees an intense showering experience. Because of its flow-limiter set to 12 l/min, it is also an economical solution. Users will especially appreciate the rain function, as the shower arm design allows for a simple installation either from the ceiling or a side wall.

- Ø 300 mm for round variant, 300 × 300 mm for square variant
- Flow-limiter for 12 l/min,
- Rain function
- Mounting options either from the ceiling or from a side wall by means of shower arms

Cubito head shower works reliably regardless of the amount of scale. This is because it features Clean Touch technology for easy cleaning.

**SHOWER SET**  
shower set includes a hand shower, a hose, and a holder or a shower bar

### Clean touch

Function that facilitates cleaning of shower jets; soft rubbers guarantee easy removal of limescale

All faucets are tested for 70 000 cycles.

## MIO-N

## Benefits

- Finger-adjustable water flow on sink faucets
- Aerators are made from a special material that prevents scale deposition
- Wall mounted bathtub and shower faucets feature non-return valves preventing siphonage of dirty water
- Certified quality connection hoses made of stainless steel
- Shower column equipped with a height-adjustable head shower and two hand shower holders (fixed holder built into the faucet body, sliding holder on the slide bar)
- Complete assembly in the Czech republic, including 100% testing of all faucets
- Wide range of shower accessories

finger-adjustable water flow on washbasin faucets

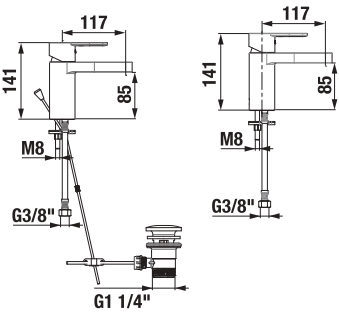

for washbasin and sink faucets, the possibility of choosing an aerator with different flow rates

## Thermostat Benefits

### ■ Speed and precision

#### - Quick reaction

High-quality thermostatic valve provides for instant supply of mixed water at the required temperature level.

### ■ Water savings – Eco stop – the button that saves water.

Mio thermostatic shower column features a water-flow control valve that informs the user of reaching 50 percent of the faucet's design flow-rate. In order to set a higher flow-rate, you need to press the button to unlock.

### ■ Safety – Safety stop – the button that protects.

Thermostatic valve control includes a built-in safety button that prevents the setting of the water temperature above the comfortable and safe level of 38 °C. In order to set water temperature above 38 °C (but not more than 50 °C), you need to press the button to unlock.

### ■ Hot water supply blocking

of cold water supply failure, the smart thermostat reacts instantly, blocking hot water supply to prevent the user from being scalded.

### ■ Stable water temperature setting

- the smart thermostat ensures a constant water temperature with no temperature fluctuations.

■ **Dual diverter** - for the bathtub and shower thermostatic column there is a diverter for switching between bathtub filling or hand-spray or head shower.

Shower accessories not included in the package.

We recommend Rio shower sets in combination with faucets from the Lyra design line.

\* 07/2021 technical drawing update

## 40 cm height-adjustable

The Lyra telescopic shower column will please users of any bathroom. Thanks to its height adjustability, you can “raise” the head shower by up to 40 cm. With standard column installation at a height of 75 cm from the floor level, you can have disc-type head shower at a height from 180–220 cm, which should satisfy even the tallest users. A shower equipped with a head shower and a hand-spray is easy to switch. Thanks to the Clean touch feature, shower nozzles are very easy to clean, avoiding complicated and difficult scrubbing.

# FAUCETS AND SHOWER ACCESSORIES /

## Lyra Smart

## Benefits

- Ceramic cartridges, Ø 35 mm
- Aerators are made from a special material preventing scale deposition, thus eliminating difficult scrubbing
- Wal mounted bathtub and shower faucets feature non-return valves preventing siphonage of dirty water
- Wide range of shower accessories

Aerator Neoperl concealed - flow rate 5 l/min

# FAUCETS AND SHOWER ACCESSORIES /

## Benefits

- Advanced hygiene solution
- Simple and comfortable use, designed not only for public areas, but also for households
- Intelligent electronics with automatic setup depending on ambient conditions, the Auto Sensor
- Safe choice for health organisations to increase protection against legionella bacteria
- Water and power saving components allowing a flow rate of 6 l/min, thanks to its aerators
- Safety water-off feature after 5 minutes
- Turns on water immediately as soon as hands enter the scanned zone, up to 30 cm from the sensor
- Turns off water automatically as soon as hands are removed from the zone (with a delay from 0.25 to 7.75 s depending on the setup)
- Supports delay set-up for water turn-off function and sensor off function by means of a remote control (product number H8940780000001)
- Two power supply options – 24 V DC mains or 6 V battery (4x AA battery 1.5 V)
- Battery status monitoring for the battery-supplied version

**Sensor-control faucets contribute significantly to water savings. The sensing zone with water off function from 0.25 to less than 8 seconds upon removing one's hands from the sensor's effective range makes sure that your money is not wasted.**

## ELECTRONIC WASHBASIN FAUCET SENSOR

Article number	Description
H3151T20043221	electronic basin mixer, fixed spout 118 mm, without waste, flow rate 6 l/min, 2x angle valves with a filter, for 24V DC power supply (to be ordered separately depending on the number of mixers connected), chrome

# JIKA SUPPORTS RISING STARS IN DESIGN WITH ITS PROGRAM FOR STUDENTS

Laufen CZ works with the ceramic design students from the University of West Bohemia of Plzeň and from the Arts and Crafts College of Prague on a number of various projects. The task of the thesis for the students of Maxim Velčovský's studio of the Arts and Crafts College had the following wording: "Past - Present - Future".

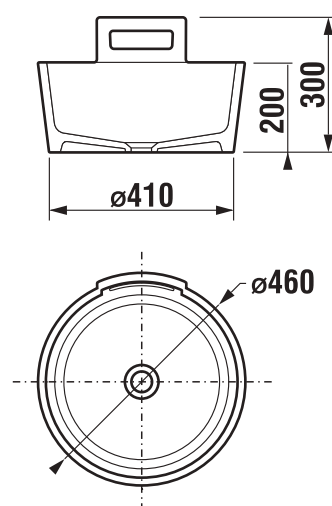

The Džber (Tub) washbasin is the very first product resulting from the JIKA ART project. The objective of the JIKA ART project is to bring art to today's ordinary bathrooms while providing opportunities to young designers. The washbasin, showcasing a strong époque inspiration, was designed by Barbora Vinařová.

Džber is a countertop washbasin. It will shine on wooden surfaces designed for bathroom interiors, as well as on ceramic and other surfaces. The diameter of its bottom part is 41 cm, with a diameter of 46 cm at the top and a height of 20 cm; washbasin height is increased by the 10 cm handle (that can be used as a towel hanger). The Džber washbasin is produced in a limited edition.

## OUR DESIGNER

**Michal Janků** JANCÍ Co.

Michal Janků has been working with the company Laufen CZ, the owner of JIKA brand, since 1992. Throughout this period he has been designing interiors of showrooms and exhibition stands at trade fairs, not only for Laufen CZ and its affiliated groups in Switzerland, Spain, Russia and other countries, but also for his own customers.

Between 2004 and 2008 he won numerous awards for the most attractive exhibitions in the Czech Republic and abroad. Recently, he has been involved in the design of many JIKA brand collections, designing, among other things, Cubito bathroom furniture, Lyra plus furniture, complete Tigo bathroom series and new ceramic products and furniture for Mio, Mio-N series.
